DNRCD2 Authority to Transfer Funds from the Forestry Mineral Royalties Fund to the Parks Mineral Royalties Fund

R.C. 1503.012, 1541.26

Authorizes the Director of Natural Resources to request the Director of Budget and Management to transfer money from the Forestry Mineral Royalties Fund to the Parks Mineral Royalties Fund, and requires the Director of Budget and Management to execute the transfer if the Director consents to it.

Fiscal effect: This provision potentially increases the amount available in the Parks Mineral Royalties Fund for eligible land acquisition and capital costs at state parks, while potentially decreasing the amount available in Forestry Mineral Royalties Fund for the same purposes in state forests.

DNRCD3 Exemption from Competitive Bidding Requirements for Emergency Situations at Idle and Orphaned Wells

R.C. 1509.071

Specifies that competitive bidding does not apply to idle and orphaned well expenditures from the Oil and Gas Well Fund (Fund 5180) if the Chief of the Division of Oil and Gas Resources Management reasonably determines that there is an emergency situation that requires immediate action for the correction of a health or safety risk, rather than if the Chief reasonably determines that such a risk requires immediate action as in current law; and specifies that certain competitive bidding requirements do not apply to contracts related to such an emergency situation.

Specifies that the current requirement for the inspection of projects by a licensed professional engineer or professional surveyor does not apply to expenditures made from Fund 5180 under contracts for plugging idle and orphaned wells or addressing imminent health or safety risks at such wells.

Allows the Chief to engage in cooperative projects involving idle and orphaned wells with any agency of Ohio, another state, or the United States; any other governmental agency; or any state university or college; and exempts contracts entered into for the purposes such cooperative projects from certain competitive bidding requirements.

Fiscal effect: The potential effect on the Oil and Gas Well Fund (Fund 5180) due to the exemptions from competitive bidding requirements will depend on the nature of emergency situations or cooperative projects entered into under this provision. Additionally, if the use of licensed professional engineers and surveyors for inspections under certain contracts resulted in additional costs to Fund 5180, the bill's exemption from this requirement could result in savings.

DNRCD1 Permits for Taking Wild Animals Interfering with Energy Facilities

R.C. 1533.081

Requires a person who wishes to take a wild animal that is interfering or may interfere with the operation of an energy facility to obtain a permit from the Division of Wildlife.

Requires the Chief of the Division of Wildlife to adopt rules to administer the permitting program.

Fiscal effect: This could result in additional administrative costs paid from the Wildlife Fund (Fund 7015). These costs could be offset by permitting fees if such fees are included in the rules adopted by the Division of Wildlife.

R.C. 1533.081

Replaces the Executive provision with a provision that requires a person operating an energy facility whose operation may result in the incidental taking of a wild animal to obtain a permit to do so from the Chief of the Division of Wildlife.

No provision.

Establishes a process whereby the county budget commission distributes the fees to all or some taxing units that levy a property tax in the taxing district in which the well will be located to defray costs incurred from the presence of the well. Requires taxing units that receive any portion of the fee to repay these amounts to the owners over subsequent fiscal years based on the amount of property tax the unit collects from the well.

No provision.

Fiscal effect: The \$25,000 fee could offset some of the cost that taxing units might incur for horizontal wells within their jurisdiction. However, taxing units that receive any portion of the fee are required to repay those amounts by reducing the well owners' property tax liabilities.
