Purpose: Funds in this line item support activities related to the enforcement of statutes, rules and regulations governing transportation companies (bus and motor carriers) operating within the state. This line item provides matching funds for federal grants funding line items 870-604 and 870-608. Beginning in FY 2000, this line also includes \$200,000 per year in "transfer and other" appropriation authority to handle motor carrier registration fees whose disposition is uncertain at the time of their receipt. Such funds were formerly deposited in Fund R20 and appropriated via line item 870-610, Motor Carrier Refunds. That line has been discontinued.

Purpose: This line item contains operating funds for the Gas Pipeline Safety program. The program was originally authorized by the Natural Gas Pipeline Safety Act of 1968 and more recently by the Pipeline Safety Act of 1992. The line item receives reimbursements from the federal government amounting to 50% of the costs of operating the program. In order to remain eligible for the funds, the state must maintain a previously established level of effort. Since FY 1998, the state's share of expenses has come from line item 870-622, Utility and Railroad Regulation. Prior to that time, the state's share came from the 871-499 State Match line item in the GRF.

Source: Federal Special Revenue Fund Group: CFDA 20.218, Motor Carrier Safety Assistance Program (Federal Motor Carrier Safety Administration)

Legal Basis: ORC 4919.79 (originally established by Controlling Board in 1984)

Purpose: Funds are used to administer the Motor Carrier Safety Assistance Program (MCSAP) involving the safe operation of commercial motor vehicles. The program, originally authorized by the Surface Transportation Act of 1982, began as an inspection program by the Public Utilities Commission. However, with the passage of the Intermodal Surface Transportation Act of 1991, it was expanded to deal with drug interdiction and other matters under the purview of the State Highway Patrol. To receive the grant, the state must contribute 20% of total costs and use the funds to enhance the program, not to support existing activities. In FY 1996, PUCO's transportation enforcement division was transferred to the Department of Public Safety. As a result, much of these federal moneys are now directed to Transportation Enforcement Federal, 764-659, Fund 831. Since, however, the PUCO is the primary recipient for the federal funds, this line retains appropriation authority over the entire amount of the federal grant. The PUCO transfers the appropriate amount to the Department of Public Safety to fund the operations of the Department's enforcement division.

Legal Basis: Section 369.10 of Am. Sub. H.B. 119 of the 127th G.A. (originally established by Am. Sub. H.B. 94 of the 124th G.A.)

Purpose: Funds are used to improve highway safety through electronic technologies. They allow PUCO to conduct safety audits and inspections of commercial motor carriers. Commercial Vehicle Information Systems/Networks (CVISN) essentially comprise information system elements that support commercial vehicle operations (CVO), including systems owned and operated by governments, motor carriers, and other stakeholders. CVISN enables government agencies, the motor carrier industry, and other parties engaged in CVO safety and regulation to exchange information and conduct business transactions electronically. PUCO is the administrative lead agency in the business plan development effort. The departments of Taxation, Public Safety, and Transportation, as well as the Ohio Trucking Association participate in the project. The grant requires a 50% state match, which is funded through line item 870-625.

Purpose: The funds in this line item are used to provide warning devices at rail-highway crossings, pursuant to ORC 4907.471. These devices include flasher lights and gates. This line receives \$1.2 million each year from the state gasoline tax, to provide preliminary funding for upgrades or funding for which federal funds cannot be used (such as, to cover preliminary engineering costs). The upgrades are undertaken by the railroads, and the PUCO reimburses them for the expenditure when the project is complete. Expenditures in excess of \$1.2 million in any year may be incurred as projects begun in prior years are completed, and the railroads are reimbursed for the expenses.

Legal Basis: ORC 4905.92 (originally established by Am. Sub. H.B. 365 of the 119th G.A.)

Purpose: Moneys in this line item are used to administer the pipeline safety code for all gas and natural gas pipeline operators in the state and to finance PUCO's duties and responsibilities under the program. All of the moneys deposited in the fund are to be used exclusively for the administration and enforcement of the pipeline safety code.

Legal Basis: ORC 4905.80 (originally established by Sub. H.B. 647 of the 120th G.A.)

Purpose: Funds are used to enforce the Hazardous Materials Transportation Law (ORC 4905.80 through 4905.83). This program was devised in accordance with the Hazardous Materials Transportation Uniform Safety Act of 1990. The act calls for the eventual establishment of a base-state-type system of registering hazardous materials transporters in the U.S.

Under this type of program, carriers who operate in more than one state can register for all states in their home state. This fund receives those registration fees that are ultimately to be transferred to other states. Purpose: This line item funds the administrative costs of the civil forfeitures program created in Am. Sub. H.B. 117 of the 121st G.A. The program centralizes with the PUCO the collection of civil forfeitures from motor carriers found to be in violation of state and federal safety rules and regulations. A portion of the forfeitures is deposited into Fund 4U8, Transportation Enforcement, to fund the costs of administering this program. Revenues in excess of the appropriation to the 870-620 line item are deposited into the GRF.

Purpose: This line item funds the costs incurred by the Commission in drawing and mapping service boundary lines. Revenues are received only when the Commission is required to settle a boundary dispute between electric companies. It is difficult to predict when that might occur. No reimbursements for such disputes have been made since FY 1990.

Purpose: This line item provides operating funds for the Power Siting Board. Am. Sub. H.B. 694 of the 114th G.A. transferred the board to the PUCO in FY 1982. It had previously functioned as an independent agency. The line item receives fees submitted with applications for a certificate of environmental compatibility and public need. A public utility must have such a certificate before constructing or expanding major utility facilities. The Board is empowered to approve or disapprove applications for such a certificate. Since the enactment of Am. Sub. S.B. 3 of the 123rd G.A., however, ORC 4906.10 has specified that the Board shall presume the public need for a new electric generation facility as that need is stated in the application.

This program is responsible primarily for distributing fee revenue received from charges levied on wireless service subscribers to counties and other political subdivisions that operate wireless enhanced 9-1-1 service within the county. The fee imposed on wireless service subscribers is 32 cents per month, of which over 94% each year and over 96% after the first year is distributed to counties.

Legal Basis: ORC 4905.80 (originally established by Am. Sub. H.B. 428 of the 117th G.A., substantially amended by H.B. 647 of the 120th G.A.)

In the past, 50% has gone to Cleveland State University for its training program for public safety and emergency services personnel, and 50% has been allocated to other educational institutions, state agencies, and political subdivisions for similar programs. Am. Sub. H.B. 283 of the 123rd G.A. revised the percentage going to "other purposes." It allocates 5% of the total to the PUCO for administration and training, with the remaining 45% going to other programs. Legal Basis: ORC 4923.12 (originally established by Controlling Board in October 1991; authorized by Sub. H.B. 715 of the 120th G.A.)

Purpose: Moneys credited to this line item allow Ohio to participate in the Single State Registration Program (SSRP, formerly known as the Base State Registration Program). The program allowed trucking companies based in participating states to register their authority to operate on an interstate basis, granted by the Federal Motor Carrier Safety Administration, with their base state only, rather than registering separately with each and every state that belongs to the SSRP. This fund receives those registration fees that are ultimately to be transferred to other states. (Those fees collected on behalf of the state of Ohio, wherever collected, are deposited in fund 5F6, the Public Utility Fund.) The program has been discontinued, effective January 1, 2007.
