**CONTENT AND OPERATION**

**Existing law**

Current law provides that, if the legislative authority of a municipal corporation that follows state statutory procedures establishes a recreation board, the board must consist of five persons, two of whom must be members of the board of education of the city or village school district or members appointed by the latter board. The other members of the recreation board must be appointed by the chief executive officer of the municipal corporation with the consent of the legislative authority. All members of the recreation board must be residents of the municipal corporation. These recreation boards equip, operate, and maintain parks and recreation facilities.<sup>1</sup> (Sec. 755.14(A).)

**Changes proposed by the bill**

The bill requires that the members of a recreation board who are members of a board of education or who are appointed by a board of education must be residents of their respective school district but need not be residents of the municipal corporation. All other members of the recreation board still must be residents of the municipal corporation. (Sec. 755.14(A).)

<sup>1</sup> *Recreation facilities include playgrounds, playfields, gymnasiums, public baths, swimming pools, and recreation centers.*
