Department of Natural Resources

- Total budget of \$672.5 million over the biennium
- Wildlife-GRF Central Support appropriation item increased by \$1.3 million each fiscal year
- New Energy Initiatives focus on biofuel production and CO₂ sequestration
- Soil and Water Conservation District matching grant funding levels at 85% in FY 2008 and 81% in FY 2009
- Parks continue to have on-going maintenance needs
- Increased responsibilities to implement Am. Sub. H.B. 443 of the 126th General Assembly

OVERVIEW

The mission of the Ohio Department of Natural Resources (DNR) is to provide for the preservation, conservation, and use of the state's natural resources to ensure a balance between the wise use of these resources and their protection. The Department manages more than 590,000 acres of land, including 74 state parks, 20 state forests, 123 state nature preserves, and 100 wildlife areas. The Department also has jurisdiction over more than 124,000 acres of inland waters, 7,000 miles of streams, 481 miles of the Ohio River, and 23 million acres of Lake Erie.

The Department has 13 operating divisions, covering three broad areas of responsibility: recreational management, resource protection, and resource management. These areas of responsibility encompass: operating state parks; managing state forests; protecting designated scenic rivers, natural areas, and preserves; oversight of mining and natural gas operations; managing and providing technical assistance in water resource management; providing geological services; providing boating safety and law enforcement; and wildlife management and protection. The Department accomplishes its mission with a staff of over 2,500 full-time, part-time, and seasonal employees.

Executive Recommended Budget

In the FY 2008-2009 biennium, the Department's total recommended budget decreases by 2.2% in FY 2008 and increases by 0.1% in FY 2009. This translates into total funding of approximately \$336.1 million in FY 2008 and \$336.4 million in FY 2009, for a total of \$672.5 million over the biennium. The spending decrease of 2.2% in FY 2008 is largely due to the Mead/Westvaco land acquisition of \$5.7 million in FY 2007 and a decline of \$2.5 million in federal grants projected in FY 2008. The slight increase in FY 2009 of 0.1% is due mainly to revenue growth that supports spending in the Wildlife and Waterways Safety Fund.

In the last budget bill, Am. Sub. H.B. 66 of the 126th General Assembly, DNR received \$331.4 million in FY 2006 and \$332.1 million in FY 2007, for a total of \$663.5 million. Comparing the last budget to this budget the Department's total appropriations increase by 1.4%.

Budget by Fund Group

The Department's total recommended budget of \$672.5 million over the biennium covers all fund groups. The majority of DNR's budget is supported by the GRF and fees credited to the State Special Revenue Fund Group (SSR) and Wildlife Fund Group (WLF). Table 1 below displays DNR's total executive recommended budget by fund group for the biennium.

Table 1. Budget by Fund Group (\$ in millions)					
Fund Group	FY 2007 (Est.)	FY 2008 (Rec.)	% Change	FY 2009 (Rec.)	% Change
General Revenue Fund	\$129.4	\$129.7	.2%	\$129.4	(.2%)
State Special Revenue Fund Group	\$63.4	\$64.4	1.6%	\$63.4	(1.6%)
Wildlife Fund Group	\$66.8	\$61.4	(8.1%)	\$62.6	(1.9%)
Federal Special Revenue Fund Group	\$29.8	\$27.3	(8.4%)	\$26.4	(3.3%)
Waterways Safety Fund Group	\$26.01	\$25.6	(1.6%)	\$26.4	3.1%
General Services Fund Group	\$26.5	\$25.2	(4.9%)	\$25.6	1.6%
Holding Account Redistribution Fund Group	\$2.4	\$2.2	(8.3%)	\$2.3	4.5%

Accrued Leave Liability Fund Group	\$.038	\$.028	(45%)	\$.21	0%
TOTAL	\$343.5	\$336.1		\$336.4	

Several fund groups declined when comparing FY 2007 estimates to FY 2008 and FY 2009 recommendations. For instance, the Wildlife Fund declined in FY 2008 due to the purchase of the Mead/Westvaco lands in the amount of \$5.7 million in FY 2007. Further, the decline in funding in the Federal Special Revenue Fund Group (FED) is due to the merger of appropriation item Forestry-Federal (Fund 328) into the State Forest Fund (Fund 509) resulting in \$2.6 million being moved from FED to the State Special Revenue Funds Group (SSR), hence the gain of 1.6% in SSR. The General Services Fund Group (GSF) declined 4.9% in FY 2008 due to fewer Homeland Security moneys and other nonfederal grants coming in less than expected. Turning to the Holding Account Redistribution Fund, there is a decline from FY 2007 to FY 2008 of 8.3% then a gain of 4.5% in FY 2009. These fluctuations are due to the timing of forest harvest revenues and estimate performance bond repayments.

Budget by Program Series

Each of the aforementioned fund groups contains specific funds and line items that support the Department's 12 program series. Each program series is broken down further to individual programs within a series. For example, within the Forestry program series there are three individual programs. They include: Forestry Assistance, State Forest Management, and Forestry Program Support. Table 2 below displays the executive recommended budget by program series.

Budget by Object of Expense

Each of the programs within each series has its own costs for personnel, maintenance, equipment, purchased services, etc. These vary among divisions. For instance, certain programs such as Parks and Recreation expend more on personnel whereas other divisions such as Soil and Water expend more on subsidies. Table 2 below shows DNR's biennial budget by object of expense. Most of the Department's divisions are service-oriented organizations, and as such, the bulk of its expenses go to personnel.

Overall, the recommendations make several reductions in both fiscal years. Most notably, capital improvements decrease 53.6% when comparing FY 2008 to FY 2007. Again, this is due to the purchase of the Mead/Westvaco land. Personal services also declined from FY 2007 to FY 2008 due to savings accrued in FY 2008 from an early retirement incentive offered in FY 2007. The executive recommends increases in some areas. Subsidies would increase from FY 2007 to FY 2008 due to Division of Wildlife grants for research, education, and other project support. The 38% increase in purchased services from FY 2007 to FY 2008 is a reporting error for unemployment compensation not accounted for. According to DNR, FY 2007 amounts for purchased services are understated by \$671,000, resulting in an actual gain of 11% between FY 2007 and FY 2008.

Other Notable Line Item Activity

Appropriation Mergers

The recommendations merge appropriation item 725-603, Forestry-Federal into appropriation item 725-602, State Forest. As a result, the latter line item increases by \$2.6 million. The \$2.6 million is federal money and can only be used for defined grant purposes.

Appropriation item 725-689, REALM Support Services is merged into 725-664, Fountain Square Facilities Management in order to consolidate similar funding and program activities, a change resulting in an 8.1% increase in the latter.

Natural Areas and Preserves Increase

The recommendations increase funding in appropriation item 725-630, Natural Areas and Preserves-Federal by 616.7% in FY 2008 compared to FY 2007 levels. The increase is due more federal funding expected compared to past years. According to OBM, the funding will allow the Department to administer a statewide system of nature preserves, including acquiring and dedicating lands as nature preserves.

Appropriation Decreases

Several appropriation items were decreased in the recommended budget. A brief description of some of these reductions follows.

- GRF appropriation item 725-425, Wildlife License Reimbursement, was decreased by 22.6% in FY 2008 and by 20% in FY 2009. This is the result of the phase-in of the half-price senior license implementation.
- Appropriation item 725-665, Law Enforcement-Administration, decreases by 28.1%, or roughly \$900,000 in FY 2008 due to a Homeland Security grant that was received in FY 2007 but is no longer expected in FY 2008.
- Appropriation item 775-662, Water Resources Council, decreases by 50% in FY 2008 as a result of a one-time implementation of a comprehensive water data web site in FY 2007.
- Appropriation item 740-401, Division of Wildlife Conservation, decreases by \$4.3 million, or 7.4%, in FY 2008 due to the one-time purchase of the former Mead/Westvaco properties in the amount of \$5.7 million.

FYs 2008-2009 Budget Issues

Central Support

The recommendations increase GRF appropriation 725-401, Wildlife Central Support by roughly \$1.3 million in both FY 2008 and FY 2009 above the Department's requested levels. Funds in this line item are used to pay all of the Division of Wildlife's central support charges and a portion of other Divisions' central support costs. Each Division, except Wildlife, currently pays central support charges into appropriation item 725-651, Central Support Indirect (Fund 157). H.B. 167 of the 126th General Assembly exempted the Division of Wildlife from making direct and indirect cost payments into Fund

157 and instead required such payments to come out of GRF appropriation item 725-401, Wildlife-GRF Central Support. The recommended increases of \$1.3 million in each fiscal year will not only cover Wildlife's central support charges over the biennium, but also provide savings to each of the Divisions relative to their own central support charges. DNR estimates the biggest savings will occur in the Divisions of Park and Recreation (\$587,048), Mineral Resources Management (\$160,934), Watercraft (\$137,788), and Forestry (\$116,617).

Am. Sub. H.B. 443 – DNR Omnibus

Am Sub. H.B. 443 of the 126th General Assembly made various changes to the law governing the Department, the Coal Mining Law, and the Industrial Minerals Law. The bill becomes effective April 6, 2007. Some of the notable provisions of this legislation include: changes to the property forfeiture laws and crediting of proceeds of property to certain DNR divisions; changes to project engineering by increasing the bidding threshold and incorporating value engineering; changes to the structuring of the mining reclamation bond pool; and adjustments to severance tax rates.

Over the biennium the Department will begin implementing the provisions of this bill. The executive recommendations account for some of these changes from H.B. 443, most notably through increases in the Coal Mining Reclamation Reserve Fund (Fund 527) and the Unreclaimed Lands Fund (Fund 529). Fund 527 was increased by \$60,000 above the Department's request and Fund 529 was increased by \$3.65 million above the Department's request. Since the bill was passed on December 20, 2006, the Department's budget request, submitted earlier in the year, did not account for the change in H.B. 443.

Land Purchases

In the fall of 2006, the Division of Wildlife purchased 4,879 acres of former Mead/Westvaco corporation land in Jackson and Ross Counties. The Division of Wildlife's goal in purchasing the land is to increase recreation opportunities for the public to enjoy hunting, fishing, and the outdoors. Prior to the purchase of the property the Division has an agreement with Mead to allow hunting and fishing on the property. Three separate parcels were purchased at a total price of \$5.7 million. At the same time DNR was finalizing the purchase of easements on the 12,650-acre Raccoon Ecological Management Area (REMA) located in Vinton County. REMA was also formerly owned by the Mead Corporation. The purchase price for these easements was \$6.7 million.

