Analysis of the Executive Budget Proposal

Department of Natural Resources

Brian Hoffmeister, Senior Budget Analyst
Legislative Service Commission

February 2013

READER'S GUIDE

The Legislative Service Commission prepares an analysis of the executive budget proposal for each agency. These analyses are commonly called "Redbooks." This brief introduction is intended to help readers navigate the Redbook for the Department of Natural Resources (DNR), which includes the following three sections.

1. Overview: Provides a brief description of DNR and an overview of the provisions of the executive budget that affect the agency, including new initiatives and proposed policy changes.
2. Analysis of Executive Proposal: Provides a detailed analysis of the executive budget recommendations for DNR, including funding for each appropriation line item. The line items for DNR are organized into ten categories.
3. Attachments: Includes the catalog of budget line items (COBLI) for DNR, which briefly describes each line item, and the accompanying LSC budget spreadsheet.

OVERVIEW

Agency Overview

The Ohio Department of Natural Resources (DNR) is charged with overseeing the use, preservation, and conservation of the state's natural resources through a wide variety of recreational and regulatory programs. DNR's areas of responsibility include Ohio's wildlife, forests and other natural areas, state parks, inland lakes and waterways, geological and mineral resources, and the Lake Erie coastline. The Department also regulates the issuance of hunting and fishing licenses and watercraft registrations, and enforces provisions of state law related to natural resources and conservation. Overall, DNR is responsible for over 590,000 acres of land, including 75 state parks, 21 state forests, 134 state nature preserves, and 138 designated wildlife areas. In addition, the Department oversees over 120,000 acres of inland waters, 7,000 miles of streams, 481 miles of the Ohio River, and 2.25 million acres of Lake Erie.

The Department consists of ten operating divisions and offices that carry out these functions, as well as central administrative offices that oversee the day-to-day functions of the Department. DNR's programs are divided into the divisions of Forestry, Parks and Recreation, Soil and Water Resources, Natural Areas and Preserves, Watercraft, Wildlife, Geological Survey, Mineral Resources Management, Oil and Gas Resources Management, Engineering, and the Office of Coastal Management. DNR is one of the largest agencies in the state in terms of staff, with approximately 2,600 employees. DNR also relies heavily on intermittent, seasonal, and temporary workers, who are expected to make up about one-quarter of the Department's workforce in the FY 2014-FY 2015 biennium.

Appropriation Overview

DNR's appropriations under the executive recommendations are approximately \$329.6 million in FY 2014 and \$334.3 million in FY 2015, or \$663.9 million over the biennium. Proposed FY 2014 funding is 1.3% greater than estimated FY 2013 expenditures. The Department's total recommended FY 2015 appropriations are 3.3% above the proposed FY 2014 level.

Budget by Fund Group

Under the FY 2014-FY 2015 executive proposal, the largest portion of DNR's funding (approximately \$213.8 million or 32.2%) is derived from the GRF. However, a large portion of this consists of lease and debt service payments totaling approximately \$95.2 million over the biennium. These payments account for approximately 44.5% of DNR's GRF appropriations in the executive proposal. The Governor's proposal also includes two new GRF line items; one funds coal and mine safety programs (\$2.5 million annually) and the other supports oil and gas activities (\$7.2 million in FY 2014 and \$7.4 million in FY 2015). The former replaces the Mine Safety Fund (Fund 5CU0), which is currently funded by transfers from the Bureau of Workers' Compensation's Coal Workers Pneumoconiosis Fund. The latter is intended to be funded by oil and gas severance tax revenues deposited into the GRF under the Governor's tax reform proposal. Additionally, the proposed budget restores GRF funding to the Division of Geological Survey and the Office of Real Estate.

The second-largest source of appropriations for DNR comes from the State Special Revenue (SSR) Fund Group, accounting for \$153.1 million (23.1%) over the biennium. The Wildlife Fund Group (\$131.6 million, 19.8%), consisting of receipts from hunting and fishing licenses and other sources, is the next largest source of funding, followed by the Federal Special Revenue Fund Group (\$56.4 million, 8.5%), the Waterways Safety Fund Group (\$52.4 million, 7.9%), and the General Services Fund Group (\$51.0 million, 7.7%). The remaining approximately \$5.8 million (0.9%) is derived from the Holding Account Redistribution Fund Group, the Accrued Leave Liability Fund Group, and the Clean Ohio Conservation Fund Group. Table 1 below shows each fund group's total allocation under the executive proposal.

Budget by Expense Category

Payroll and fringe benefits comprise the largest portion of DNR's proposed biennial appropriations (approximately 47.4%), owing to the Department's extensive workforce. Supplies and maintenance for DNR's large inventory of physical assets make up an estimated 21.2% of the agency's proposed budget. Payments and transfers for debt service comprise 14.8%, while subsidies and shared revenue, such as subsidies to soil and water conservation districts and various grant programs, account for 11.0%. The remaining 5.6% consists of purchased personal services, equipment, goods and services for resale, capital items, and judgments, settlements, and bonds. Chart 1 provides a visual breakdown of the expected allocation of DNR's appropriations by expense category.

Chart 1: DNR Appropriations by Expense Category, FY 2014-FY 2015

Budget by Functional Category

Table 2 on the next page contains DNR's proposed appropriations by functional category for FY 2014 and FY 2015. DNR's appropriations can be placed into 12 major categories generally aligning with the agency's functional divisions. The Administration and Debt Service category includes the Department's centralized administration and bond repayment costs, while the Multi-Divisional Appropriations category reflects a handful of line item appropriations that support functions across more than one division and that do not easily fit into any other single category.

As seen in Table 2, funding for the Administration and Debt Service category accounts for the largest share of DNR appropriations, amounting to \$141.5 million over the FY 2014-FY 2015 biennium, or 21.3% of the agency's total proposed biennial budget of \$663.9 million. About two-thirds of this category, or about \$95.2 million over the biennium, is comprised of debt service costs, while the remainder is for centralized

departmental functions such as information technology and human resources. The next largest category is Parks and Recreation, which totals \$139.3 million over the biennium, or 21.0% of the total. This is followed by the Division of Wildlife (20.4%), the Division of Mineral Resources Management (8.5%), and the Division of Soil and Water Resources (8.1%). Other divisions consume between 0.5% of the agency's budget for the Division of Natural Areas and Preserves and 6.6% for the Division of Oil and Gas Resources Management. Appropriations for cross-functional line items in the Multi-Divisional Appropriations category total about \$5.8 million over the biennium, or 0.9% of DNR's total.

