Executive Summary

This report contains financial information on boards, commissions and agencies that regulate occupations and professions, as defined in Ohio Revised Code section 4743.01. Individual boards provided information for this report.

Most of the Occupational Licensing and Regulatory Boards listed in this report deposit funds into the Occupational and Professional Licensing Fund, also known as Fund 4K9. The Office of Budget and Management reports that Fund 4K9 has a positive balance and should operate with a surplus in FY 2005 and FY 2006. Other boards discussed in this report are funded through appropriations that are derived from various sources such as license issuance, renewals and fines.

Five bills enacted in FY 2004 impacted ten of the licensing boards in one or more ways. Am. Sub. H.B. 95, the biennial operating budget bill, had the broadest impact on boards by increasing license fees for six of the boards. Along with Am. Sub. H. B. 95, the following enacted bills are discussed in Section I:

- H.B. 23 – Board of Optometry
- H.B. 496 – Chemical Dependency Professionals Board
- S.B. 179 - Construction Industry Licensing Board (Dept. of Commerce)

There were a number of boards that experienced changes in staffing levels in FY 2004. Nineteen of the 37 licensing boards discussed in this annual report experienced either increases or decreases in staff or board members. The reported staff or board member increases or decreases were minimal in nearly every case.

There were no increases of large magnitude in any of the boards' active licenses and no major changes to the organization of the licensing boards during FY 2004. Generally, the number of active licenses increased minimally for most boards.

Four boards or commissions licensed a total of over 100,000 of their respective license types in FY 2004. They are the Ohio Board of Nursing (198,746), Division of Securities in the Department of Commerce (138,723), Board of Emergency Medical Services (135,457), and the Board of Cosmetology (115,834). The Board of Emergency Medical Services licenses, however, carry no fees; therefore, they generate no revenue. The EMS Division is funded solely from traffic fine revenue in the seat belt fund (Fund 844).

Revenue and expenditure patterns over the period vary with the renewal cycle of licenses issued. Board-by-board figures reveal no distinct pattern that is applicable to all boards.

The administrative operations of the licensing boards are centrally supported by the Department of Administrative Services' Central Services Agency (CSA). Twenty-five of the boards included in this report use various services and forms of assistance available to them through DAS. The following services and forms of assistance are listed in descending order of frequency used:

payroll, budget/fiscal assistance, vouchering, photocopying/printing, personnel issues, bookkeeping, purchasing, data input to the Central Accounting System, warrants, general consultation and source of information, and fixed asset management system (FAMS) data entry and report verification. The consolidation of services available to the boards through Central Services Agency provides administration efficiencies for these shared services.

Introduction

Ohio's Occupational Licensing and Regulatory Boards

Ohio's various occupational and licensing boards monitor, license, and regulate selected occupations and professions. Many of the regulated professions provide services in technical and specialized fields such as nursing, medicine, and engineering, in which the failure to meet minimum standards could be dangerous or costly. The boards are charged to help ensure the health, safety, and welfare of the public by ensuring the professionals who practice in these fields meet certain standards.

To fulfill the requirements of Section 103.13 of the Ohio Revised Code, the Legislative Service Commission prepares this report annually to evaluate the extent to which these state boards and commissions are financially self-supporting. This report provides a summary of the financial activities and some of the legislative changes that took place during FY2004 (July 1, 2003 through June 30, 2004). The information in this report is divided into three main sections that are described below.

Section I: General Information – The first section begins with a description of the functions of each licensing or regulatory board, followed by a brief description of any legislation that became effective in FY2004 that affects any of the boards. This section also contains a table of general information, such as staffing levels and renewal cycles for each board.

Section II: Active Licenses – The second section lists the total number of active licenses for each board for this fiscal year and the previous fiscal year. The change in the total number of licenses from the last fiscal year to this fiscal year is also calculated.

Section III: Revenues and Expenditures – The third section contains information on the revenues and expenditures for each board for fiscal years 2003 and 2004. This information is organized according to the renewal cycle for each board. Many of the boards renew licenses biennially and therefore, receive the bulk of their fee revenues in alternate years. The table contains information on both Fund 4K9 revenues and expenditures and any non-Fund 4K9 revenues and expenditures. The table also shows the changes in both revenues and expenditures from FY2003 to FY2004 and the net gain or loss for the two fiscal years combined.

