Local Fiscal Highlights

- No direct fiscal effect on political subdivisions.
-

Detailed Fiscal Analysis

The bill designates September as "Mitochondrial Disease Awareness Month" to raise awareness of the existence, symptoms, and management of a diverse group of disorders known as mitochondrial disease that may impact either a part of the body or multiple organ systems as a result of dysfunction of the mitochondria. The bill is to be named the "Corynna Strawser Act." The bill does not require any action on the part of state or local government entities; thus, there should be no fiscal impact for the state or local governments.
