

Executive	As Passed by the House	As Passed by the Senate	As Amended by Conference Committee
1 OTC - 6 Grade Separation Maintenance	No provision.	No provision.	<p data-bbox="1419 373 1688 406">R.C. 5537.051</p> <p data-bbox="1419 430 1994 722">Makes the Ohio Turnpike Commission responsible for major maintenance and repair and replacement of grade separations at intersections of any turnpike project with county and township roads. Specifies that the governmental entity with jurisdiction over the county or township road is responsible for routine maintenance of grade separations.</p> <p data-bbox="1419 747 1994 1266">Fiscal effect: Potential increase in Ohio Turnpike Commission costs ranging from a few thousand dollars to several hundred thousand dollars, if not more, to perform major maintenance of grade separations at intersections of any Turnpike project with county and township roads, resulting in less money available for other operating and capital expenses. Costs will vary depending on the major maintenance function performed at each separation. Potential corresponding decrease in expenses for counties and townships along the Turnpike.</p>
			<p data-bbox="2037 373 2306 406">R.C. 5537.051</p> <p data-bbox="2037 430 2612 657">Same as the Senate, but limits the Ohio Turnpike Commission's responsibilities to counties that, as of January 1, 2009, had closed one or more roads as a result of grade separation failure at intersections of a turnpike project with a county or township road.</p> <p data-bbox="2037 747 2612 1096">Fiscal effect: Same as the Senate, but reduces the potential expenditures for the Ohio Turnpike Commission by limiting its responsibilities to Sandusky County. As a result, only Sandusky County would not be responsible for expenses for major maintenance and repair and replacement of grade separations at Turnpike intersections with county and township roads.</p>