Category	FY 2014	FY 2015	Biennium Total	% of Total Budget
Parks and Recreation	\$69.6	\$69.7	\$139.3	21.0%

Budget Highlights

Oil and Gas Severance Tax Changes

The Governor's executive proposal for FY 2014 and FY 2015 proposes the replacement of the current severance tax on oil and gas with a new, tiered system. Currently, oil is taxed at a rate of 10 cents per barrel (bbl) and natural gas is taxed at a rate of 2.5 cents per thousand cubic feet (mcf). Under the executive proposal, the oil and natural gas severance tax would be based on (1) the type of resource produced and the type of well that produces it, (2) its energy density in British thermal units (Btu) per cubic foot, (3) the spot price of the resource, and (4) the amount of time the well has been in production. Additionally, the executive proposal changes the manner of distribution of severance tax revenues. Under current law, 90% of the oil and gas

severance tax is deposited in the Oil and Gas Well Fund (Fund 5180), while 10% is deposited into the Geological Mapping Fund (Fund 5110). The executive proposal would require all severance tax revenues from oil or gas produced from horizontal wells to be deposited in the GRF, while the revenues from nonhorizontal well production would be distributed as under current law. Table 3 below breaks down the proposed changes to the oil and gas severance tax as compared to the current severance tax structure.

Table 3. Comparison Between Current and Proposed Oil and Gas Severance Taxes					
Current			Proposed by H.B. 59		
Resource	Tax	Receiving Fund	Resource	Tax	Receiving Fund
Oil	\$0.10/bbl	90% Fund 5180, 10% Fund 5110	Oil from nonhorizontal wells	\$0.20/bbl	90% Fund 5180, 10% Fund 5110
			Oil and condensate from horizontal wells	1.5% of the spot market value for the first five quarters of production; 4% of the spot market value thereafter	GRF
Natural gas	\$0.025/mcf	90% Fund 5180, 10% Fund 5110	Natural gas from nonhorizontal wells	\$0.03/mcf or 1% of spot market value, whichever is less	90% Fund 5180, 10% Fund 5110
			Natural gas from nonhorizontal wells producing less than 10 mcf per day in a calendar quarter	None	N/A
			Natural gas from horizontal wells measuring 1,050 Btu per cubic foot or less	1% of spot market value	GRF
			Natural gas and natural gas liquids from horizontal wells measuring more than 1,050 Btu per cubic foot	1.5% of the spot market value for the first five quarters of production; variable rate thereafter according to Btu levels, with base rate of 1% for gas and 4% for natural gas liquids	GRF

H.B. 59 proposes the creation of a new GRF line item, 725508, Oil and Gas Program, which would use GRF funding of \$7.2 million in FY 2014 and \$7.35 million in FY 2015 to cover costs previously covered only from Fund 5180. DNR anticipates that additional GRF revenues resulting from the new severance tax structure imposed on horizontal wells would allow for that fund to bear these costs.

In FY 2012, the state collected \$467,111 in oil severance taxes, of which \$420,400 (90.0%) was deposited into Fund 5180 and \$46,711 (10.0%) was deposited into Fund 5110. Natural gas severance taxes totaled approximately \$2.0 million, of which the same proportions were deposited into those two funds under statute; about \$1.8 million went into Fund 5180 and just under \$205,000 went into Fund 5110. As new wells are drilled and begin producing, these revenues will likely increase. However, the magnitude of any increase will depend on the number of new wells approved, the type of the well (whether horizontal or vertical), and the amount of oil and gas produced by each. Under the proposed change in the severance tax structure, most new revenue would likely result from horizontal wells and would be deposited in the GRF, while revenues from vertical wells are likely to be at current levels or below as a result of most vertical wells in the state being older and producing less oil or gas than when they were first drilled.

Elimination of Regulatory Cost Recovery Assessment Fee

H.B. 59 proposes the elimination of the oil and gas regulatory cost recovery assessment fee which was enacted in S.B. 165 of the 128th General Assembly. This fee is charged at a rate of 10 cents per barrel of oil or 0.5 cents per mcf of natural gas. These fees are deposited into Fund 5180 for administrative costs incurred by the Division of Oil and Gas Resources Management in carrying out its regulatory functions. Income from this fee totaled about \$1.1 million in FY 2011 and \$1.6 million in FY 2012. Under the Governor's proposal, this fee would be supplanted by severance tax revenues deposited into the GRF.

Consolidation of Human Resources Functions

Under the executive proposal, DNR will consolidate its currently decentralized human resources (HR) functions into a single Office of Human Resources that will be used by all its programmatic divisions. DNR is proposing to centralize these functions in order to reduce duplication of services and implement standard HR practices across all DNR functions with the stated goal of increasing the efficiency of these activities. To this end, the executive recommendations include the creation of a new fund, the Human Resource Chargeback Fund (Fund 2050), that will collect charges paid by all DNR divisions and offices that use the services of the new Office of Human Resources in order to fund the Office's operations. H.B. 59 appropriates about \$2.5 million in each fiscal year to facilitate this new centralized HR model through line item 725696, Human Resource Direct Service.

Consolidation of Forestry, Natural Areas, and Parks Law Enforcement

Beginning in FY 2013, DNR is consolidating the law enforcement functions of the Division of Forestry and the Division of Natural Areas and Preserves into the Division of Parks and Recreation. Under this arrangement, park officers will assume

responsibility for patrolling state forests and nature preserves in addition to state parks, and will be responsible for protecting users of and enforcing laws related to the use of those lands. The FY 2014-FY 2015 executive proposal takes this change into account and proposes the elimination of funds that are currently used by the divisions of Forestry and Natural Areas and Preserves to collect penalties and forfeited property, and instead directs any income from those sources resulting from law enforcement actions on state forest or nature preserve lands into the Parks Law Enforcement Fund (Fund 5EM0).

Elimination of Transfers from BWC for Mining Regulation and Mine Safety

Under current law, the Bureau of Workers' Compensation (BWC) may transfer up to \$3.0 million annually to the Mine Safety Fund (Fund 5CU0) and up to \$1.5 million annually to the Coal Mining Administration and Reclamation Reserve Fund (Fund 5260) from the Coal Workers' Pneumoconiosis Fund. The bill eliminates the statutory authority for these transfers and instead appropriates \$2.5 million annually in a new GRF line item, 725507, Coal and Mine Safety Program, for the purposes formerly funded by BWC funds.

