

**(AGR) AGRICULTURE, DEPARTMENT OF**

<b>Administrative Building Fund</b>	<b>\$3,900,000</b>
-------------------------------------	--------------------

**ADMINISTRATIVE BUILDING FUND (026)**

CAP-042	Reynoldsburg Complex Security Improvements (Licking)	Other	\$200,000
---------	---	-------	-----------

This appropriation is to complete the capital security undertaking at the Reynoldsburg complex. Available funds will be used to purchase approximately 8,100 linear feet of fencing and interior/exterior security monitors for various buildings. Capital reappropriation funds amounting to \$125,000 for this line item in Sub. S.B. 245 of the 123<sup>rd</sup> General Assembly will be used to augment the purchase of security equipment.

CAP-043	Building and Grounds Renovations (Licking)	Renovation/ Replacement	\$500,000
---------	---	----------------------------	-----------

These funds will be used for unanticipated and on-going maintenance needs of the Bromfield Administration building, Consumer Analytical Laboratory, Animal Industry building and the original administration structure. Additionally, funds will be used for general maintenance and emergency repairs to surrounding structures and acreage, e.g., unanticipated roof repairs, masonry repairs, drainage tile and erosion control, etc.

CAP-044	Renovate Building 4 (Licking)	New Construction & Renovation	\$3,000,000
---------	----------------------------------	-------------------------------------	-------------

This appropriation is being made for renovations to Building #4 of the Consumer Analytical Laboratory. Building #4 is largely not usable and requires renovation of all major systems, including the roof, foundation work, some asbestos removal, windows, as well as items inherent to laboratory operations – reverse osmosis water lines, and steam, air and vacuum lines.

CAP-045	Renovate Plant Pest Building (Licking)	Planning	\$200,000
---------	---	----------	-----------

This appropriation provides funding to contract with an architect/engineer to prepare the design and plans to renovate Building #7, Plant Pest Control. The building is between 45 to 50 years old and in need of major renovation work. Areas to be addressed include evaluating the integrity of the structure, heating and air condition systems, complete renovation of the interior to include improvements for the attached greenhouse, the roof, and possible expansion of the building to accommodate more employees.
