### ROLE

The State Board of Career Colleges and Schools, formerly the State Board of Proprietary School Registration, monitors and regulates many of Ohio's proprietary (private and for-profit post-secondary career) schools to ensure compliance with minimum standards set by state law. The Board establishes standards for the registration and operation of these schools, including standards to ensure each school's financial stability. The Board has seven board members, a full-time staff of four, and four consultants who work under purchased service contracts and perform on-site evaluations of all schools at least once every two years. The Board also maintains the Ohio Student Tuition Recovery Fund that provides tuition recovery options for the students of closed schools. Schools are required to make initial and annual deposits to this fund. In 2002, 261 proprietary schools registered with the Board.
