

1963-1964 Fellows

Robert W. Adams, Ph.D.

Deceased

A Wright State University Professor of Political Science and a supporter of the LSC fellowship program who wrote many letters of recommendation for aspiring fellows.

(revised 2/28/06)

“Among the many benefits of the LSC [fellowship] was the sense of being a participant in the legislative process. I gained an appreciation for the influential role of staff. I was asked (and trusted) to contribute to early attempts to fashion the first Ohio legislative reapportionment plan following Baker vs. Carr (one person, one vote) and helped do research for an urban education study. It was exciting, fun, and rewarding and gave me a real sense of being an “insider,” albeit, a very junior one!”
