PUCCD1 Percentage of Income Payment Plan (PIPP) program

R.C. 4928.54, 4928.543, 4928.544, Repealed: 4928.542

Transfers the authority to aggregate Percentage of Income Payment Plan (PIPP) program customers for the purpose of a competitive procurement process for the supply of retail electric service for these customers from the DEV Director to PUCO and make this authority permissive instead of mandatory as under current law.

Requires PUCO to inform the DEV Director if PUCO decides to aggregate PIPP program customers and requires that to be done as soon as possible after the decision is made for the director's consideration of possible universal service rider adjustments allowed under ongoing law.

Specifies that the design for the competitive procurement process may include full or partial auctions of PIPP program customers to the extent necessary to transition these customers to the applicable standard service offer (SSO) for retail electric service.

Repeals the law requiring winning bids selected under a competitive procurement process that aggregates PIPP program customers to (1) be designed to provide reliable competitive retail electric service to PIPP customers, (2) reduce PIPP program costs relative to the otherwise applicable SSO, and (3) result in the best value for persons paying the universal service rider.

Fiscal effect: Potential increase in costs for PUCO and potential decrease in costs for DEV, both likely minimal. Costs for both agencies for this purpose are reimbursed by the Universal Service Fund Rider, paid by electric consumers. Potential minimal change in costs of electricity for the state and local governments as ratepayers.

TAXCD37 Historic rehabilitation tax credit cap

R.C. 149.311

Increases, from \$60 million to \$120 million, the amount of historic building rehabilitation tax credits that may be awarded by the DEV Director in FY 2025. (The cap was previously increased to \$120 million for both FYs 2023 and 2024; it would revert to \$60 million in FY 2026.)

Fiscal effect: Reduction in state tax revenues up to \$60 million in FY 2025 only, with 96.68% of the revenue loss borne by the GRF under codified law. The refundable historic building rehabilitation tax credit may be claimed against the personal income tax, the financial institutions tax, the domestic insurance tax, and the foreign insurance tax. (The Tax Expenditure Report includes an estimate that under current law, i.e. without the increase proposed for FY 2025, the credit would result in a decline in the GRF revenue loss from \$104.7 million in each of FY 2023 and FY 2024 to \$52.4 million in FY 2025).

TAXCD43 Qualified energy projects

No provision.

No provision.

R.C. 5727.75

Extends the termination of the existing property tax exemption for qualified energy projects from 2025 to the later of the calendar year that the U.S. Secretary of the Treasury determines there has been, from 2022, a 75% or greater reduction in annual greenhouse gas emissions from electricity production in the United States, or 2032. Extends application and construction deadlines for new tax credits in line with the extended credit termination date.

Requires clean energy projects with a capacity of at least 20 megawatts, and which apply for certification as qualified clean energy projects after the effective date, to comply with certain federal wage and apprenticeship requirements.

Executive

As Reported By House Finance

No provision.

Reduces the required ratio of Ohio-domiciled full-time equivalent employees on a new qualified clean energy project from 80% to 70%. Includes out-of-state workers who reside within 50 miles of Ohio and are members of certain labor organizations as "Ohio-domiciled" employees for purposes of calculating these ratios, both for new and existing projects.

No provision.

Allows existing qualified clean energy projects that voluntarily comply with the federal wage and apprenticeship requirements the amendment requires of new projects with at least 20 megawatts of capacity to apply the reduced ratio for Ohio-domiciled full-time equivalent employees.

No provision.

Changes the calculation of "full-time equivalent employee" hours to include only employee hours devoted to site preparation and protection, construction and installation, and material unloading and distribution and to exclude management and purely logistical positions.

No provision.

Defines "Internal Revenue Code," for purposes of the property tax exemption for qualified energy projects, as the Internal Revenue Code as it exists on the provision's 90-day effective date.

Fiscal effect: No direct effect on state expenditures; permissive effect on local revenues as the local Board of County Commissioners has discretion over the approval of this property tax exemption.