Finally, the appendix lists the name of each board's chief administrator, the board's postal address, phone number, email address and website address.

Nursing, Ohio Board of

Am. Sub. H.B. 95, the biennial operating budget bill for FY 2004 – FY 2005, contains provisions that affect the Ohio Board of Nursing. Some provisions went into effect immediately upon the governor's signing of the bill, while other provisions were effective September 26, 2003. The bill increases fees charged by the Ohio Board of Nursing, including allowing the board to charge up to \$15 for a board-sponsored continuing education activity related to the laws and rules governing the practice of nursing in Ohio. The board is also required to operate a nurse education grant program. To fund this program, \$10 from all license renewal fees will be used for the next ten years. Two other changes include allowing practical nursing education programs to incorporate training in IV therapy as part of the program's curriculum and requiring the Ohio Board of Nursing to certify community health workers. Initial certificates for community health workers must be issued no later than February 1, 2005. Rules governing this program were drafted during FY 2004. The following table displays the fee increases in the Ohio Nursing Board's fee structure as shown in section 4723.08.

Fee Type	Previous Fee	New Fee	Est. Rev. FY 2004	Est. Rev. FY 2005

Section III

Revenues and Expenditures

Revenues and Expenditures

Information in this section is divided based on each agency's renewal cycle. The boards included in this report predominantly renew licenses on a triennial, biennial, or annual basis.

Agencies with a Triennial Renewal Cycle

Division of Emergency Medical Services

The Division of Emergency Medical Services is the administrative arm of the Emergency Medical Services Board under the Department of Public Safety. The eight license types that the Division of Emergency Medical Services oversees carry no license fees and therefore, generate no revenue. The EMS Division is funded solely from traffic fine revenue in the seat belt fund, 83M. The Ohio Department of Public Safety requests a budget (based upon past expenses), which is approved; and the Ohio Legislature sets an appropriated budget for the Division. Money is awarded through the transportation budget to the Division of Emergency Medical Services only in the amount of the division's operating expenses. The Division of Emergency Medical Services carries forward no fiscal balance or deficit from fiscal year to fiscal year. The expenses accrued by the Division of Emergency Medical Services for FY 2004 totaled \$2,519,883.

Accountancy Board of Ohio

The Accountancy Board of Ohio operates from two state funds, the 4K9 and the 4J8 funds. The board's license revenues and the board's operational expenditures are included the 4K9 fund. Moneys from the 4J8 fund come from fees paid by licensees and are used for the board's scholarship program. The 4J8 fund was created as a result of FY 1993 legislation that increased the basic education requirements an individual must meet to become licensed as a Certified Public Accountant.

The Accountancy Board of Ohio has been running surpluses in the 4K9 fund since the inception of the 4K9. The Accountancy Board's last general fee increase was in 1991. To comply with a scholarship law in 1993, the Accountancy Board raised individual license fees.

In 1999, pursuant to the recommendation of the Office of Budget and Management, the Accountancy Board reduced firm registration fees more than 80%. The reduction in registration fees and an increase in the educational requirements for the CPA certificate, causing a decline in the number of certificates issues, resulted in declining board revenues between FY 2002-2003. Revenue and expenditures increased, however, in FY 2004.

Agencies with a Biennial Renewal Cycle

Many of the boards renew their licenses on a biennial cycle. Because of this, each board receives the bulk of its licensing revenue every other year. A board may run a deficit in its “off” year that will be eliminated during its renewal year. The two-year renewal cycle must be analyzed to determine if a board is financially self-sufficient. Data on the following page contains information on the boards with a biennial renewal cycle.

Agencies with an Annual Renewal Cycle

Twenty-one of the boards in this report renew their licenses on an annual basis. These boards are, therefore, less likely to experience “on” and “off” years. Ten of the boards that renew licenses on an annual basis have all or partial funding from the 4K9 fund, while eleven of these boards or commissions are funded through various other funds. Data on these boards and commissions is found in the spreadsheet following the entries for agencies with a biennial renewal cycle.