Administration of Capital Projects by the Facilities Construction Commission

The executive proposal shifts the responsibility for certain capital improvement projects currently administered by DNR to the Ohio Facilities Construction Commission (OFCC). DNR would retain authority to manage capital projects related to dams, waterways, wildlife facilities, and roadways on DNR lands, though OFCC and DNR are required to review this provision in two years. OFCC will retain authority to administer all of DNR's other capital projects, which presumably largely consists of those related to buildings and facilities in state parks. Under this arrangement, OFCC may permit DNR to administer any project for which the estimated cost is \$1.5 million or less. Presumably, the Division of Engineering will continue to oversee those projects for which DNR retains the authority to manage under this proposed change.

Natural Resources Special Purposes Fund

The bill creates the Natural Resources Special Purposes Fund (Fund 5MW0), which is to be used to fund costs related to litigation, in particular those relative to flowage easements near Grand Lake St. Marys, that are not otherwise eligible for payment from capital appropriations. These may include various court costs and legal fees, as well as costs related to title searches, land surveys, and appraisals.

Elimination of Dormant Funds

H.B. 59 proposes the elimination of a number of funds that are no longer used by DNR because they are duplicative or no longer needed, or, in the case of the Forestry and Natural Areas and Preserves Law Enforcement funds and the Watercraft Revolving Loan Fund, are being consolidated into other funds under the executive proposal.

Table 4 below lists the funds being eliminated and the disposition of each, whether consolidated or abolished outright.

ANALYSIS OF EXECUTIVE PROPOSAL

Introduction

This section provides an analysis of the Governor's recommended funding for each appropriation item in DNR's budget. We have grouped DNR's line items into 12 major categories which generally correspond to the agency's divisions and administrative functions. Some line items that fund activities across several divisions are included in the Multi-Divisional Appropriations category. Each category includes a table that lists the recommended appropriations for each fiscal year. Following the table, a narrative describes how the appropriation is used and any changes affecting the appropriation that are proposed by the Governor. The categories used in this analysis are as follows:

1. Parks and Recreation;
2. Wildlife;
3. Forestry;
4. Natural Areas and Preserves;
5. Mineral Resources Management;
6. Oil and Gas Resources;
7. Soil and Water Resources;
8. Watercraft;
9. Coastal Management;
10. Geological Survey;
11. Administration and Debt Service; and
12. Multi-Divisional Appropriations.

To aid the reader in finding each item in the analysis, the following table shows the category in which each appropriation has been placed, listing the line items in order within their respective fund groups and funds. This is the same order the line items appear in the budget bill.

Category 1: Parks and Recreation

This category includes line items that directly fund the operations of the Division of Parks and Recreation, which oversees Ohio's 75 state parks and the various outdoor recreational opportunities provided to their visitors, including 56 campgrounds with nearly 9,200 sites, over 500 cabins and cottages, 9 resort lodges, 38 nature centers, 78 beaches, 20 swimming pools, 6 golf courses, 456 picnic areas, over 1,300 miles of trails, several thousand public and private boat docks, and all the associated infrastructure. In calendar year (CY) 2010, there were over 54.3 million visits to Ohio's state parks. The Division also oversees the state's system of recreational trails and remaining canal lands, and provides administrative services on behalf of the Division of Natural Areas and Preserves. This analysis divides this category into four subcategories: State Parks, Recreational Trails, Local Parks and Recreation, and Canal Lands.

State Parks

Division of Parks and Recreation (730321)

The executive recommendation of \$30.0 million in each fiscal year for this GRF line item represents flat funding compared to FY 2013 estimated expenditures. All of these funds in the upcoming biennium will be used for payroll expenses for the Division of Parks and Recreation. In recent years, DNR has been implementing a regional management model under which multiple parks in a geographic area share management and administrative functions. In addition, staff reductions resulting from retirements and attrition have contributed to lower payroll costs for the Division. According to DNR, these efforts are contributing to improved efficiency and the streamlining of the Division's operating costs.

State Parks Operations (725605)

This line item receives appropriations of \$29.7 million in each fiscal year under the executive proposal, about 6.0% below estimated FY 2013 spending. These funds are used to cover most of the Division's maintenance and equipment expenses, as well as payroll that is not covered through GRF line item 730321, Division of Parks and Recreation. This line item is supported by the State Park Fund (Fund 5120), which receives income from various revenue-generating functions of the Division of Parks and Recreation. In FY 2012, the fund collected \$27.6 million in revenues from park user fees, sales, and other sources. The largest revenue source was camping fees (39.5%), followed by self-operated retail (14.0%), cottage rentals (13.5%), dock permits (11.4%), and concession agreements (4.6%). Other sources include golf greens fees, land leases and other fees and charges. Fund 5120 also collects 75% of the proceeds of timber sales from Division of Parks and Recreation lands.

Park Law Enforcement (725613)

This line item receives appropriations of \$34,000 in each fiscal year under the executive proposal to support a portion of the law enforcement activities undertaken by Division of Parks and Recreation officers. Beginning in FY 2013, state park law enforcement personnel have also assumed responsibility for Division of Forestry and Division of Natural Areas and Preserves lands. According to DNR, this change will allow for more efficient operation of law enforcement activities on these properties. In CY 2010, Division law enforcement officers recorded nearly 26,000 visitor assists, issued nearly 30,000 warnings, made about 1,300 misdemeanor and 138 felony arrests, and initiated about 2,300 investigations. The line item is supported by the Park Law Enforcement Fund (Fund 5EM0), which receives revenues from fines and penalties collected as a result of law enforcement actions on state park lands. Under the executive proposal, the fund will also begin collecting these revenues from actions taken in state forests and nature preserves.

Waterways Improvement (725414)

This line item receives appropriations of approximately \$5.7 million in each fiscal year under the executive proposal, the same amount estimated to be spent in FY 2013. Funds in this line item support the Division of Parks and Recreation's dredging operations to remove silt and other debris from public lakes and waterways within state park boundaries. This line item is supported by the Waterways Safety Fund (Fund 7086), which consists of a small portion of state motor fuel tax revenues, as well as income from the registration of watercraft.

Recreational Trails**Federal Recreation and Trails (725657)**

The executive proposal recommends appropriations of \$1.85 million in each fiscal year for this line item, which supports the federally funded Recreational Trails Program. For this program, DNR receives grants from the Federal Highway Administration (FHWA) to support the development of local and statewide trail networks for a variety of uses, including hiking, biking, in-line skating, snowmobiling, motorcycle and all-terrain vehicle (ATV) use, equestrian activities, and other purposes. These funds are derived from federal motor fuel taxes collected from nonhighway recreational uses, such as from off-road motorcycles, snowmobiles, and trucks.