Energy Production

The recommended budget provides funding to support the new administration's goal of greater emphasis on energy production. One of the DNR's initiatives related to energy production over the biennium is to research and develop ways to offer optimal energy production in the state and seek new or under utilized energy resources. Several program series within the recommended budget provide for this initiative. For instance, The Department plans to hire a Reservoir Specialist to assist the petroleum industry and evaluate the potential for CO₂ Sequestration (Program 2.01).

There is also a proposed staff restructuring to emphasize Turnaround Ohio Clean Energy research and investigations (Program 2.02). Furthermore, appropriations in The Coal Mining and Reclamation Reserve Fund (Fund 527) and the Unreclaimed Lands Fund were increased due to recent severance tax changes and program changes in the Mineral Resources Management division. Also, the recommendations provide funding for guidance for the Turnaround Ohio Clean Energy Initiative concerning agricultural practices for biofuel production (Program 6.05). Similarly, funding levels in

Program 11.04 will allow DNR to provide guidance for the same initiative but for underground carbon sequestration and coal bed methane production.

Other New Initiatives

Some of the Department's other new initiatives over the biennium include more grant funding, better access to data, and more user friendly web-based applications. For example, regarding grant programs, DNR will administer four grant programs that make funds available to local governments to promote park development and recreational trail opportunities (Program 7.02). Also, Matching grants to Soil and Water Conservation Districts will be provided at a match rate of 85% in FY 2008 and 81% in FY 2009 (Program 6.04).

In regard to ready access to data, maps, research, etc., the recommendations provide continued funding for the Heritage Database in the Natural Areas and Preserves Division - the database information is on rare and endangered plants and animals, outstanding natural communities, and special geological features in the state. Furthermore, Program Series 2.01 provides funding for the Division to continue converting geological data into digital format.

As far as better web-based applications and better customer responsiveness, the recommendations provide an additional \$1.15 million in funding to the Watercraft Division for imaging and electronic depositing of checks from individual "walk in" watercraft registration customers.

Tipping Fee, Soil and Water Conservation Districts, and Litter and Recycling

Am. Sub. H.B. 66 of the 126th General Assembly eliminated the crediting of the corporate franchise tax on litter stream products to the Recycling and Litter Prevention Fund (Fund 532), and instead increased the current \$0.70 per-ton fee on the disposal of construction and demolition debris by \$1.00 to a total fee of \$1.70. Of the additional \$1.00 in fees, \$0.75 was credited to the Recycling and Litter Prevention Fund (Fund 532) for the Litter and Recycling Program, and \$0.25 per-ton fee was credited to the Soil and Water Conservation District Assistance Fund (Fund 5BV) to be used to provide additional matching funds for soil and water conservation district projects. The change in funding source resulted in an overall decrease of approximately \$6.3 million in FY 2006 and \$6.2 million in FY 2007 in available grant money for local government recycling and litter prevention programs. For FYs 2008-2009, the executive recommendation includes appropriations of \$7.2 million in each fiscal year for the Recycling and Litter Prevention program. As for Soil and Water Conservation Districts (SWCDs), with the combined \$0.25 fees credited to Fund 5BV as well as GRF funding, the executive recommended \$12.4 million in both FY 2008 and FY 2009. Overall, DNR estimates funding for SWCDs in the recommended budget will provide a match rate of 84.61% in FY 2008 and 81.09% in FY 2009.

Watercraft Revolving Loan Fund

Am. Sub. H.B. 66 also included a provision that established a new Watercraft Revolving Loan Fund (5AW). The revolving loan fund was capitalized from the Waterways Safety Fund (Fund 086) through a \$3 million transfer in FY 2006 and a \$1 million transfer in FY 2007. As loans are repaid, the fund will be fully financed through loan repayments. The Department uses the money to make loans for marinas and other boating facilities. The Department's initial hope was that this revolving loan would attract private moneys to improve boating access, facilities, and in turn boost local economies. The recommendations in this budget continue the program and provide appropriations of \$1,000,000 in Fund 5AW in both fiscal years of the biennium.

Staffing Levels

The Department employs close to 2,500 employs annually. The table below shows the funded positions for from FYs 2006-2009. Table 4 also shows that the Parks and Recreation Division employ the most staff followed by the Wildlife division. Certain divisions such as Parks and Recreation and Natural Areas and Preserves rely more on volunteers than others. Over the years, the Department has seen a decrease in staffing levels, particularly full-time positions. Overall, since FY 2002 all position types have been declining. This same trend is likely to continue over the biennium resulting in a limited number of new positions being filled. At this point, the Department estimates that recommended funding levels will not result in any layoffs over the biennium.

ANALYSIS OF EXECUTIVE PROPOSAL

This analysis covers all of the programs in each of the Department's program series. Each of the programs have certain implications based on the executive's recommendations. The information describing the purpose and program descriptions in each program series is similar to the executive *Blue Book* and the Department's budget request.

Program Series

1: Forestry

Purpose: The Forestry program protects and manages Ohio's forest resource through partnerships emphasizing stewardship to assure these resources will be available for future generations. The Division serves private woodland owners, municipalities, other state and local government agencies, the commercial logging industry, soil and water conservation districts, and farmers.

The following table shows the line items that are used to fund the Forestry program series, as well as the Governor's recommended funding levels.

Fund	ALI	Title	FY 2008	FY 2009
General Revenue Fund				
GRF	727-321	Division of Forestry	\$8,541,511	\$8,541,511

Total Funding: Forestry			\$15,937,645	\$16,018,412

* Amounts do not reflect total funding because line items are used to fund programs in other program series.

Funding for the following programs is included within the Forestry program series:

- **Program 1.01: Forestry Assistance**
- **Program 1.02: State Forest Management**
- **Program 1.03: Forestry Program Support**

Forestry Assistance

Program Description: The Forestry Assistance program provides technical assistance for the management and protection of Ohio's 7.5 million acres of rural and urban forests. It manages 20 state

forests and the Marietta Tree Nursery, which grows tree seedlings for public purchase. The program also monitors and assists in forest protection concerns such as wildfires, insects, and disease. Over the biennium this program will employ 29.75 FTEs in FY 2008 and 22.69 FTEs in FY 2009.

Funding Source: GRF, federal grants, and fees

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	727-321	Division of Forestry	\$1,420,562	\$972,750
5K1	725-626	Urban Forestry Grant	\$10,000	\$12,000
509	725-602	State Forest	\$3,335,446	\$3,565,877
Forestry Assistance Total			\$4,766,008	\$4,550,627

Implication of Executive Recommendation: The recommendations fully fund the Department's request for this program. This will allow the program to continue at current service levels. The recommendations increase appropriations in the State Forest Fund (Fund 509) due to the consolidation of the Federal Grant Reimbursement Fund (Fund 328). The consolidation is expected to streamline budgeting and coding of expenditures.

Temporary and Permanent Law Provisions

None

State Forest Management

Program Description: The State Forest Management program protects and manages Ohio's state forests and associated resources. The services and activities supported by the program include: timber harvesting and sales, wildfire assistance (suppression and training), law enforcement, and maintaining forest recreational opportunities (trails, gun ranges, and APV recreation). The Division also administers federal Volunteer Fire Assistance Grants which total approximately \$250,000 in awards annually. Annual revenue from timber harvesting totals approximately \$3 million which is shared with school districts, counties, and townships. The program's cost drivers continue to be fuel usage, increased MARCS use, and ongoing expenses to maintain heavily used trails. Over each fiscal year of the biennium this program will employ 75.5 FTEs.

Funding Source: GRF, federal grants, and fees

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	727-321	Division of Forestry	\$4,593,949	\$4,887,488
509	725-602	State Forest	\$1,683,000	\$1,593,547
510	725-631	Maintenance - State-owned Residences	\$75,000	\$25,000
4M7	725-686	Wildfire Suppression	\$100,000	\$100,000
4M7	725-631	Wildlife Suppression	\$70,000	\$0
R17	725-659	Performance Cash Bond Refunds	\$120,000	\$120,000
R43	725-624	Forestry	\$1,950,188	\$2,007,977
State Forest Management Total			\$8,592,137	\$8,734,012

Implication of Executive Recommendation: The Department requested a total of \$8,723,382 in FY 2008 and \$8,865,257 in FY 2009. The executive provided \$8,592,137 in FY 2007 and \$8,734,012 in FY 2009, a difference of \$131,245 in both fiscal years. However, despite the loss, funding levels are expected to maintain volunteer fire department assistance, wildfire investigations, and recreational opportunities. Similar to the recommendation in the Forestry Assistance program, the recommendations increase appropriations in the State Forest Fund (Fund 509) due to the consolidation of the Federal Grant Reimbursement Fund (Fund 328). The consolidation is expected to streamline budgeting and coding of expenditures. Added GRF appropriations to this program will allow the Department to complete the green certification of state forests through the State Forest Initiative and the Forest Stewardship Council in order to collect forest data to develop a baseline forest inventory.

Temporary and Permanent Law Provisions

None

Forestry Program Support

Program Description: This program provides general administrative support for all forestry programs. Support functions include: human resource activities, educational programs, and grant processing. This program supports 9.25 FTEs.

Funding Source: GRF and fees

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	727-321	Division of Forestry	\$2,527,000	\$2,681,273
509	725-602	State Forest	\$52,500	\$52,500
Forestry Program Support Total			\$2,579,500	\$2,733,773

Implication of Executive Recommendation: The recommendations will allow current support services to remain the same.

Temporary and Permanent Law Provisions

None

Program Series**2: Geological Survey**

Purpose: The Geological Survey program series is responsible for defining the geologic framework of the state in support of resource development, property protection, public safety, and environmental security. It produces maps and reports on geologic formations, mineral resources, fossil fuels, coastal processes, and geologic hazards. It also reviews applications and proposals where geology plays a role.

The following table shows the line items that are used to fund the Geological Survey program series, as well as the Governor's recommended funding levels.

Fund	ALI	Title	FY 2008	FY 2009

Federal Special Revenue Subtotal			\$655,000	\$720,000
Total Funding: Geological Survey			\$3,994,828	\$4,039,267

* Amounts do not reflect total funding because line items are used to fund programs in other program series.

This analysis focuses on the following specific programs within the Geological Survey program series:

- **Program 2.01: Geological Mapping and Investigations**
- **Program 2.02: Geological Records and Publications**

Geological Mapping and Investigations

Program Description: This program maps and analyzes subsurface geologic resources and formations such as: oil, gas, and coal resources; abandoned underground mines; Lake Erie bottom sediments; various mineral deposits; glacial layers; and bedrock formations. Data is then converted to digital format and databases and computer programs are then developed to analyze and report the data. Some of the products from these efforts available to industry and the public include: oil and gas well location maps, records of drilled wells, downloadable maps and data, coal resource maps, underground mine maps, bedrock maps, coastal aerial images, and various guidebooks and information circulars. The program also provides educational materials and presentations on geology topics, provides coastal hazard assessments and technical assistance, and assists in preparation of the Annual Report on Ohio Minerals Industries.

