

Local Impact by Political Subdivision

This section contains tables that summarize the fiscal effects identified in the final Local Impact Statements for 18 enacted bills that are estimated to have a local impact. There are four charts, one each for counties, municipalities, townships, and school districts. Wherever possible, an estimate is included as to the net effect on the political subdivision of each piece of enacted legislation. Seventeen of the 18 bills impacted counties, 10 affected municipalities, 6 affected school districts, and 7 affected townships.