Off-Road Vehicle Trails (725627)

This line item is funded at \$143,490 in each fiscal year under the executive proposal, which is flat funding from estimated FY 2013 levels. These funds are used to administer and enforce the registration and operation of off-road motorcycles, ATVs, snowmobiles, and other off-road vehicles and to provide trails and other designated areas for their use. The State Recreational Vehicle Fund (Fund 5210) is capitalized through fees and fines collected from the registration and enforcement of off-road vehicles. Currently, the registration fees for ATVs are \$31.25 for a three-year Ohio resident registration or \$11.25 for a one-year nonresident operating permit.

Clean Ohio Operating (725405)

This line item supports the operating costs incurred by DNR in the administration of the Clean Ohio Trails Program, which is responsible for developing recreational trails using the proceeds of bonds issued by the Ohio Public Facilities Commission. The executive recommendation for this line item continues current funding levels of \$300,775 in each fiscal year.

H.B. 482 of the 129th General Assembly, the capital appropriations act for FY 2013 and FY 2014, appropriated \$6.0 million over the capital biennium in line item C72514, Clean Ohio Local Grants. This amount represents just under half of the

\$12.5 million in capital funds allowable for the biennium pursuant to the reauthorization of the Clean Ohio Program by voters in 2008.

Local Parks and Recreation

Federal Land and Water Conservation Grants (725653)

This line item receives \$950,000 in each fiscal year under the executive proposal, 17.4% below FY 2013 appropriations of \$1.15 million. These funds are provided through federal grants to DNR from the National Park Service's Land and Water Conservation Fund and provide up to a 50% reimbursement for local communities to engage in projects involving the acquisition or development of land for public outdoor recreation. Cities, counties, townships, villages, park districts, joint recreation districts, and conservancy districts are all eligible for grants under this program. Twelve local park systems received grants of between \$12,000 and \$70,000 in FY 2012, for a total awarded amount of \$597,519. Beginning in the FY 2014-FY 2015 biennium, these awards will be made on a biennial basis.

Canal Lands

Canal Lands (725456 and 725671)

These two line items provide support for the state's Canal Lands Program, which provides oversight and maintenance for the lands that are part of the historic Miami and Erie Canal system and Ohio and Erie Canal system. A portion of these costs are paid from the GRF, while the remainder is supported by the Canal Lands Fund (Fund 4300), which includes income from leases of canal lands and the sale of water from the canal systems. The Division of Parks and Recreation oversees the maintenance of the watered portion of the lands, while the Office of Real Estate manages the sale of land and water from these properties.

The executive budget proposes a total of approximately \$1.8 million over the biennium for the Canal Lands Program, including appropriations of \$135,000 in each fiscal year for GRF line item 725456, and appropriations of \$883,879 in each fiscal year for line item 725671, which is accounted for in Fund 4300. Of these amounts, approximately \$177,000 in each fiscal year from line item 725671 would be used by the Office of Real Estate within the Division of Engineering for real estate costs associated with the Canal Lands Program.

Category 2: Wildlife

This category contains line items that fund the operations of the Division of Wildlife, which manages and maintains over 376,000 acres of land, including 191,000 acres owned by DNR, for wildlife habitat. The Division provides public access at 140 wildlife areas and other lands under agreements. The Division of Wildlife issues hunting and fishing permits, manages wildlife and fish populations, and oversees special habitat environments including wetlands. The Division operates fish and wildlife research stations, fish hatcheries, and public hunting and fishing areas allocated among five regions statewide. Finally, the Division manages the Ohio Biodiversity Database (formerly known as the Ohio Natural Heritage Database).

Total Funding: Wildlife			\$67,269,482	\$67,878,894

Wildlife – GRF Central Support (725401)

This line item is used by the Division of Wildlife to reimburse DNR's central offices for administrative expenses that are attributable to the Division. Recommended funding of \$1.8 million in each fiscal year represents flat funding compared to estimated FY 2013 expenditures.

Wildlife Law Enforcement (725612)

The executive recommendation is \$12,000 in each fiscal year for this line item, which supports law enforcement activities on state wildlife lands. Revenues are provided through fines and penalties imposed by Wildlife Officers for offenses occurring in wildlife areas and are deposited to the credit of the Wildlife Law Enforcement Fund (Fund 5EL0).

Wildlife Boater Angler Administration (725634)

This line item provides a portion of the 25% state match required for DNR to receive the Dingell-Johnson Sport Fish Restoration Grant from the U.S. Fish and Wildlife Service (USFWS), as well as covering some administrative costs of the program. Funding for this line item is derived from 0.125% of the state motor fuel tax that is deposited into the Wildlife Boater Angler Fund (Fund 5P20). Federal Sport Fish Restoration funds drawn down using the match from this line item are deposited into the Wildlife Fund (Fund 7015) and are used for the management and restoration of fish populations used for sport and recreational fishing, as well as aquatic education, boat safety, and related purposes. The executive proposal recommends appropriations of \$3.0 million in each fiscal year for this line item, a decrease of 25.0% from FY 2013 appropriations of \$4.0 million. At this level, the state may not be able to draw down its full allocation of Sport Fish Restoration funding from the USFWS.

Division of Wildlife Conservation (740401)

This line item is funded at \$56.5 million in FY 2014 and \$57.1 million in FY 2015 under the executive recommendation. Proposed FY 2014 funding is 8.5% greater than estimated FY 2013 spending, while FY 2015 appropriations are 1.1% above the FY 2014 level. Constituting over 80% of all funding for the Division of Wildlife, this line item is the primary source of operating support for the Division's programs and contains most of the Division's payroll, maintenance, and other operating costs. This line item is funded primarily through revenues from the sale of hunting and fishing licenses that are deposited into the Wildlife Fund (Fund 7015), but also receives federal funding from USFWS under the Pittman-Robertson Wildlife Restoration Act and the Dingell-Johnson Sport Fish Restoration Act, receipts from the sale of wildlife license plates, and other wildlife-related fees and fines.

Cooperative Management Projects (725636)

The executive proposal recommends flat funding for this line item at \$120,449 in each fiscal year. Funds in this line item are used to maintain and manage wildlife areas in which the land is owned by the U.S. Army Corps of Engineers and leased by DNR to farmers under agreement with the Corps. This line item is funded by the Cooperative Management Fund (Fund 8150), which consists of revenues generated by lease payments from the farmers who participate in the program.

Wetlands Habitat (725649)

This line item receives \$966,885 in each fiscal year under the executive proposal, flat funding the line item at the FY 2013 level. The appropriation is supported by the Wetlands Habitat Fund (Fund 8160), which contains revenue generated from the purchase of wetlands habitat stamps on hunting licenses for hunters of wild ducks, geese, or other waterfowl. Up to 60% of this line item is used by the Division of Wildlife on various projects in waterfowl areas, with the remaining 40% awarded to nonprofit groups that provide habitats in Canada for waterfowl that migrate to Ohio.

