

Introduction

Why is this report being issued?

The Legislative Budget Office (LBO) of the Legislative Service Commission (LSC) publishes the Local Impact Statement Report in accordance with Section 103.143 of the Ohio Revised Code (ORC). That provision requires the office to compile the final local impact statements completed for all laws passed by both houses of the General Assembly every calendar year. This report is the fifth in LBO's series of such reports. It covers all legislation that was passed and enacted during calendar year 1999.

As specified in ORC section 103.143, the Local Impact Statement (LIS) Law, this report is a compilation of *estimates* produced by LBO *during* the legislative process. This report does *not* present the *actual costs* to local governments, since these costs will not occur until after each law is implemented.

What is in this report?

The 1999 report includes summary charts and an overview of bills that were introduced, passed and enacted, and bore provisions that triggered a "Yes" local impact determination. The criteria that LBO uses to evaluate the effect of proposed legislation on local governments are detailed below.

Comments from several associations and the State and Local Government Commission are also presented in this report. Before its widespread distribution, LBO is required to circulate a draft of this report to the Ohio School Boards Association, the County Commissioners Association of Ohio, the Ohio Municipal League, and the Ohio Township Association for their review and response.

What process is followed for local impact review?

By law local impact determinations are based on LBO's review of bills in their "As Introduced" form. The initial determination stays with the bill even if a bill is amended in such a way as to alter the initial local impact determination. There were six such bills in 1999, which are highlighted in this report. Occasionally an initial determination is wrong. If so, LBO corrects the LIS as soon as possible, and the correct determination is assigned to the bill from that point on.

The "Local Impact" determination is the first stage of LBO's fiscal analysis of pending legislation. The purpose is to alert legislators to the various fiscal effects that legislation may impose on counties, municipalities, townships, and school districts. The bill sponsor, committee chair, and legislative leaders of the house to which the bill has been introduced all receive notification of LBO local impact determination. Although bills often affect other more specialized units of government, such as park districts, transit authorities and so forth, by law these entities are not included in the initial local impact review. These factors, however, *are* considered in the fiscal notes that accompany bills as they proceed through the legislative process.

The Local Impact Statement Law has been modified twice: first, in 1997 by H.B. 215 of the 122nd General Assembly, and second, in 1999 by H.B. 283 of the 123rd General Assembly. The combined effect of these two acts is to exempt the following bills from the local impact determination process:

1. The main biennial operating appropriations bill;
2. The biennial operating appropriations bill for state agencies supported by motor fuel tax revenue;
3. The biennial operating appropriations bill or bills for the bureau of workers' compensation and the industrial commission;
4. Any other bill that makes the principal biennial operating appropriations for one or more state agencies;
5. The bill that primarily contains corrections and supplemental appropriations to the biennial operating appropriations bill;
6. The main biennial capital appropriations bill;
7. The bill that reauthorizes appropriations from previous capital appropriations bills.

Regardless, LBO continues to assess the impact that such bills have on local governments in the fiscal notes and analyses that accompany such bills.

What factors are considered in LBO's initial review for local impact?

LBO uses the following guidelines to determine if a bill may affect local governments in such a way to trigger a "Yes" LIS determination:

1. The estimated aggregate annual cost of the bill is more than \$100,000 for all affected local governments; or
2. The estimated annual cost is more than \$1,000 for any affected village and township with a population of less than 5,000 or for any school district with an average daily membership (ADM) of less than 1,000; or
3. The estimated annual cost is more than \$5,000 for any affected county, municipal corporation, and township with a population of 5,000 or more or for any school district with an ADM of 1,000 or more.

Finally, in the local impact review process, the following types of bills are excluded from a "Yes" determination: legislation that is deemed permissive; appears to impose only minimal costs on political subdivisions; or involves federal mandates.

Obtaining copies of this report

Copies are available upon request from the Ohio Legislative Budget Office at a cost of \$12.00 per copy. Call LBO at 614-466-8734 to receive a copy, or download the reports from the LBO website at <http://www.lbo.state.oh.us/>.
