Provides that income from the investment of proceeds of public obligations or fractionalized interests in public obligations, in addition to payments received under the Build America bond program, may also be credited to the fund or account from which debt charges on those public obligations are paid.

Generally, the federal American Recovery and Reinvestment Act of 2009 allows state and local governments to issue certain types of taxable bonds in 2009 and 2010 to finance their capital expenditures, for which they otherwise could issue tax-exempt bonds, and receive federal rebates or credit for a portion of their borrowing costs on those bonds.