Wildlife Conservation Checkoff Fund (725655)

This line item is used to purchase, manage, preserve, propagate, protect, and stock nongame and endangered wild animals and to acquire land, conduct biological studies, and provide public wildlife education. These funds are also used to provide the 35% match required to receive federal funding from USFWS under the Pittman-Robertson Wildlife Restoration Act. Funds are derived from taxpayers who check off the option on their income tax returns to donate a portion of their refund for wildlife conservation. The executive recommended appropriations of \$2.0 million in each fiscal year are 38.3% below estimated FY 2013 expenditures of \$3.2 million.

Cooperative Fisheries Research (725629)

The executive recommendation reflects flat funding of \$1.5 million in each fiscal year for this line item. These funds support fish and wildlife research activities conducted by the Ohio Cooperative Fisheries Research Unit through grants from the federal government. The Cooperative Fisheries Research Unit is a collaborative entity supported by the Division of Wildlife, The Ohio State University, the U.S. Fish and Wildlife Service, and other subgrantees.

Ohio River Management (725685)

Funds in this line item are dedicated to activities that preserve, develop, and manage wildlife in the Ohio River. The executive proposal recommends appropriations for this line item of \$203,584 in each fiscal year, a decrease of 35.1% compared to estimated spending of \$313,817 in FY 2013.

Wildlife Habitat Fund (725688)

This line item is used for the acquisition and development of lands for the preservation, propagation, and protection of wild animals. Its appropriations of \$1.2 million in each fiscal year under the executive proposal are supported by the Wildlife Habitat Fund (Fund 81B0), which receives transfers of investment earnings from the Wildlife Habitat Trust Fund. The Trust Fund is a custodial fund held by the Treasurer of State and is not part of the state treasury, and receives income from gifts, bequests, and donations to the Division of Wildlife.

Category 3: Forestry

Line items in this category support the Division of Forestry, which protects and manages Ohio's forest resources through programs and partnerships to provide services to owners of woodland property and agricultural land, state and local government agencies, the commercial logging industry, and others. In addition, the Division oversees the management of Ohio's 21 state forests, which cover approximately 200,000 acres in 21 counties.

Total Funding: Forestry			\$13,466,332	\$13,473,159

Division of Forestry (727321)

This line item serves as the GRF source of administrative support for the Division of Forestry, including payroll and other administrative costs associated with running the Division's forest management programs and providing support functions. The executive recommendation of approximately \$4.4 million in each fiscal year is a decrease of 10.0% from estimated FY 2013 expenditures of \$4.9 million. Most of the funding in this line item, about \$4.2 million annually, will be used for payroll.

Wildfire Suppression (725686)

This line item receives flat funding of \$100,000 in each fiscal year under the executive recommendations. The line item consists of funds derived from timber sales and deposited into the Wildfire Suppression Fund (Fund 4M70). These funds are used to reimburse local firefighting agencies and private companies for wildfire suppression services provided to the Division of Forestry.

State Forest (725602)

The executive recommendations include appropriations of approximately \$6.9 million in each year of the FY 2014-FY 2015 biennium. The FY 2014 level is a 2.6% decrease from FY 2013 estimated expenditures of \$7.1 million, while the FY 2015 appropriation is 0.1% greater than FY 2014. Overall, this line item contributes just over half of the total biennial funding within the Forestry category. Funds in this line item support the operation, maintenance, development, and utilization of Ohio's 21 state forests and provide services to private forest owners. Most of the costs borne by this line item are payroll, supplies, and maintenance expenses. Funding is provided through the State Forest Fund (Fund 5090), which consists of revenues from land sales, easements, leases, or rents, federal grants, and various other sale proceeds and royalties, including transfers of 35% of timber sales revenue from the Timber Sales Redistribution Fund (see line item 725624, Forestry). This fund also collects 25% of the proceeds from the sale of timber on state park lands.

Forestry Law Enforcement (725608)

The executive proposal recommends the elimination of the Division of Forestry Law Enforcement Fund (Fund 5EJ0) and proposes to transfer any remaining balance in the fund to the Parks Law Enforcement Fund (Fund 5EM0). In addition, any future forfeited property or penalties collected due to violations committed on state forest lands would be deposited into the Parks Law Enforcement Fund. This is being proposed as a result of the consolidation of the Division of Forestry's law enforcement staff with that of the Division of Parks and Recreation. However, the executive proposal appropriates a placeholder amount of \$1,000 in each fiscal year for this line item.

Forestry (725624)

The executive proposal includes appropriations of \$2.1 million in each fiscal year for this line item, which serves as a pass-through conduit for proceeds collected by DNR from timber sales. These revenues are deposited into the Timber Sales Redistribution Fund (Fund R043) and held until they are required to be distributed to various other funds as provided for in state law. Of the total amount that is deposited into Fund R043, 65% must be distributed to local government entities in the county in which the timber that generated the sales revenue was harvested. The remaining 35% is required to be deposited in the State Forest Fund (Fund 5090), which provides revenue for the State Forest Program (see line item 725602, State Forest). Of the 65% passed to the locals, one-quarter goes to the county, one-quarter goes to the township, and one-half goes to school districts.

Category 4: Natural Areas and Preserves

This category funds the Division of Natural Areas and Preserves (DNAP), which oversees the state's system of designated natural areas and nature preserves. The state's nature preserve system protects, manages, and acquires areas deemed to be of natural significance and which provide habitats for rare and endangered species. There are a total of 134 designated state nature preserves in Ohio, some of which are managed by third parties. Of all 134 designated natural areas and preserves in Ohio, 90 are open to the public and 44 require a special access permit.

Division of Natural Areas and Preserves (741321)

This line item, funded at \$1.2 million annually under the executive proposal, provides GRF operating support to the Division, including payroll for its employees. Of the total amount appropriated, \$1,010,000 in each year will cover payroll costs, while \$190,000 annually will be used for supplies and maintenance. Payroll costs only support employees whose work directly relates to administering the state's nature preserve system. DNAP's administrative functions are handled by the Division of Parks and Recreation, and the two divisions also share law enforcement, maintenance, and naturalist staff.

