## OVERVIEW

The State Board of Sanitarian Registration is part of the 4K9 Fund group. The 4K9 Fund (Occupational Licensing and Regulatory Fund) is a General Services Fund that is a repository for license fees and other assessments collected by the state's professional and occupational licensing boards. The 4K9 Fund was established by Am. Sub. H.B. 152 of the 120th General Assembly. Prior to the creation of the fund, appropriations for each licensing board were made from the GRF. This created some problems as some boards contributed more revenues than they expended and others had to be subsidized by the GRF since the revenues generated did not meet their expenditures. The 4K9 Fund eliminated these problems. The philosophy of the fund is that each board must generate enough revenues to cover their expenses. It is also quite common for the boards to develop a surplus in the fund to cover unforeseen economic hardships.

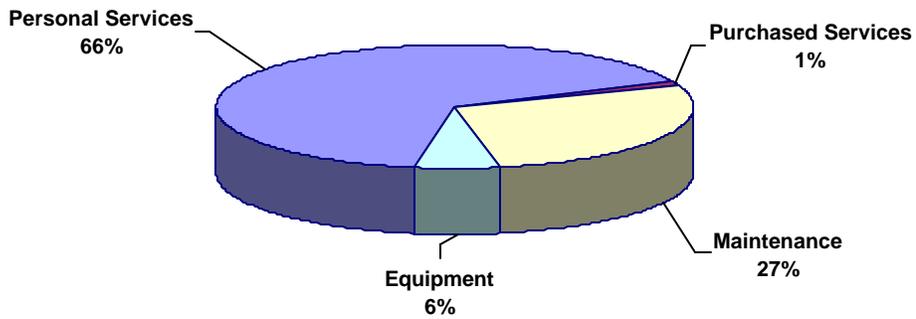

The State Board of Sanitarian Registration was created in 1977 to ensure sanitarians in the field of environmental health possess and maintain specialized knowledge and skills that pertain to the field of environmental health science. This is accomplished by minimum education standards, examination, continuing education requirements, and the investigation of complaints filed with the Board. Environmental health is an aspect of public health that deals with the following topics: air quality, food quality and protection, hazardous and toxic substances, consumer product safety, housing, institutional health and safety, community noise control, radiation protection, recreational facilities, solid and liquid waste management, vector control, drinking water quality, milk sanitation, and rabies control.

A large majority of the Board's licensees are government employees who must be licensed per government mandate. Most of these government employees work for city or county health departments. The Board currently licenses 1,298 sanitarians and 227 sanitarians-in-training, as well as licensing 104 approved training agencies. The Board renews its licenses annually. In FY 2006, the Board had expenditures and revenues of \$127,367 and \$134,314, respectively. The Board contributed \$6,947 more to Fund 4K9 than it expended for FY 2006.

## Governor's Recommendations

The Board requested funding of \$138,551 in FY 2008 and \$138,551 in FY 2009. The executive recommends full funding for the State Board of Sanitarian Registration.
