

## ***Local Impact by Political Subdivision***

This section contains summary charts of the fiscal effects identified in the final Local Impact Statements for bills enacted in 1999 that were determined to have a local impact. There are four charts, one each for counties, municipalities, townships, and school districts. Wherever possible, an estimate is included as to the net effect on the political subdivision of each piece of enacted legislation. 21 of the 22 bills impacted counties, 18 affected municipalities, 3 affected school districts, and 8 affected townships.