Natural Areas and Preserves (725656)

The executive proposal recommends funding of just under \$1.1 million over the biennium (\$546,639 in each fiscal year) for this line item, which is used for various functions within the Division of Natural Areas and Preserves. Activities supported by this line item include land acquisition and conservation easements, new project development, habitat restoration, and ecological management. The line item is supported by the Natural Areas and Preserves Fund (Fund 5220), which receives revenue from the Natural Areas and Preserves income tax checkoff, under which Ohio

taxpayers may donate a portion of their income tax refund to DNR for deposit in the fund.

Natural Areas and Preserves Law Enforcement (725611)

The executive proposal recommends the elimination of the Natural Areas and Preserves Law Enforcement Fund (Fund 5EK0) and proposes to transfer any remaining balance in the fund to the Parks Law Enforcement Fund (Fund 5EM0). In addition, any future forfeited property or penalties collected due to violations in the state's nature preserves would be deposited into the Parks Law Enforcement Fund. This is being proposed as a result of the consolidation of DNAP's law enforcement staff with that of the Division of Parks and Recreation. However, this line item receives placeholder appropriations of \$1,000 in each fiscal year under the executive proposal.

Ohio Nature Preserves (725625)

This line item is used to help fund nature preserve education, nature preserve clean-up projects, and nature preserve maintenance, protection, and restoration. The executive recommendation of \$1,000 in each fiscal year is supported by income from the purchase of Ohio Nature Preserves license plates, which is deposited into the Ohio Nature Preserves Fund (Fund 5HK0).

Category 5: Mineral Resources Management

Funds in this category support the Division of Mineral Resources Management, which regulates the mining of coal and industrial minerals and the reclamation of exhausted mine lands in Ohio. The Division formerly oversaw activities related to the regulation of oil and gas extraction, but these duties are now part of the Division of Oil and Gas Resources Management (see Category 6: Oil and Gas Resources).

Coal and Mine Safety Program (725507)

This new GRF line item is proposed by the executive budget with appropriations of \$2.5 million in each fiscal year. These funds will be used for operating costs associated with DNR's coal mine regulatory activities and the Mine Safety Program. The latter was formerly funded by annual transfers of \$3.0 million from the Bureau of Workers' Compensation's Coal Workers Pneumoconiosis Fund to the Mine Safety Fund (Fund 5CU0). The executive proposal ends these transfers and instead uses GRF moneys to support these activities. The entirety of this line item will be used for payroll costs related to mine regulatory and safety activities, including field inspectors and administrative staff. The proposed funding of \$2.5 million annually is \$500,000 below estimated FY 2013 expenditures from the Mine Safety Fund, which this line item replaces, due to decreased payroll costs resulting from retirements, staff consolidation, and cross-training of mine safety personnel.

Federal Mine Safety Grant (725669)

The executive proposal for this line item is \$265,000 in each fiscal year, a slight increase from the approximately \$258,000 estimated to be spent in FY 2013. This line item funds mine safety education programs through federal funds received from the U.S. Department of Labor's Mine Safety and Health Administration. These activities are in addition to those portions of DNR's Mine Safety Program that will be supported by the new GRF line item, 725507, Coal and Mine Safety Program, described above.

Federal Abandoned Mine Lands (725645)

This line item supports the Abandoned Mine Land (AML) Program and receives appropriations of \$11.9 million in each fiscal year under the executive recommendations. This level is 44.1% below FY 2013 appropriations of \$21.2 million, but is more accurately reflective of recent actual spending from these federal funds, which totaled \$7.8 million in FY 2012. AML funds consist of a portion of revenues from the federal severance tax on coal that are collected from Ohio mining operations and returned to the state for reclamation purposes through the Office of Surface Mining Reclamation and Enforcement (OSM) in the U.S. Department of the Interior.

The AML Program designs and oversees reclamation activities on abandoned coal mine lands, including maintaining an inventory of abandoned mine sites for the purpose of ensuring public health and safety. Reclamation activities include engineering projects, environmental restoration, wildlife enhancement, reforestation, and archaeological surveys. AML Program projects utilize a combination of Division staff and contracted services. Most of this line item is used to cover supplies and maintenance costs associated with the AML Program, while a smaller portion covers the program's eligible state payroll and other administrative costs, such as equipment and contracts.

Reclamation – Regulatory (725654)

The executive recommendation for this line item is \$3.2 million in each fiscal year, the same amount appropriated for FY 2013. Funds are provided through grants from OSM and are matched by payments from the Coal Mining Administration and Reclamation Reserve Fund (Fund 5260) through line item 725610, Strip Mining Administration Fee. The federal funds spent from line item 725654 are used to administer a portion of the Division's Coal Regulatory Program and supplement funds from the state coal severance tax to provide oversight and enforcement of Ohio's coal mining industry.

Acid Mine Drainage Abatement/Treatment (725673)

The executive recommendation of approximately \$4.3 million in each fiscal year is about 31.5% below FY 2013 appropriations of \$6.3 million. This line item funds the Acid Mine Drainage Abatement and Treatment portion of the AML Program using

federal AML Program funds awarded through OSM and deposited into the Acid Mine Drainage Abatement and Treatment Fund (Fund 3R50). Specifically, these funds are used to mitigate and treat acidic drainage that enters the water supply from coal mines in watersheds that have been approved as designated hydrologic units. Under this program, the Division of Mineral Resources Management performs subsurface drilling, develops watershed monitoring plans, analyzes water samples, and provides assistance for water monitoring, hydrology, and engineering assistance. The Division also approves watershed restoration plans and provides matching funds from this line item for the construction of abatement projects in hydrologic units.

Strip Mining Administration Fee (725610)

The executive recommendation for this line item is \$1.8 million in each fiscal year, 10.0% less than estimated FY 2013 expenditures of \$2.0 million. This line item is used for coal mining and reclamation regulation and enforcement and is supported by the Coal Mining Administration and Reclamation Reserve Fund (Fund 5260). This fund is capitalized through 80.95% of the total revenues from the state severance tax on coal, and may also receive income from fines for violations of coal mining regulations and other administrative fees. In FY 2012, Fund 5260 received approximately \$1.9 million in revenue, of which about \$1.8 million came from the coal severance tax. The remainder was derived from other miscellaneous fees and charges.

Surface Mining Administration (725637)

The executive recommendation of approximately \$1.9 million in each fiscal year for this line item represents flat funding from FY 2013. This line item supports the administration and enforcement of Ohio's surface mining reclamation program through the Surface Mining Fund (Fund 5270). This fund is primarily supported by a combination of 50% of the revenues generated by the severance taxes on limestone, dolomite, sand, and gravel, and 100% of the severance tax on clay, sandstone, conglomerate, shale, gypsum, and quartzite. This line item is also funded through the collection of fees for the certification of mine safety personnel and mine medical responders.