Funding Source: GRF (54%), minerals severance tax (22%), federal grants (22%), and fees received from permit applications for injection of liquid hazardous waste (2%)

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	728-321	Division of Geological Survey	\$1,478,133	\$1,478,133
155	725-601	Departmental Projects	\$0	\$69,053
3P1	725-632	Geological Survey - Federal	\$655,000	\$720,000
4J2	725-628	Injection Well Review	\$58,808	\$60,063
511	725-646	Ohio Geologic Mapping	\$754,310	\$666,652
Geological Survey Total			\$2,946,251	\$2,993,901

Implication of Executive Recommendation: The executive increased funding for this program above the agency's request by \$251,655 in FY 2008 and \$156,655 in FY 2009. Overall, current service levels will be maintained though new research and field investigations may be limited, certain mapping grants may not be pursued due to limited matching funds, and certain technical assistance activities may be reduced. However, these levels will likely allow the Division to hire a new Reservoir Specialist to better assist the petroleum industry and evaluate potential for carbon dioxide sequestration and maintain existing support staff. The program will employ 22.5 FTEs over the biennium.

Temporary and Permanent Law Provisions

None

Geological Records and Publications

Program Description: This program provides cartographic preparation of geologic maps and reports for public distribution based on geologic information compiled by the Geological Investigations and Mapping program. The program also distributes U.S. Geological Survey (USGS) topographical maps and information for public use, operates the Geologic Records Center, and the H.R. Collins Laboratory. The program will continue to employ 6.5 FTEs.

Funding Source: GRF (87%), printing rotary (12%), and federal funds (1%)

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	728-321	Division of Geological Survey	\$411,574	\$411,574
508	725-684	Natural Resources Publications Center	\$82,280	\$82,280
511	725-646	Ohio Geological Mapping	\$60,869	\$57,658
Geological Records and Publications Total			\$554,723	\$551,512

Implication of Executive Recommendation: The Department requested \$663,068 in FY 2008 and \$664,857 in FY 2009. However, the recommendations result in a loss of \$108,345 in FY 2008 and \$113,345 in FY 2009. Over the biennium, on a limited basis, this program will continue to provide access to geologic databases, digital base maps, and updates to its web site. The recommendations may not allow the Division to support a part-time Account Clerk position.

Temporary and Permanent Law Provisions

None

Program Series

3: Parks and Recreation

Purpose: The mission of the Division of Parks and Recreation is to produce the service of an outdoor recreation experience which meets or exceeds visitors' expectations.

The following table shows the line items that are used to fund the Parks and Recreation program series, as well as the Governor's recommended funding levels.

Fund	ALI	Title	FY 2008	FY 2009

Total Funding: Parks and Recreation			\$73,872,850	\$74,010,227

* Amounts do not reflect total funding because line items are used to fund programs in other program series.

There is one program within the Parks and Recreation program series:

■ **Program 3.01: Parks and Recreation**

Parks and Recreation

Program Description: This program administers, operates, and maintains a system of 74 state parks that provide outdoor recreational opportunities to visitors. Within these parks the Division maintains lodges, cottages, campgrounds, golf courses, boat ramps, beaches, nature centers, pools, picnic areas, trails, and buildings. The parks system is divided among large, medium, and small parks. Larger parks tend to generate large amounts of revenue compared to the others. In the past few fiscal years several parks have reduced certain services and maintenance functions due to limited funding. Over the biennium, the Division will continue to combine park operations, consolidate staff and resources, and seasonalize parks as cost saving measures. Personnel levels will remain unchanged compared to last biennium, funded at 873 FTEs.

Funding Source: GRF, state park rotary, waterways safety funds, rent payments, payments by FOP members

Line Items: See table above

Implication of Executive Recommendation: The executive recommended \$73,872,850 in FY 2008 and \$74,010,227 in FY 2009. These levels are \$996,245 less in each fiscal year than the Department originally requested. These funding levels may result in reduced services and maintenance functions at several parks.

Temporary Law Provisions

State Park Depreciation Reserve (Section 343.40). Requires appropriation item 725-680, Park Facility Maintenance, to be used by the Division of Parks and Recreation to maintain state park revenue-producing facilities in the best economic operating condition and to repair and replace equipment used in the operation of state park revenue-producing facilities.

Parks Capital Expense Fund (Section 343.40). Requires the Director of Natural Resources to submit to the Director of Budget and Management the estimated design, engineering, and planning costs of capital related work to be done by DNR staff for parks projects. The Director of Budget and Management may release appropriations from appropriation item 725-406, Parks Projects Personnel, for such purposes. The Director of DNR shall pay for these expenses from the Parks Capital Expenses Fund (Fund 227). Expenses from Fund 227 shall be reimbursed by the Parks and Recreation Improvement Fund (Fund 035).

State Park Operating (Section 343.40). Requires that all proceeds from insurance companies and any other sources for the replacement and construction of the Lake Hope Lodge and its appurtenances be deposited into the State Park Operating Fund (Fund 512).

Program Series**4: Coastal Management**

Purpose: This program series provides education, coordination, and assistance on a broad range of issues concerning the Lake Erie coastal resources including identifying coastal erosion and flood hazards, and protecting shipwrecks and underwater cultural resources. Additionally, the program manages federal grants for state and local participation.

The following table shows the line items that are used to fund the Coastal Management program series, as well as the Governor's recommended funding levels.

Fund	ALI	Title	FY 2008	FY 2009

Federal Special Revenue Subtotal			\$2,643,323	\$1,691,237
Total Funding: Coastal Management			\$4,286,778	\$3,195,361

* Amount does not reflect total funding because line item is used to fund programs in other program series.

One program is funded by this program series:

■ **Program 4.01: Coastal Management**

Coastal Management

Program Description: This program implements the Ohio Coastal Management Program and provides assistance to local agencies and nonprofits through grants in the Lake Erie coastal area. The Ohio Coastal Management Program Document guides the activities of the Office of Coastal Management to protect, preserve, and improve Lake Erie and its coastal resources and deals specifically with coastal erosion and flooding, ports and shoreline development, and recreational and cultural resources. Over the biennium this program will support 21.23 FTEs.

Funding Source: National Oceanographic and Atmospheric Administration (NOAA) grants, royalties from the mining of mineral resources under the bed of Lake Erie, lease payments for structures occupying Lake Erie Public Trust Areas

Line Items: See table above

Implication of Executive Recommendation: The recommended levels for FY 2008 provide an additional \$1,000,000 above requested levels in FY 2008 bringing the total level of funding to \$4,286,778 in that year. FY 2009 levels match requested levels at \$3,195,361. Overall, the recommendations will allow current service levels to be maintained and allow the Division to continue providing federal funding through the Ohio Coastal Management Program. Furthermore, the Department's extended budget request was honored allowing the Division to: (1) provide the additional spending authority to provide

disbursements to local communities for increased submerged land leases, (2) file over 700 land leased plats that have not been filed, (3) hire a temporary employee to ensure plats are filed appropriately, (4) develop a coastal design manual, and (5) develop a Lake Erie Shore Erosion Management Plan.

Permanent Law Provisions

Coastal Management (R.C. 317.08, 1504.02, 1506.01, 1506.38, 1506.39, 1506.40, 1506.41, 1506.42, 1506.43, 1506.44, 1506.45, 1506.46, 1506.47, 1506.48, 1506.99, 1521.01, 1521.99, and 6121.04). Requires the Director of Natural Resources, rather than the Chief of the Division of Water in the Department of Natural Resources, to administer the law governing coastal erosion and to issue permits for the construction of shore structures; eliminates the requirements that the Division of Real Estate and Land Management in the Department of Natural Resources administer the coastal management program, lakefront property lease program, and submerged lands program, thus providing for the Director's direct administration of those programs; decreases the maximum amount of the fine imposed for a violation of the law governing coastal erosion from \$1,000 to \$500 for each offense and states that each day of violation constitutes a separate offense; and relocates certain statutes governing coastal erosion and makes other technical changes. The Department may experience a minimal loss of revenue from the fine reductions. At this point all other associated administrative costs are expected to be minimal.

Program Series**5: Water Planning and Management**

Purpose: This program series provides research, regulation, and planning services concerning all of the state's water resources. It collects hydraulic data; produces a water well log; develops ground water resources, pollution potential, and other maps; issues permits for the construction of dams, dikes and levees; inspects existing dams; administers the state's floodplain management program; and conducts water supply studies.

The following table shows the line items that are used to fund the Water Planning and Management program series, as well as the Governor's recommended funding levels.

*Amounts do not reflect total funding because line items are used to fund programs in other program series.

The following three programs are within this program series:

- **Program 5.01: Water Management**
- **Program 5.02: Water Resources**
- **Program 5.03: Water Program Support**

Water Management

Program Description: This program includes three subprograms: Canal Land/Hydraulic Operations, Dam Safety, and Floodplain Management. The Canal Land/Hydraulic subprogram completes towpath improvement projects, develops and maintains an inventory of all Department-owned canals, and maintains all the watered sections of the canals. The Dam Safety subprogram responds to dam safety

emergencies, permits the construction of new dams and levees, repairs deficient dams, provides periodic inspection of dams, and approves construction repair for existing dams. The Floodplain Management subprogram provides flood disaster recovery response and coordinates agencies and citizens to ensure compliance with state flood damage reduction laws. A secondary function of this subprogram is coordinating the National Flood Insurance Program (a national initiative to reduce flood loss and disaster assistance costs). The Water Management program will employ 32.5 FTEs over the biennium.

Funding Source: GRF, land and water sales, land leases, federal grants, and fees

Line Items: See table below

Fund	ALI	Title	FY 2006	FY 2007
GRF	725-456	Canal Lands	\$332,859	\$332,859
GRF	733-321	Division of Water	\$1,506,409	\$1,615,147
430	725-671	Canal Lands	\$905,584	\$941,694
4S9	725-622	NatureWorks Personnel	\$61,234	\$61,234
3P4	725-660	Water - Federal	\$316,304	\$316,734
615	725-661	Dam Safety	\$548,223	\$595,416
Water Management Total			\$3,670,613	\$3,863,084

Implication of Executive Recommendation: The executive recommendations are \$154,119 less in each fiscal year than the Division requested. As a result, the Division may not be able to restore two part-time seasonal staff to the Canals subprogram and one engineering staff member to the Dam Safety program. Also, the Floodplain Management subprogram may not be able to support one current Environmental Specialist FTE. However, with these staff reductions in mind, overall service levels are expected to remain the same.

