
(OSD) SCHOOL FOR THE DEAF, OHIO STATE

Administrative Building Fund	\$1,878,513
TOTAL - All Funds	\$1,878,513

ADMINISTRATIVE BUILDING FUND (026)

CAP-777 Boilers, Blowers, and Controls for the School Complex **\$841,469**

Category: Renovation/Replacement

County: Franklin

Funds will be used to replace three sets of boilers, blowers and control systems in the OSD school building complex. These boilers, blowers, and control systems are over 25 years old and do not currently provide adequate heat to the elementary and middle school wing, high school wing, and gymnasium/recreation wing.

CAP-778 Central Warehouse **\$706,194**

Category: New Construction

County: Franklin

Funds will be used to construct a new 3,773 gross square foot central warehouse for the OSD campus. Existing OSD storage rooms, located in a variety of campus locations, are limited. The new warehouse will help the OSD consolidate the ordering of supplies and food, and store them in one area. The warehouse will also enable the OSD to make more bulk purchases, thereby reducing the costs of supplies and food.

CAP-779 Storage Barn **\$330,850**

Category: New Construction

County: Franklin

Funds will be used for the demolition of an existing small garage, site preparation, and construction of a new 3,600 gross square foot storage barn for OSD's heavy equipment, including a bus, tractors, and mowing equipment. Currently, the OSD has a small garage that is structurally unsound. Also, the OSD's heavy equipment does not fit in any of their existing covered storage facilities, leaving the machinery to sit out in the elements and causing early deterioration. The new storage barn will allow the OSD to park all of its heavy equipment in one storage barn, to protect that equipment from the weather, and to be able to better service the equipment.