Unreclaimed Land Fund (725639)

The executive proposal recommends funding of just over \$1.8 million in each fiscal year, 10.0% below estimated FY 2013 spending. Funds in this line item are used for the state's costs of reclaiming land used for the surface mining of coal and other minerals, such as limestone, salt, sand, and gravel. These funds are generally used when no other funds (e.g., federal funds or private contributions from mining companies) are available for reclamation projects. Revenues are provided to the Unreclaimed Land Fund (Fund 5290) by 14.29% of the base severance tax on coal, 100% of the revenues

from the 2.5 cent per ton supplemental severance tax on the surface mining of coal, and 42.5% of the severance taxes on limestone, dolomite, sand, and gravel.

Reclamation Forfeiture (725648)

This line item receives appropriations of \$500,000 in each fiscal year under the executive proposal, the same amount as FY 2013. Funds in this line item are used by DNR to engage in reclamation activities on lands mined by coal mine operators who do not reclaim it themselves. The Reclamation Forfeiture Fund (Fund 5310) consists of 100% of the revenues from a supplemental severance tax on coal that is paid by mining operations that choose to pay it in lieu of providing a full-cost performance bond. Fully bonded operators are held responsible for all reclamation activities on the land that they mine. Operators that choose to pay the supplemental severance tax are considered to be partially bonded and DNR uses Fund 5310 for the reclamation costs associated with these operators. This supplemental tax can be 12 cents, 14 cents, or 16 cents per ton of coal depending on the cash balance in the fund.

Mining Regulation (725674)

This line item is used for the costs of supplies related to the administration of safety testing for coal miners and is funded by application fees deposited in the Mining Regulation Fund (Fund 5B30). The executive recommendation for this line item is \$28,135 in each fiscal year.

Category 6: Oil and Gas Resources

This category funds the Division of Oil and Gas Resources Management, which is responsible for the regulation and oversight of the exploration for and production of oil and natural gas in Ohio. These activities were formerly housed within the Division of Mineral Resources Management, but H.B. 153 of the 129th General Assembly, the main operating budget act for FY 2012 and FY 2013, created a separate division due to an anticipated need for more dedicated oversight of oil and gas activities resulting from increased interest in shale drilling in Ohio. The Division has been charged with implementing new requirements related to horizontal wells and hydraulic fracturing enacted in S.B. 165 of the 128th General Assembly and S.B. 315 of the 129th General Assembly, and exploration for oil and gas on state-owned lands authorized in H.B. 133 of the 129th General Assembly.

State Special Revenue Fund Group Subtotal			\$14,312,311	\$14,640,201
Total Funding: Oil and Gas Resources			\$21,746,820	\$22,224,710

Oil and Gas Program (725508 and 725643)

These line items are used for the Division of Oil and Gas Resource Management's core regulatory and oversight functions related to oil and gas production in Ohio, including reviewing and issuing permits for drilling wells, field inspections of wells, and for the administrative costs of the program. Other activities these line items support are waste management functions, including the oversight of haulers of brine and drilling waste, and handling complaint investigations and enforcing violations of the state's Oil and Gas Law. The Division of Oil and Gas Resources Management is expecting significantly increased activity in the upcoming biennium as a result of high interest in exploration and production within the Utica shale formation, as well as from new requirements related to horizontal wells, hydraulic fracturing, and drilling on state lands enacted in recent legislation.

The executive recommendation for these line items totals a combined \$40.5 million over the FY 2014-FY 2015 biennium, or about 92% of the Division's total recommended funding. Of this amount, \$14.6 million (35.9%) is funded by the GRF through line item 725508, Oil and Gas Program, which is newly created under the executive proposal. These GRF funds, amounting to \$7.2 million in FY 2014 and \$7.35 million in FY 2015, are intended to supplement moneys in the Oil and Gas Well Fund (Fund 5180) using oil and gas severance tax revenues that would be deposited into the GRF under the Governor's tax proposal. Fund 5180 would provide \$25.9 million (63.9%) of the biennial funding for the Division's oil and gas regulatory oversight functions using some severance tax revenues as well as permit fees, other regulatory fees, and other revenues into the fund that are spent from line item 725643, Oil and Gas Permit Fees. Recommended appropriations to line item 725643 are \$12.8 million in FY 2014 (30.4% above FY 2013 levels) and \$13.1 million in FY 2015 (2.6% above FY 2014 levels), though it is unclear if revenues to Fund 5180 under the proposed severance tax and fee changes would supply sufficient revenues to support those levels. This is due primarily to lower severance tax revenues expected from vertical wells and the proposed elimination of the cost recovery assessment fee for oil and gas, which totaled about \$1.6 million in FY 2012.

Oil and Gas – Federal (725642)

The executive recommendation flat funds this line item at \$234,509 in each fiscal year. These are federal grant funds from the U.S. Environmental Protection Agency's Underground Injection Control Program, which DNR uses for a portion of the personnel, maintenance, and equipment costs related to its oil and gas well plugging and drilling regulation programs.

Oil and Gas Well Plugging (725677)

The executive recommendation funds this line item at \$1.5 million in each fiscal year for the Division's Idle and Orphan Well Program, an increase of 87.5% over FY 2013 appropriations of \$800,000. This line item, like 725643, is supported by the Oil and Gas Well Fund (Fund 5180). Funds appropriated to this line item are used to oversee the plugging of oil and gas wells for which there is no documented owner or other responsible party. Orphan wells are considered for plugging under the program only when they are discovered and reported to the Division of Oil and Gas Resources Management. Once this occurs, the Division engages with outside contractors to perform the actual plugging work.

Category 7: Soil and Water Resources

Line items in this category support research, regulation, and planning activities through programs administered by the Division of Soil and Water Resources. Activities include water supply monitoring and management, floodplain management, dam safety, and support for Ohio's 88 soil and water conservation districts (SWCDs). This category formerly included funding for litter control and recycling programs, which were transferred to the Ohio Environmental Protection Agency under H.B. 487 of the 129th General Assembly. Line items in this category are divided among four subcategories: Soil and Water Conservation Districts, Water Resources, Dam Safety, and Soil and Water Resources Administration.