Temporary Law Provision

Canal Lands (Section 343.40). Retains temporary language that requires a transfer from GRF item 725-456, Canal Lands, to the Canal Lands Fund (Fund 430) for the State Canal Lands program. This provision allows for continued services and cash management flexibility in the State Canal Lands program.

Water Resources

Program Description: This program funds three subprograms: Ground Water Resources, Water Inventory and Cooperative Stream and Ground Water Gauging, and Water Planning. The Ground Water Resources program collects, maintains, interprets, and distributes information on ground water resources. Every year the Soil Inventory and Evaluation (SIE) program receives about 12,000 water well log records and compiles the data into an electronic repository. The Water Inventory and Cooperative Stream and Ground Water Gauging subprogram administers activities designed to characterize changing water supply conditions across the state. The program does this by monitoring and analyzing hydrologic data such as ground water levels, stream flow, precipitation, and reservoir and lake levels. The Water Planning subprogram compiles and evaluates water resource data, provides water resource information and education, and manages state-owned water supplies.

Funding Source: GRF, water sales, and federal grants

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	733-321	Division of Water	\$1,260,347	\$1,181,779
GRF	725-423	Stream and Ground Water Gauging	\$311,910	\$311,910
155	725-601	Departmental Projects	\$246,542	\$246,542
508	725-684	Natural Resources Publication Center	\$10,000	\$10,000
516	725-620	Water Management	\$2,913,618	\$2,931,513
4J2	725-628	Injection Well Review	\$6,000	\$6,000
Water Resources Total			\$4,748,417	\$4,687,744

Implication of Executive Recommendation: Recommended funding levels will support current subprogram activities and service levels. The executive also funded the Division's extended request (except for \$18,710) which will be used to fund a portion of a college intern program, purchase two to four stream gauges, and pay a portion of the program's operating and maintenance costs through a cost-share agreement with the U.S. Army Corps of Engineers.

Temporary and Permanent Law Provisions

None

Water Program Support

Program Description: The Water Program Support program provides all the business functions, human resources functions, computer support, web development and maintenance functions, communications, and strategic planning for the program. This program will employ approximately 3.5 FTEs over the biennium.

Funding Source: GRF, permits and leases, water sales

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	733-321	Division of Water	\$454,328	\$455,103
430	725-671	Canal Lands	\$26,888	\$29,352
514	725-606	Lake Erie Shoreline	\$25,000	\$25,000
Water Program Support Total			\$492,751	\$515,045

Implication of Executive Recommendation: The executive fully funded the Division's budget request for this program. Current service and staffing levels will be maintained.

Temporary and Permanent Law Provisions

None

Program Series

6: Soil and Water

Purpose: The Soil and Water program series provides technical, educational, and financial assistance to Ohio citizens throughout 88 county soil and water conservation districts (SWCDs). It works with other governmental agencies on programs of soil inventory and evaluation, nonpoint source pollution control, environmental education, storm water management, and erosion control.

The following table shows the line items that are used to fund the Soil and Water program series, as well as the Governor's recommended funding levels.

Fund	ALI	Title	FY 2008	FY 2009
General Revenue Fund				
GRF	725-407	Conservation Reserve Enhancement Program	\$1,000,000	\$1,000,000

General Services Fund				
155	725-601	Departmental Projects	\$1,705,676*	\$1,617,242*
General Services Fund Subtotal			\$1,705,676	\$1,617,242
Total Funding: Soil and Water			\$18,466,900	\$18,378,466

* Amounts do not reflect total funding because line items are used to fund programs in other program series.

The program series includes the following:

- **Program 6.01: Resource Assistance**
- **Program 6.02: Environmental Education**
- **Program 6.03: Resource Management**
- **Program 6.04: Soil and Water Conservation Districts**
- **Program 6.05: Soil and Water Program Support**

Resource Assistance

Program Description: The Resource Assistance program is comprised of three service components: Conservation Engineering and Technical Assistance (CETA), Resource Management Specialists (RMS), and Soil Inventory and Evaluation (SIE). The CETA provides a broad range of support for SWCDs including conservation engineering assistance and training. The RMS implements statewide agricultural, urban, and nonpoint source pollution control programs for Ohio's 88 SWCDs. The SIE program collects and analyzes soil resources, and prepares related reports, maps, and other materials. The program also provides SWCDs with technical assistance including on-site soil investigations and soil interpretation reports.

Funding Source: GRF, service contract revenue, and fee from participants in training programs

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	737-321	Division of Soil and Water	\$1,708,193	\$1,617,933
155	725-601	Departmental Projects	\$291,642	\$213,976
5BV	725-683	Soil and Water Districts	\$120,000	\$120,000
Resource Assistance Total			\$2,119,835	\$1,951,909

Implication of Executive Recommendation: The Department requested \$2,215,074 in FY 2008 and \$2,067,901 in FY 2009, resulting in a loss of \$95,239 and \$115,992, respectively. That said, the executive recommendations may not fully support some of the requested projects by Resource Management Specialists. However, overall funding levels will allow the Division to continue performing a variety of services for SWCDs.

Temporary and Permanent Law Provisions

None

Environmental Education

Program Description: This program supports the communications and environmental/conservation education needs of the Division and 88 SWCDs. Section staff play a key role in providing assistance to SWCDs in areas such as professional development, networking, collaboration, education program/planning evaluation, and public information. This program will fund 2 FTEs over the biennium.

Funding Source: GRF and federal grants

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
155	725-601	Departmental Projects	\$317,622	\$327,879
5BV	725-683	Soil and Water Districts	\$10,000	\$10,000
Environmental Education Total			\$327,622	\$262,879

Implication of Executive Recommendation: The executive recommendations fully fund the Division's request for this program and provide an additional \$75,000 each fiscal year. Currently, it is unknown what the additional \$75,000 may be used for over the biennium. Service and staffing levels will remain the same over the biennium.

Temporary and Permanent Law Provisions

None

Resource Management

Program Description: This program is composed of two components: watershed management and stormwater and stream restoration. Watershed management assists local officials and private citizens with development and implementation of watershed plans. The program also supports the development and implementation of Conservation Reserve Enhancement Program (CREP) programs that restores water quality, improves wildlife habitat, and develops riparian corridors. The stormwater and stream restoration

component of the program strives to reduce construction site sediment pollution from entering surface waters, encourages land owners to adopt natural channel design principles, and assists local governments with proper stormwater and flood control. This program will fund 6.5 FTEs over the biennium.

Funding Source: GRF and federal grants

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	725-407	Conservation Reserve Enhancement	\$1,000,000	\$1,000,000
GRF	737-321	Division of Soil and Water	\$420,025	\$427,126
155	725-601	Departmental Projects	\$960,662	\$974,887
5BV	725-683	Soil and Water Districts	\$315,000	\$315,000
Resource Management Total			\$2,695,687	\$2,717,013

Implication of Executive Recommendation: Similar to the Environmental Education program, the executive recommendations fully fund the Division's request for this program and provide an additional \$75,000 each fiscal year. Currently, it is unknown what the additional \$75,000 may be used for over the biennium. Service and staffing levels will remain the same over the biennium.

Temporary and Permanent Law Provisions

None

Soil and Water Conservation Districts

Program Description: This program assists SWCDs to ensure that land users and other agencies properly manage soil, water, and related resources in each of the state's 88 counties. The program ensures that state funds match county, township, and municipal appropriations through the Division's grant program. The program also provides training to SWCD board members, provides administrative support to 43 local watershed groups, reviews watershed plans, and provides first responder services for pollution complaints. The program employs 10 FTEs.

Funding Source: GRF and 25-cent tipping fee on construction and demolition debris

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	725-502	Soil and Water Districts	\$9,836,436	\$9,836,436
GRF	737-321	Division of Soil and Water	\$1,174,208	\$1,224,146
5BV	725-683	Soil and Water Districts	\$1,405,000	\$1,405,000
Soil and Water Conservation Districts Total			\$12,415,644	\$12,465,582

Implication of Executive Recommendation: The Department requested \$12,692,742 in FY 2008 and \$12,465,582 in FY 2009. Recommended levels fall short of the requested amounts by \$277,098 in FY 2008 and \$256,345 in FY 2009. It may result in fewer matching funds being available to SWCDs. With the recommendations the match rate is estimated to be 84.61% in FY 2008 and 81.09% in FY 2009.

Temporary Law Provision

Soil and Water Districts (Section 343.40). Authorizes annual subsidies of up to \$30,000, from appropriation item 725-502, Soil and Water Districts, to county soil and water conservation districts upon receipt of request and approval from the Ohio Soil and Water Conservation Commission. Moneys received shall be expended for the purposes of the district.

Soil and Water Program Support

Program Description: This program provides and allocates the costs of executive leadership and administrative staffing services for the Division of Soil and Water Conservation. Activities include administration, business services, human resources, communications, and strategic planning.

Funding Source: GRF, federal grants, and service agreements

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	737-321	Division of Soil and Water	\$772,362	\$805,583
155	725-601	Departmental Projects	\$135,750	\$100,500
Soil and Water Program Support Total			\$908,112	\$831,083

Implication of Executive Recommendation: The recommendations fully fund the Department's request and provide an additional \$75,000 in each fiscal year. Current service and staff levels will be maintained over the biennium. OBM reports that the recommendations will expand the Soil and Water Information Management System (SWIS) to all 88 SWCDs, as well as provide guidance for the Turnaround Ohio Clean Energy Initiative concerning agricultural practices for biofuel production.

Temporary and Permanent Law Provisions

None

Program Series

7: Real Estate (REALM)

Purpose: This program series coordinates the Department's master planning and participates in capital improvements. The Division of Real Estate and Land Management (REALM) coordinates Department-wide environmental review and the state's trail network. It serves as the Department's agent in buying, selling, and trading real estate for recreation and conservation needs, and provides resource analysis mapping and administers various grant programs.

The following table shows the line items that are used to fund the REALM program series, as well as the Governor's recommended funding levels.

Federal Special Revenue Fund Subtotal			\$3,850,000	\$3,850,000
Total Funding: REALM			\$17,297,382	\$17,252,672

* Amounts do not reflect total funding because line items are used to fund programs in other program series.

The REALM program series includes the following:

- **Program 7.01: Real Estate Services**
- **Program 7.02: Outdoor Recreation Services**
- **Program 7.03: Facilities Management Service**
- **Program 7.04: Environmental Review/Compliance**
- **Program 7.05: Recycling and Litter Prevention**
- **Program 7.06: REALM Program Support**

Real Estate Services

Program Description: This program provides real estate management services for the Department's landholding divisions. The land is bought, sold, and leased to promote wildlife management, outdoor recreation, forest management, and natural area protection. The program averages approximately 50 acquisitions or lease transactions per year that result in the addition of approximately 3,500 acres to DNR's land inventory. This program will fund 15 FTEs over the biennium.

