## Bill Analysis

Helena Traner

### **S.B. 179**

130th General Assembly  
(As Introduced)

**Sens.** Eklund, Seitz

---

## **BILL SUMMARY**

- Includes recycled water as a private water system that is subject to regulation by the Department of Health and boards of health.
- Requires the Director of Health to define by rule "recycled water" as well as "well," "spring," "cistern," "pond," "hailed water," and "recycled water," which are types of private water systems under current law.

---

## **CONTENT AND OPERATION**

### **Recycled Water**

The bill includes recycled water as a type of private water system that is subject to regulation by the Department of Health and boards of health in accordance with rules adopted by the Director of Health. Under continuing law, the rules must provide for inspections, annual registration of private water system contractors, and payment of necessary fees.<sup>1</sup> Current law also provides for rules that prescribe uniform standards and procedures for the design, construction, inspection, installation, development, maintenance, and abandonment of private water systems.<sup>2</sup> Finally, current law allows for variances from the Director's rules.<sup>3</sup>

Under existing law, a private water system is a water system that provides water for human consumption if the system has fewer than 15 service connections and does
