As Passed by the House

ODBCD1 Licensed spectacle dispensing optician

No provision.

R.C. 4725.40, 4725.411, and 4725.51

Requires a spectacle dispensing optician to complete two hours of study in contact lens dispensing before being authorized to dispense prepackaged soft contact lenses.

No provision.

Repeals a provision specifying that a spectacle dispensing optician's continuing education regarding contact lens dispensing is to be limited to education in (1) the dispensing of prepackaged soft contact lenses and (2) the action of matching the packaging description to a written prescription.

No provision.

Requires the Ohio Optical Dispensers Board to approve continuing education programs that are conducted in person or through electronic means.

No provision.

Specifies that "optical dispensing" does not include placing an order for the delivery of an optical aid, thereby excluding that action from any licensing requirements.

Fiscal effect: The Board may experience an increase in administrative costs related to approving continuing education programs.