Funding Source: GRF, bond revenues, fund transfers, and land sales

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	738-321	Division of Real Estate & Land Management	\$993,849	\$1,028,633
207	725-690	Real Estate Services	\$64,000	\$64,000
4S9	725-622	NatureWorks Personnel	\$62,740	\$62,740
430	725-671	Canal Lands	\$217,610	\$179,036
635	725-664	Fountain Square Facilities Maintenance	\$3,023	\$3,127
R17	725-659	Performance Cash Bond Refunds	\$10,000	\$10,000
Real Estate Services Total			\$1,351,222	\$1,347,536

Implication of Executive Recommendation: The executive recommendations funded all but \$43,090 of the Division's request in each fiscal year of the biennium. Overall, the recommendations will allow the Division to continue current land acquisition levels and land management practices. Funding levels may not be enough to expand the Division's Real Estate Geographical Information System (REGIS) project. This system digitizes parcel information for departmental landholdings.

Temporary and Permanent Law Provisions

None

Outdoor Recreation Services

Program Description: This program administers four major grant programs: the federal Land and Water Conservation Grant, the federal Recreational Trails Program, the state NatureWorks Grants, and the state Clean Ohio Trails Grants. These programs provide approximately \$10 million annually to public agencies and nonprofits for acquisition and development of parks and trails and other recreational and natural resources-related projects. The program also passes through capital improvement funds that are legislatively directed for community recreation projects and administers the State Recreational

Vehicle Fund that assists DNR agencies with acquisition and management of off-highway vehicle trails. Furthermore, the program creates and maintains the State Comprehensive Outdoor Recreation Plan and database. This program will fund 8.5 FTEs over the biennium.

Funding Source: GRF, land sales, federal funds, fees, interest earnings

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	738-321	Division of Real Estate & Land Management	\$282,020	\$291,890

061	725-405	Clean Ohio Operating	\$145,848	\$145,528
Outdoor Recreation Services Total			\$4,496,727	\$4,452,664

Implication of Executive Recommendation: The executive fully funded the Department's requested levels, and provided an additional \$55,000 in FY 2008. The funding levels will allow the Division to award \$10 million in grants to support local parks and trail projects.

Temporary Law Provision

Clean Ohio Operating Expenses (Section 343.40). This provision states that appropriation item 725-405, Clean Ohio Operating, shall be used in administering recreational trail development activities under the Clean Ohio Program.

Facilities Management Service

Program Description: This program maintains 9 buildings and 23 acres at DNR's Fountain Square complex as well as the buildings and grounds at the DNR area at the state fairgrounds. Facility Management also provides mail, fleet, records, warehouse, and housekeeping services for the 20 offices/divisions at Fountain Square. This program will fund 21.5 FTEs over the biennium.

Funding Source: Indirect central support charges assessed to each of DNR's offices and divisions

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
635	725-664	Fountain Square Facilities Management	\$2,828,930	\$2,829,576
Facilities Management Service Total			\$2,828,930	\$2,829,576

Implication of Executive Recommendation: The executive fully funded the Department's requested levels. Current service and staffing levels will be maintained over the biennium.

Temporary and Permanent Law Provisions

None

Environmental Review/Compliance

Program Description: This program coordinates environmental matters concerning the Department and state as necessary to comply with the National Environmental Policy Act, the Intergovernmental Cooperation Act, and the Water Pollution Control Act. Annually, the Division receives more than 300 such projects to review. Program staff also provide technical assistance, environmental review on various DNR projects, and participate in various work groups such as the Ohio Wind Working Group and the Wetland Mitigation Review Bank Team. This program employs a staff of two.

Funding Source: GRF

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	738-321	Division of Real Estate and Land Management	\$184,122	\$189,119
Environmental Review/Compliance Total			\$184,122	\$189,119

Implication of Executive Recommendation: The executive fully funded the Department's requested levels. Current service and staffing levels will be maintained over the biennium.

Temporary and Permanent Law Provisions

None

Recycling and Litter Prevention

Program Description: The Recycling and Litter Prevention Program provides grants to local governmental entities and solid waste management districts to reduce waste, increase recycling, and minimize litter throughout Ohio. The Division also administer special grants for cleaning up piles of dumped scrapped tires.

Am. Sub. H.B. 66 of the 126th General Assembly restructured the funding to the Litter Control and Recycling Program by moving its funding source from the Corporate Franchise Tax to a \$.75 per ton fee on construction and demolition debris. This change reduced the program funding from \$11.7 million to approximately \$7.1 million each fiscal year.

Funding Source: Tipping fees on construction and demolition debris, sale of recycled materials from state agencies, transfers from Ohio Environmental Protection Agency (EPA)

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
4D5	725-618	Recycled Materials	\$50,000	\$50,000
532	725-644	Litter Control and Recycling	\$6,164,491	\$6,160,000

Recycling and Litter Prevention Total			\$7,214,491	\$7,210,000

Implication of Executive Recommendation: The executive fully funded the Department's requested levels and provided an additional \$20,861 in each fiscal year. Current service and staffing levels will be maintained over the biennium. Currently, what the additional \$20,861 will be used for is unknown.

Temporary Law Provision

Litter Control and Recycling (Section 343.40). Requires that not more than \$1,500,000 from appropriation item 725-644, Litter Control and Recycling be used for administration of the Recycling and Litter Prevention program. Overall, service and staffing levels will remain the same.

REALM Program Support

Program Description: This program provides and allocates the costs of executive leadership and administrative staffing services for REALM. Activities include: administration, business services, human resources, communications, and strategic planning. This program will fund seven positions each fiscal year of the biennium.

Funding Source: Tipping fees on construction and demolition debris, sale of recycled materials from state agencies, and transfers from EPA

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	738-321	Division of Real Estate & Land Management	\$831,883	\$782,232

061	725-405	Clean Ohio Operating	\$9,152	\$9,472
REALM Program Support Total			\$1,201,890	\$1,184,883

Implication of Executive Recommendation: The executive fully funded the Department's requested levels and provided an additional \$10,000 in each fiscal year. Current service and staffing levels will be maintained over the biennium.

Temporary and Permanent Law Provisions

None

Program Series

8: Watercraft

Purpose: The Watercraft program series registers boats and administers grants for capital improvement projects such as launch ramps and marinas. The Division serves: boaters, anglers, water recreation enthusiasts, U.S. Coast Guard, and local governments.

The following table shows the line items that are used to fund the Watercraft program series, as well as the Governor's recommended funding levels.

Within the Watercraft program series are:

- **Program 8.01: Watercraft Registration**
- **Program 8.02: Watercraft Operations, Safety, Education and Enforcement**
- **Program 8.03: Watercraft Program Support**

Watercraft Registration

Program Description: This program seeks to ensure that all watercraft used in state waters are registered appropriately and enforces all laws relative to the identification, numbering, titling, and operation of vessels operated on Ohio's 120,000 acres of inland lakes, 481 miles of the Ohio River and 23 million acres of Lake Erie. This program will employ 22.5 FTEs in FY 2008 and 20.5 FTEs in FY 2009.

Funding Source: A portion of registration and titling fees charged to boaters in the state, state motor fuel excise tax, fines, and the U.S. Coast Guard Boating Safety Grants

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
086	739-401	Division of Watercraft	\$1,635,000	\$1,635,000
Watercraft Registration Total			\$1,635,000	\$1,635,000

Implication of Executive Recommendation: The executive recommended funding levels provide full funding and will allow the Division to provide continual titling services to recreational boaters. The program will continue with the hull identification process (as required by the U.S. Coast Guard) as well as web-based registration. Furthermore, the recommendation provides an additional \$170,000 in funding over the biennium for imaging and electronic depositing of checks from individual "walk in" watercraft registration customers.

Temporary and Permanent Law Provisions

None

Watercraft Operations, Safety, Education, and Enforcement

Program Description: This program seeks to enhance the safe use of Ohio's waterways for the boating public, and to ensure, through education and enforcement that watercraft operators abide by the laws, rules, and regulations governing the proper use and operation of watercraft. Some of the services or activities provided by this program include: performing on-the-water law enforcement patrol; conducting vessel safety inspections; administering state grants dealing with safety, education, and navigation; and conducting boater education courses. The Division annually awards \$5-\$6 million in grants, primarily for dredging, but also for enforcement patrol, safety education, equipment loans, and navigational aids. Recently, the Division has expanded by adding two watercraft field offices, one in Ashtabula and one in Wapakoneta. This program employs 136.5 FTEs.

Funding Source: A portion of registration and titling fees, motor fuel excise tax, U.S. Coast Guard Boating Safety Grants, fines and penalties, interest earnings, and refunds

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
086	725-418	Buoy Placement	\$52,182	\$52,182
086	725-501	Waterways Safety Grants	\$137,867	\$137,867
086	725-506	Watercraft Marine Patrol	\$576,153	\$576,153
086	725-513	Watercraft Educational Grants	\$366,643	\$366,643
086	739-401	Division of Watercraft	\$14,480,681	\$14,900,681
5AW	725-682	Watercraft Revolving Loans	\$1,000,000	\$1,000,000
Watercraft Operations, Safety, Education, and Enforcement Total			\$16,613,526	\$17,033,526

Implication of Executive Recommendation: The executive fully funded the Department's request levels. The funding levels will continue normal operations and allow for grant funding to continue at current levels, and will continue the Division's low interest Watercraft Revolving Loan Program. The recommendation also provides an additional \$1.15 million in funding over the biennium for imaging and electronic depositing of checks from individual "walk in" watercraft registration customers.

Temporary Law Provisions

Watercraft Revolving Loan Program (Section 343.40). Requires OBM to transfer an amount not to exceed \$1,000,000 in FY 2008 and not to exceed \$1,000,000 in FY 2009 from the Waterways Safety Fund (Fund 086) to the Watercraft Revolving Loan fund (Fund 5AW). These moneys will continue the Department's Watercraft Revolving Loan Fund to make loans for marinas and other boating facilities.

Watercraft Marine Patrol (Section 343.40). Requires that not more than \$200,000 in each fiscal year from appropriation item 739-401, Division of Watercraft, be used to purchase equipment for marine patrols that qualify for funding from the Department of Natural Resources.

Watercraft Program Support

Program Description: This program provides and allocates costs of executive leadership and administrative staffing services for the Division of Watercraft. Activities include administration, business services, human resources, communications, and strategic planning. This program employs 24 FTEs.

