ERBCD1      Collective bargaining by faculty of state instituions of higher education

R.C.      4117.01

No provision.

Specifies, for the purposes of Ohio's Public Employees' Collective Bargaining Law, that faculty members of state institutions of higher education are considered supervisors or management level employees if they participate in decisions with respect to courses, curriculum, personnel, or other matters of academic or institutional policy.

No provision.

Specifies further that faculty members are considered management level employees if they participate in the governance of the institution (either individually or through a faculty senate or like organization), or are involved in personnel decisions, the selection or review of administrators, planning and use of physical resources, budget preparation, and determination of educational polices related to admissions, curriculum, subject matter, and methods of instruction and research.

No provision.

Results in either type of faculty members not being eligible to engage in collective bargaining unless the employer elects to do so. (Currently the employer must collectively bargain if the faculty members elect to do so.)