Funding Source: A portion of registration and titling fees charged to boaters in the state, motor fuel excise tax, U.S. Coast Guard Boating Safety Grant, fines and penalties, interest earnings, and refunds

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
086	739-401	Division of Watercraft	\$3,511,000	\$3,611,000
Watercraft Program Support Total			\$3,511,000	\$3,611,000

Implication of Executive Recommendation: The executive fully funded the Department's request levels for this program. The funding levels will continue normal operations and staffing levels. The recommendations provided an additional \$300,000 over the biennium to cover increased fuel and increased maintenance costs.

Temporary and Permanent Law Provisions

None

Program Series

9: Wildlife

Purpose: This program series manages and maintains over 376,000 acres for wildlife habitat and public access at 120 wildlife areas and lands under agreement. These lands provide opportunities for hunting, fishing, and wildlife viewing. Programs within this series are responsible for wildlife and fish management, information, education, and law enforcement. Special emphasis is placed on endangered species, wetlands, and other critical habitats for wildlife diversity. The Division operates seven district offices, four fish and wildlife research stations, six fish hatcheries, and several wildlife areas for public hunting and fishing.

The following table shows the line items that are used to fund the Wildlife program series, as well as the Governor's recommended funding levels.

The following programs are funded within the program series:

- **Program 9.1: Fish Management and Research**
- **Program 9.2: Wildlife Management and Research**
- **Program 9.3: Wildlife Education, Law, and Support**

Fish Management and Research

Program Description: This program works to preserve, protect, promote and enhance Ohio's aquatic wildlife and their habitats. The Fish Management and Research program does the following: operates six state fish hatcheries, maintains 66 public access sites for boat and shore fishing access, and manages aquatic resources on the Ohio River, Lake Erie, and the state's other rivers and streams. The program also conducts studies of fish populations and coordinates Ohio State Management Plan for aquatic nuisance species. The Division typically receives an annual grant of \$6.5 million from the U.S. Fish and Wildlife Service. This program will fund 99 FTEs in FY 2008 and 95 FTEs in FY 2009.

Funding Source: Fishing and hunting licenses, federal excise tax on hunting equipment, tax check-off revenue, license plate dollars, federal grants, donations, mitigation settlements, 1/8 of 1% of the gas tax, and GRF

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009

Fish Management and Research Total			\$15,272,734	\$15,510,681

Implication of Executive Recommendation: The executive fully funds the Department's request for this program. The funding levels will allow the Division to maintain current staffing and service levels.

Temporary and Permanent Law Provisions

None

Wildlife Management and Research

Program Description: The Wildlife Management and Research program is responsible for managing all wildlife, assisting landowners with habitat improvements, managing land for wildlife and wildlife-oriented recreation, and conducting research to be used in improving wildlife populations. The Department owns and maintains 80 wildlife areas throughout the state. The Department also owns and maintains 26 national estuarine research reserves established nationwide as living laboratories for long-term scientific research and education—one of these reserves is the Old Woman Creek National Estuarine

Research Reserve on Lake Erie. The Department also monitors, prevents, and controls the spread of wildlife diseases; collects data to implement hunting and trapping regulation; acquires land for the management and conservation of wild animals; and provides technical assistance to private landowners dealing with wildlife conflicts and habitat management.

In the last main operating budget, Am. Sub. H.B. 66 of the 126th General Assembly, the Department decided to move the Old Woman Creek Reserve from the Division of Natural Areas and Preserves to the Division of Wildlife. The Department felt the move would allow a more coordinated and concerted research effort to benefit the Lake Erie ecosystem and the fisheries it supports. Further, the Department believed that the transfer would provide for more long term funding stability and greater serviceability for the Department's research partners and educational opportunities.

Funding Source: Fishing and hunting licenses, federal excise tax on hunting equipment, timber sales, wetland habitat stamp sales, wetland mitigations, donations, tax check-off, license plate dollars, and grants

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	725-425	Wildlife License Reimbursement	\$250,000	\$200,000
015	740-401	Division of Wildlife	\$13,161,386	\$13,208,363
817	725-655	Wildlife Conservation Check-off	\$2,629,400	\$2,629,400
816	725-649	Wetlands Habitat	\$966,885	\$966,885
815	725-636	Cooperative Management Projects	\$120,449	\$120,449
Wildlife Management and Research Total			\$17,128,120	\$17,125,097

Implication of Executive Recommendation: The executive fully funds the Department's request for this program. These funding levels will allow current programs, services, and staff levels to remain the same. Funding of the Department's extended request will allow the Department to cover contractual pay increases, meet existing grant obligations, and purchase land.

Temporary Law Provision

Wildlife License Reimbursement (Section 343.40). Provides a mechanism for the reimbursement to the Wildlife Fund from the GRF caused by discounts on hunting and fishing licenses permits, and stamp fees provided to senior citizens.

Wildlife Education, Law, and Support

Program Description: This program enforces wildlife laws statewide to protect Ohio's fish and wildlife resources. The program issues hunting and fishing licenses and inspects licensing agents and vendors. The program also administers the legally mandated hunter education program using Division personnel and volunteer instructors. Other education and support services include: providing new releases, media interviews, web site updates, magazines, and television shows. The program also operates five Class A public shooting ranges and operates a customer service center. This program also administers \$14 million in federal grants. Over the biennium, 252 FTEs will be funded in FY 2008 and 241 FTEs will be funded in FY 2009.

Funding Source: Fishing and hunting licenses, federal excise tax on hunting equipment, timber sales, wetland habitat stamp sales, wetland mitigations, donations, tax check-off, license plate dollars, and grants

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009

4M8	725-675	FOP Contract	\$8,438	\$8,438
Wildlife Law Enforcement Total			\$35,820,063	\$36,780,119

Implication of Executive Recommendation: The recommendations increase funding levels above the Division's request by \$1,300,000 in FY 2008 and by \$1,350,000 in FY 2009. This increase will maintain existing service and staffing levels. A portion of these additional appropriations will be used to fund contractual pay increases, pay the Division's share of the Department's central support charges, and make necessary repairs to Division residences.

Program Series**10: Natural Areas and Preserves**

Purpose: This program series is responsible for the management, acquisition, and protection of Ohio's most pristine areas. These natural areas characterize the state's natural landscape, flora, geology, and provide habitat for rare and endangered species. Additionally, the program maintains the heritage database of all endangered species and conducts botanical research and environmental impact analysis.

The following table shows the line items that are used to fund the Natural Areas and Preserves program series, as well as the Governor's recommended funding levels.

This analysis focuses on the following specific programs within the Natural Areas and Preserves program series:

- **Program 10.01: Natural Areas and Preserves**
- **Program 10.02: Ohio Scenic Rivers**
- **Program 10.03: Ohio Natural Heritage**
- **Program 10.04: Natural Areas Program Support**

Natural Areas and Preserves

Program Description: This program administers a statewide system of nature preserves and acquires, dedicates and accepts donations of public and privately owned lands as nature preserves. Nature preserves are legally protected lands that have scientific, historical, or ecological significance and represent the finest examples of Ohio's original landscape. State nature preserves are legally protected natural areas that vary in size from less than one acre to thousands of acres. They are used primarily for research, education, and low impact activities such as bird watching, hiking, and photography. Currently, Ohio has 130 state nature preserves and natural areas. Regional and district preserve managers are responsible for all preserve operations including facilities management, grounds keeping, safety,

maintenance, law enforcement, habitat management, and interpretive programming. The program will employ 26.5 FTEs in FY 2008 and 26.5 FTEs in FY 2009.

Funding Source: GRF, grants, publications, housing leases, and tax check-off funds

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	741-321	Division of Natural Areas and Preserves	\$1,447,220	\$1,474,984
522	725-656	Natural Areas Checkoff Funds	\$1,539,350	\$1,538,952
155	725-601	Departmental Projects	\$27,554	\$27,554
508	725-684	Natural Resources Publication Center	\$10,000	\$10,000
510	725-631	Maintenance-State Owned Residences	\$30,000	\$30,000

Natural Areas and Preserves Total			\$3,269,124	\$3,296,490

Implication of Executive Recommendation: The Department received \$39,342 less than it requested in FY 2008 and \$41,352 less in FY 2009. Though requested levels were slightly reduced, the Division will continue developing management plans for new preserves, develop and maintain eco-management plans, work with landowners to provide technical assistance, conduct prescribed burns, and partner with other agencies for assistance with site management.

Ohio Scenic Rivers

Program Description: This program is responsible for administering Ohio's Scenic Rivers Program. The program works with local communities, landowners, conservation organizations, business and industry to protect Ohio's remaining high quality and biological diverse stream systems. Scenic river designation is a cooperative venture among state and local governments, citizen's groups, and local communities within a watershed. The Division's Scenic River Program considers a local river or stream for designation as wild, scenic, or recreational rivers – currently there are 21 designated rivers. Today, Ohio has 11 state designated streams encompassing over 700 river miles and 20 stream segments. The program employs Scenic River Managers who work in four regions of the state. These managers review projects, review local zoning cases that may impact river resources, help local communities develop watershed plans to protect river resources, conduct biological studies, and assist communities in securing grant funding. This program will fund 9 FTEs in FY 2008 and 8 FTEs in FY 2009.

Funding Source: GRF and other funds

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	741-321	Division of Natural Areas and Preserves	\$458,163	\$383,815
155	725-601	Departmental Projects	\$55,631	\$65,631
4U6	725-668	Scenic Rivers Protection	\$407,100	\$407,100
Ohio Scenic Rivers Total			\$920,894	\$856,546

Implication of Executive Recommendation: Compared to requested levels the recommendations reduce funding by \$125,970 in FY 2008 and \$127,980 in FY 2009. This reduction may result in additional staffing needs not being met, particularly in the southwest region of the state. Additional staff would assist in the completion of a Scenic River Designation Study and provide assistance to local communities. However, the Division will continue to conserve local river resources, improve watershed protection, complete restoration work along streams, and implement the Ohio Stream Quality Monitoring Program.

Temporary and Permanent Law Provisions

None

Ohio Natural Heritage

Program Description: This program provides a comprehensive database of information on rare and endangered plants and animals, outstanding natural communities, and special geological features in the state. This database is known as the Heritage database. Additionally, the program prepares and maintains surveys and inventories of both natural areas and rare species. The program also adopts criteria for listing and compiles the official list of plants that are threatened or endangered in Ohio. The database is used frequently by consultants, state agencies, and other private sector businesses for environmental reviews and project impact statements. Each year, 1,000 to 2,000 data requests and environmental reviews are conducted by Division staff using the database. Over the biennium, this program will fund approximately 7 FTEs.

Funding Source: GRF, income from external data requests, tax check-off funds

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	741-321	Division of Natural Areas and Preserves	\$319,865	\$337,804

522	725-656	Natural Areas Check off Funds	\$11,320	\$11,718
Ohio Natural Heritage Total			\$466,003	\$474,340

Implication of Executive Recommendation: The recommendations fully fund the Division's request for this program. Current service and staffing levels will be maintained over the biennium. The Department notes that these funding levels will allow for the production of the Ohio Rare Plants Status List, sponsorship of the annual Botanical Symposium, updates to database records, and continued education presentations and publications on invasive plant species.

Temporary and Permanent Law Provisions

None

Natural Areas Program Support

Program Description: This program provides the program guidance and leadership for the Division. Support functions include real estate transactions, publications, media contacts, human resources, purchasing, fiscal managements, labor relations, public inquires, etc. Over the biennium, this program will fund 6 FTEs.

Funding Source: GRF, grant funding

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	741-321	Division of Natural Areas and Preserves	\$889,626	\$923,291
155	725-601	Departmental Projects	\$4,181	\$4,181
Natural Area Program Support Total			\$893,807	\$927,472

Implication of Executive Recommendation: The recommendations fully fund the Division's request for this program and provide an additional \$75,027 in FY 2008 and \$79,047 in FY 2009. The Division's budget request is unclear how funding levels will impact staffing. OBM's Bluebook states that the recommendations will reduce administrative support staff. The Bluebook also notes that the recommendations will allow for the implementation of the Ohio Cave Program to preserve and protect unique cave geologic formations.

- **Program 11.4: Mineral Resource Program Support**

Minerals Regulatory

Program Description: This program provides for enforcement, inspection, regulation, permitting and application review regarding the extraction of coal, industrial minerals, and oil and gas. Specifically, this program assists in the plugging of orphan wells, reviews applications for permits to surface mine and underground mine; conducts field inspections; and coordinates efforts with several state and federal agencies including the Ohio EPA, Army Corps of Engineers, U.S. Fish and Wildlife Service, and the U.S. Office of Surface Mining. Under the Minerals Regulation subprogram fees are collected and bonds are maintained to ensure reclamation of the affected lands. In FY 2008, this program will fund 74.38 FTEs and 78.20 FTEs in FY 2009

Funding Source: Mineral and coal mining severance tax revenue, fees, fines and penalties, GRF (to plug orphan wells), grants, permit fees, and bond refund revenue

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
3P2	725-642	Oil and Gas-Federal	\$172,828	\$179,062
518	825-643	Oil and Gas Permit Fees	\$2,149,160	\$2,147,868
3B7	725-654	Reclamation-Regulatory	\$1,494,075	\$1,522,048
4J2	725-628	Injection Well Review	\$1,580	\$1,637
526	725-610	Strip Mining Administration Fees	\$1,324,542	\$1,276,470
R17	725-659	Performance Cash Bond Refunds	\$149,263	\$149,263
518	725-677	Oil and Gas Well Plugging	\$800,000	\$800,000
527	725-637	Surface Mining Administration	\$1,300,525	\$1,521,361
Minerals Regulatory Total			\$7,391,973	\$7,597,709

Implication of Executive Recommendation: The executive funded an additional \$15,000 above the Department's request for this program. In regard to Mineral Regulation, the Department expects that it will be able to continue to conduct timely review of permits, verify the accurate deposit and release of bonds, respond to complaints and information requests, and provide field inspections and field training. As far as Oil and Gas Regulation, the division will conduct permit reviews, ensure proper disposal and transportation of brine, contract to plug 60-70 abandoned oil and gas wells each fiscal year (this effort will result in spending over \$1 million over the biennium), provide drilling and plugging inspections, and provide online sources of oil and gas records. The Department notes that it may not be able to routinely inspect all known permitted wells in the state at these funding levels.

Temporary Law Provision

Oil and Gas Well Plugging (Section 343.40). Requires appropriation item 725-677, Oil and Gas Well Plugging, to be used exclusively for the purposes of plugging wells and to properly restore land surfaces from idle and orphan wells. Specifies that no funds from the appropriation shall be used for salaries, maintenance, equipment, or other administrative purposes, except those costs directly attributed

to plugging of an idle or orphan well. Furthermore, appropriation authority from this appropriation shall not be transferred to any other fund or line item.

Mine Safety (Rescue, Training, Enforcements)

Program Description: The Mine Safety Program works to promote safe mining practices by: inspecting surface and underground mines to provide safety consultations and enforce work safety laws; providing federally mandated mine safety training; providing emergency rescuer services; testing and certifying mine foremen and blasters; and providing air quality analyses of mines.

Funding Source: GRF, federal grants, and cross fund utilization

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	744-321	Division of Mineral Resource Mgmt	\$2,151,241	\$2,129,723
5B3	725-674	Mining Regulation	\$28,850	\$28,850
508	725-684	Natural Resources Publication Center	\$247	\$0
527	725-637	Surface Mining Administration	\$76,531	\$78,695
332	725-669	Federal Mine Safety Grant	\$258,102	\$258,102
Mine Safety Total			\$2,514,971	\$2,495,370

Implication of Executive Recommendation: At the recommended levels the Division will continue to provide adequate training, testing, and mine rescue services. It is unknown if funding will be enough to complete 4 inspections per year at surface mines as required by law. Furthermore, funding levels may not be enough to purchase hand held air quality monitors, new communications equipment, and oxygen pumps desired by the Department.

Temporary and Permanent Law Provisions

None

Abandoned Mine Lands

Program Description: This program works to develop, design, and oversee reclamation projects to reclaim mine impacted lands and restore aquatic ecosystems in mining impaired streams. The division administers the State and Federal Abandoned Mined Lands Program and the Federal Emergency (and nonemergency) Abandoned Mine Lands program. Programs are focused on engineering, geotechnical, environmental, wildlife enhancement, reforestation, and archeological aspects of reclamation. This program receives an annual federal grant of approximately \$7 million. This program will support 48.38 FTEs in FY 2008 and 49.38 FTEs in FY 2009.

Funding Source: Federal funds and severance tax revenues

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
3B5	725-645	Federal Abandoned Mine Lands	\$13,564,538	\$13,541,122
3R5	725-673	Acid Mine Drainage Abatement/Trtmnt	\$1,999,998	\$2,025,001
529	725-639	Unreclaimed Land Fund	\$2,471,955	\$1,689,785
531	725-648	Reclamation Forfeiture	\$2,028,411	\$2,027,280
Abandoned Mine Lands Total			\$20,064,902	\$19,283,188

Implication of Executive Recommendation: The recommendations fully fund the Department's request and provide an additional \$1.9 million in FY 2008 and \$1.1 million in FY 2009. The increased funding is due to severance tax changes from Am. Sub. H.B. 443 from the 126th General Assembly. These funding levels will be adequate to continue providing engineering services, develop plans to reclaim high priority sites, ensure full expenditure of the federal grant, and respond to citizen complaints.

Temporary and Permanent Law Provisions

None

Mineral Resources Program Support

Program Description: This program provides administrative, fiscal, human resources, information technology, fleet, asset management, facilities, and general operations support for the all the sections in the Division of Mineral Resources Management. These support services will be provided with approximately 19 FTEs in each fiscal year of the biennium.

Funding Source: GRF (to plug orphan wells), federal grant funds, permit fees, severance tax revenues, acreage fees, and bond refund revenue

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	744-321	Division of Mineral Resource Mgmt.	\$916,926	\$938,444
3B5	725-645	Federal Abandoned Mine Lands	\$743,126	\$766,545
3B7	725-654	Reclamation-Regulatory	\$613,216	\$585,244
3P2	725-642	Oil and Gas-Federal	\$54,133	\$55,447
4J2	725-628	Injection Well Review	\$1,190	\$1,233
518	725-643	Oil and Gas Permit Fees	\$425,218	\$438,700
526	725-610	Strip Mining Admin. Fees	\$607,949	\$627,401
527	725-637	Surface Mining Administration	\$475,786	\$346,535
529	725-639	Unreclaimed Land Fund	\$420,561	\$334,472
531	725-648	Reclamation Forfeiture	\$33,823	\$34,957
Mineral Resources Program Support Total			\$20,064,902	\$19,283,188

Implication of Executive Recommendation: The recommendations fully fund the Department's request and provide an additional \$356,907 in FY 2008 and \$268,583 in FY 2009. The increased funding is due to severance tax changes from Am. Sub. H.B. 443 from the 126th General Assembly. OBM reports that these funding levels will also provide guidance for the Turnaround Ohio Clean Energy Initiative for underground carbon sequestration and coal bed methane production.

Program Series

12: Program Management

Purpose: This program series provides the administrative direction of the agency and provides centralized support functions and services for coordinated operations and ultimately program success.

The following table shows the line items that are used to fund the Program Management program series, as well as the Governor's recommended funding levels.

Fund	ALI	Title	FY 2008	FY 2009

* Amounts do not reflect total funding because line items are used to fund programs in other program series.

The following are parts of the Program Management series:

- **Program 12.01: Natural Resources Program Support**
- **Program 12.02: Engineering**
- **Program 12.03: Law Enforcement**

Natural Resources Program Support

Program Description: This program series provides the administrative leadership of the agency and provides centralized support functions for the central office. The goals of the program are to ensure the goals of the Governor, the legislature and the Ohio Revised Code are carried out in all divisions and activities of the Department. A strategic plan guides the program activities and includes emphasis on outdoor recreation, land stewardship, water stewardship, Lake Erie and wildlife and plant communities.

Over the biennium the demand for IT services to support DNR business functions will continue to grow. In both FY 2008 and FY 2009, 91 FTEs will be funded under this program.

Funding Source: Direct and indirect charge backs to the divisions that are served.

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	725-404	Fountain Square Rental Payments-OBA	\$1,094,900	\$1,081,200
GRF	725-413	OPFC Rental Payments	\$19,589,400	\$18,316,200
GRF	725-903	Natural Resources G.O. Debt Service	\$24,713,800	\$25,723,000
GRF	729-321	Office of Information Technology	\$440,895	\$440,895
155	725-601	Departmental Projects	\$65,000	\$65,000
157	725-651	Central Support Indirect	\$6,139,724	\$6,436,503
204	725-687	Information Services	\$4,676,627	\$4,676,627
4X8	725-662	Water Resources Council	\$125,000	\$125,000
3B3	725-640	Federal Forest Pass-Thru	\$225,000	\$225,000
3B4	725-641	Federal Flood Pass-Thru	\$490,000	\$490,000
Program Support Total			\$57,560,346	\$57,579,425

Implication of Executive Recommendation: The executive recommendations reduce the agency's request amounts by \$975,800 in FY 2008 and \$1,253,500 in FY 2009. Considering these decreases it is unknown how service levels may be impacted. It is possible that in FY 2009 payroll cost increases due to collective bargaining agreements and fringe benefit agreements may result in a funding deficit of \$200,000, resulting in the possible elimination of two FTEs.

Temporary Law

Central Support Indirect (Section 343.20). Requires as in past biennia, the Department of Natural Resources, with the approval of the Director of Budget and Management, to utilize a methodology for determining each divisions' payments into the Central Support Indirect Fund (Fund 157). The methodology used is to contain the characteristics of administrative ease and uniform application in compliance with federal grant requirements. It may include direct cost charges for specific services provided. Payments to the Central Support Indirect Fund shall be made using an intrastate transfer voucher.

Fountain Square (Section 343.30). Continuing language that specifies the relevant period of time from July 1, 2007 to June 30, 2009 for all rental and lease payments to be made to the Ohio Building Authority. This provision also specifies that line item 725-664, Fountain Square Facilities Management, is used for payments associated with maintenance of the buildings. Fountain Square is the building complex that houses the administrative offices for the Department and is located in north Columbus.

Lease Rental Payments (Section 343.30). Updates the relevant period of time from July 1, 2007 to June 30, 2009 for lease payments paid from appropriation item 725-413, OPFC Lease Rental Payments. This provision allows for continued lease payments and accounts for increased rent costs.

Natural Resources General Obligation Debt Service (Section 343.30). Updates language that mandates the payment of debt service and financing costs from line item 725-903, Natural Resources General Obligation Debt Service, during the period from July 1, 2007 to June 30, 2009. The Natural Resources General Obligation Debt Service item funds debt service on capital improvements to land and water recreational facilities, soil and water protection equipment and facilities, and other improvements related to the state's natural resources programs. The Office of the Sinking Fund or the Director of Budget and Management shall effectuate the required payments by an intrastate transfer voucher.

Engineering

Program Description: The Engineering program provides all aspects of the Department's construction projects and capital improvements program. The Office of Engineering has the lead role in preparing and managing the department's six-year capital improvements plan and biennial capital budget request. It also provides technical support for facility and water/wastewater system operations. The program annually bids and manages 20-25 capital improvement projects totaling \$15 to \$20 million.

Am. Sub. H.B 443 of the 126th General Assembly made several changes to the Department's contracting process. One of the changes created incentives for contractors to look for project savings whereby the Department and the contractor would split the savings. The bill also allowed the Department to reduce the amount of wage rate paperwork required in bidding documents.

The program's staffing levels in FY 2008 are at 30.5 FTEs and 29.5 FTEs in FY 2009. The program has been experiencing staffing declines over the last few fiscal years. In FY 2006 the Division eliminated three Construction Project Representatives resulting in greater reliance on consultants.

Funding Source: GRF and fund transfers; capital dollars provided in the capital appropriations budget

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
GRF	736-321	Division of Engineering	\$3,118,703	\$3,118,703
227	725-406	Parks Projects Personnel	\$110,000	\$110,000
4S9	725-622	NatureWorks Personnel	\$401,026	\$401,026
508	725-684	Natural Resources Publication Center	\$40,000	\$40,000
Engineering Total			\$3,669,729	\$3,669,729

Implication of Executive Recommendation: The recommendations provide an additional \$72,465 in each fiscal year of the biennium. This increase will likely go toward the addition of an entry level project manager position that would oversee capital improvement projects and support completion of minor new construction and maintenance projects. The Division will continue to manage roughly 20-25 capital improvement projects totaling \$15 to \$20 million, as well as respond to numerous work requests, land surveying requests, and make various site visits to water and wastewater facilities operated by DNR.

Temporary Law Provisions

Capital Expenses Fund (Section 343.40). Requires the Department to periodically prepare and submit to the Director of Budget and Management the estimated design, planning, and engineering costs

of capital-related work to be done by the Department for each project. Based on the estimates the Director of Budget and Management may release appropriations from CAP-753, Project Planning, within the Ohio Parks and Natural Resources Fund (Fund 031) to pay for the Department's costs. Upon release of the appropriations DNR shall pay for these expenses from the Capital Expenses Fund (Fund 4S9) and shall be reimbursed by the Ohio Parks and Natural Resources Fund (Fund 031).

Law Enforcement

Program Description: This program coordinates all aspects of the Department's law enforcement responsibilities including the security of the Fountain Square Complex. The program is also responsible for the agency's management and operation of the Multi-Agency Radio and Communications System (MARCS) and manages the agency's response to disasters and homeland security activities. In FY 2008 and FY 2009, 35 FTEs and 34 FTEs will be funded, respectively.

Over the biennium all state forfeiture laws will apply to a law enforcement division that substantially conducts an investigation. This would apply to all DNR divisions that engage in law enforcement. Furthermore, the proceeds from the forfeited property will go to the law enforcement agency that conducted the investigation. Previously, when property was ordered forfeited pursuant to the Corrupt Activity Forfeiture Law, 10% of the proceeds of all property ordered forfeited was credited to certified alcohol and drug addiction treatment programs and the other 90% is credited to the Corrupt Activity Investigation and Prosecution Fund (Fund 629). Over the biennium, DNR law enforcement divisions will now receive a portion of these funds that previously went to the GRF, resulting in a total gain of approximately \$17,000 each fiscal year.

Funding Source: Direct charge back systems for MARCS radio units, rental rates for Fountain Square offices, and federal grants

Line Items: See table below

Fund	ALI	Title	FY 2008	FY 2009
157	725-651	Central Support Indirect	\$89,226	\$92,172
223	725-665	Law Enforcement Administration	\$2,230,485	\$2,358,307
635	725-664	Fountain Square Facilities Maintenance	\$532,848	\$553,411
Law Enforcement Total			\$2,852,559	\$3,003,890

Implication of Executive Recommendation: The recommendations fully fund the Department's budget request. The funds will allow the Department to upgrade security at DNR Headquarters and provide 24-7 security operations. The funds will also support MARCS dispatchers.

REQUESTS NOT FUNDED

This section shows the requests not funded in the executive budget. The information in Table 1 is organized by program series and *only includes the aggregate line item totals of particular line items funding a program series that did not receive full funding*. This table does not represent total funding levels in select program series.

Table 1. Requests Not Funded

12: Program Management	\$24,175,064	\$22,708,103	(\$1,466,961)	\$24,175,064	\$21,434,903	(\$2,740,161)
TOTALS	\$103,486,392	\$99,252,689	(\$4,223,703)	\$103,551,412	\$98,034,509	(\$5,516,903)

Overall, the executive recommendations differ from the Department's request by \$4,223,703 in FY 2008 and by \$5,516,903 in FY 2009. With the exception of \$750,000 from the General Service Fund, the majority of the cuts were taken from the GRF. These GRF reductions are limited only to the Department's extended budget request.

Some of the notable differences occurred in the Parks and Recreation program series and the Program Management series. The loss of \$2,392,490 over the biennium for Parks and Recreation was to be used to restore money to the park maintenance budget that was used to fund pay raises in FY 2008 and FY 2009. Without the restoration of these funds, repairs and renovations especially on park restrooms and shower houses may have to be deferred. The loss of \$4,187,122 over the biennium in Program Management was primarily due to debt adjustments by OBM in appropriation item 725-413, OPFC Rental Payments. This line item is used for debt retirement of revenue bonds issued for various parks and recreation facilities. It is not uncommon for OBM to make adjustments to these payments after a Department's budget request is submitted. The losses in the other program series are for extended requests for additional project money, equipment purchases, and additional personnel needs.

Purpose: This line item is used to make rental payments to the Ohio Building Authority, which financed the purchase of the Fountain Square office complex, where ODNR is headquartered. Non-GRF funded divisions, except the Wildlife division, pay their share of the rent into the GRF, and then the GRF money is used to make one payment to the Ohio Building Authority. The Division of Wildlife makes its share of the payment in one lump sum from the Wildlife Fund.

Purpose: This line item receives grants from the U.S. Department of Labor, Mine Safety and Health Administration to improve mine health and safety conditions in Ohio. Grant funds are used for mine safety education programs, consisting of a miner training program, and for the general improvement of emergency medical training and equipment within the state's mining regions. The grant formula is based on the number of mining operations in the state. The fund was formerly contained in the Department of Industrial Relations budget, where it was line item 830-603, Mine Grant. It was transferred to ODNR in Am. Sub. S.B. 162 of the 121st G.A. Matching funds are used from GRF item 744-321, Division of Mineral Resources Management.

Purpose: This fund receives a payment in lieu of taxes from the US Army Corps of Engineers for federal land used in flood control projects. The fund also receives payments from Minerals Management Service of the Department of the Interior for minerals produced on flood control land. All monies in the fund are passed through to the counties in which the flood control projects are located. Leases of flood control lands currently represent approximately 11% of the fund, while mineral royalties represent approximately 89% of the fund. Funds are to be used for public benefit for things such as schools and public roads of the county or for defraying of the expenses of the county government including public obligations of levee and drainage districts for flood control and drainage improvements.

Legal Basis: Section 343.10 of H.B. 119 of the 127th G.A. (originally established by H.B. 694 of the 114th G.A.)

Purpose: This fund receives money under the Federal Surface Mine Control and Reclamation Act of 1977, Public Law 95-87, which requires state mine regulatory programs to be administered by a state regulatory authority. Since the effective date of the act, mine operators have been paying a federal severance tax on each ton of coal produced (35 cents per ton of strip mined coal and 15 cents per ton of underground mined coal). At least 50% of the revenue generated in Ohio is returned for reclamation of mines abandoned before 1977. The other 50% is distributed by the Division of Mineral Resources Management for high priority projects.

Source: SSR: Initially, \$2.0 million was transferred to this fund from item 725-639, Unreclaimed Land Fund. Moneys received from a 7-cent per ton severance tax levied on coal, plus 14-cent supplemental tax on coal

Legal Basis: ORC 1513.08; Section 343.10 of H.B. 119 of the 127th G.A.

Purpose: Moneys are used to reclaim mined land where the permit was issued after September 1, 1981. Disbursements are made by the chief of the Division of Mineral Resources Management to reclaim land affected by coal mining which an operator has failed to reclaim. Reclamation involves restoring the affected land to a condition where it can support land uses employed before mining occurred. Sub. H.B. 601 of the 123rd G.A. required the consolidation of the reclamation funds, including Fund 525, in FY 2001.

Source: 090: Timber sales

Legal Basis: ORC 1503.05(B); Section 343.10 of H.B. 119 of the 127th G.A.

Purpose: Am. Sub. H.B. 95 of the 125th G.A. changed the formula for the distribution of these moneys. Distribution of the net amount is as follows: 25% to Fund 509, State Forest Fund, within the Department of Natural Resources; 10% to the GRF; and 65% to local governmental entities in the county where the timber was harvested. Of this 65%, one-quarter goes to the county, one-quarter goes to the township, and one-half goes to school districts.