Governor's Recommended Amounts for Soil and Water Resources				
Fund	ALI and Name		FY 2014	FY 2015
General Revenue Fund				
GRF	725502	Soil and Water Districts	\$2,900,000	\$2,900,000
GRF	725505	Healthy Lake Erie Fund	\$350,000	\$200,000

Total Funding: Soil and Water Resources			\$26,754,703	\$26,642,335

Soil and Water Conservation Districts

Soil and Water Districts (725502 and 725683)

These line items appropriate a combined total of \$11.15 million in each fiscal year under the executive proposal, funded by \$2.9 million annually from the GRF (line item 725502) and \$8.25 million annually from fees on the disposal of construction and demolition debris and municipal solid waste, as well as fees on the sale of new tires (line item 725683). The latter appropriation item is supported by the Soil and Water Districts Assistance Fund (Fund 5BV0), which receives revenue from (1) a disposal fee

of 12.5 cents per cubic yard or 25 cents per ton of construction and demolition debris, (2) 25 cents per ton of municipal solid waste, and (3) 50 cents per tire on the sale of new tires. The fee on the disposal of construction and demolition debris does not expire. However, the fees on solid waste and tire sales are currently scheduled to expire at the end of FY 2013 and the end of FY 2014, respectively, and are both renewed through FY 2016 under the executive proposal.

The Division of Soil and Water Resources uses these line items to provide direct assistance to Ohio's 88 county SWCDs for the planning, design, and construction of conservation projects to reduce soil erosion and protect local water resources. A portion of these funds are also used to provide technical assistance, support local watershed coordinators, implement pollution control programs, and related activities. SWCDs are required to match state assistance pursuant to a formula adopted by the Soil and Water Conservation Commission. Under the current formula, the state provides a dollar-for-dollar match to the first \$15,000 a district receives in local funds. State funds are then distributed to SWCDs using a match percentage based on the total amount of local funds appropriated for SWCDs statewide divided by the amount of state funds available to match those local funds. If a SWCD receives over \$500,000 in local funds, the state will match 60% of the amount that would otherwise have gone to that district under the match percentage determined by the formula.

Water Resources

Healthy Lake Erie Fund (725505)

This line item, created as part of the Mid-Biennium Review bill (H.B. 487 of the 129th General Assembly), uses recommended GRF appropriations of \$350,000 in FY 2014 and \$200,000 in FY 2015 to assist landowners in the Lake Erie Basin with implementing "4R" nutrient stewardship practices in an effort to reduce runoff that can lead to harmful algae blooms. Temporary law continuing from H.B. 487 also permits these funds to be used for soil testing, water quality testing, and research and pilot projects aimed at the reduction of these algae blooms. These activities are undertaken by DNR in consultation with the Department of Agriculture and the Environmental Protection Agency as part of the Ohio Clean Lakes Initiative.

Water Management (725620)

The executive proposal provides funding of approximately \$2.6 million in each fiscal year for this line item, which supports various water resources and management programs within the Division. These programs include Floodplain Management, Ground Water Resources, Stream Morphology and Stormwater, and Water Inventory and Planning. The Water Inventory and Planning Program includes the administration and implementation of the Water Withdrawal and Consumptive Use Permitting Program and new water withdrawal reporting requirements enacted under H.B. 473 of

the 129th General Assembly. Some funds are also used to purchase water from lakes managed by the U.S. Army Corps of Engineers to sell water to local entities under long-term water sales contracts and agreements. Funds for these activities are derived from the sale and lease of water supplies from public sources, including streams, lakes, and reservoirs, that are deposited into the Water Management Fund (Fund 5160).

Federal – Soil and Water Resources (725660)

This line item is provided \$969,190 in FY 2014 and just over \$1.0 million in FY 2015 under the executive proposal. Funds in this line item are supported by grants from federal agencies for various water management activities. Money from the Federal Emergency Management Agency (FEMA) is used by the state for floodplain management activities, including activities related to floodplain mapping and the coordination of Ohio's portion of the National Flood Insurance Program. Funding from the U.S. Environmental Protection Agency is used for the Ohio Nonpoint Source Management Program and to support grants to watershed coordinators.

Dam Safety

Dam Safety (725661)

The executive provides \$943,517 in each fiscal year for this line item, which funds DNR's Dam Safety Program. Activities include dam inspections and oversight of dam construction projects to ensure that dams are physically sound and do not endanger public health and safety. This line item is supported by the Dam Safety Fund (Fund 6150), which receives revenue from dam permit fees and fines from violations of dam regulations. These fees include a \$300 base fee for a class I dam and a \$90 base fee for class II and III dams. In addition, all classes of dams include fees based on the dam's height and width, as well as the amount of water impounded by the dam. Funding for the actual work to perform improvements in dams under DNR's jurisdiction is provided through the state's capital appropriation process. Most recently, H.B. 35 of the 130th General Assembly, the transportation budget bill, includes an additional \$30.0 million for these purposes in the FY 2013-FY 2014 capital biennium in order to perform work on nine DNR-owned dams where immediate capital needs have been identified.

Soil and Water Resources Administration

Division of Soil and Water Resources (737321)

This GRF line item serves as the primary source of operating support for the Division of Soil and Water Resources. Appropriations under the executive proposal are just under \$4.8 million in each fiscal year, or about 4.0% below FY 2013 estimated expenditures. These funds provide payroll, maintenance, and equipment costs for the various functions of the Division. In addition, a portion of this line item is used to

provide matching dollars for federal grants received and disbursed through line item 725660, Federal – Soil and Water Resources.

Natural Resources Special Purposes (725604)

The executive proposal creates this new line item and its associated fund, the Natural Resources Special Purposes Fund (Fund 5MW0), with appropriations of \$6.0 million in each fiscal year. Section 512.30 of H.B. 59 directs the Office of Budget and Management to transfer up to \$12.0 million from the expected excess cash balance in the GRF at the end of FY 2013 to Fund 5MW0 to fund this line item over the FY 2014-FY 2015 biennium. These funds will be used by DNR for costs associated with litigation for which the use of state capital funding is not permissible. Specifically, DNR intends to direct a portion of these funds toward land surveys, appraisals, title searches, and various court and legal costs such as those for court reporters, court transcripts, court filings, depositions, expert witnesses, and trial preparations. One particular example of a case that will use these funds is DNR's compliance with a court order to compensate landowners affected by flood damage from Grand Lake St. Marys through the acquisition of flowage easements.

Category 8: Watercraft

Line items in this category fund the operations and programs of the Division of Watercraft, which oversees boat registration, administers grants for capital improvement projects such as launch ramps and marinas, and manages the Ohio Scenic Rivers Program. Almost all of the Division's funding is supported by the Waterways Safety Fund (Fund 7086), which derives its revenue from 0.875% of the state's motor fuel tax collections, watercraft registration and title fees, waterways conservation assessments, and other divisional charges.

Governor's Recommended Amounts for Watercraft

7086	725506	Watercraft Marine Patrol	\$576,153	\$576,153
7086	725513	Watercraft Educational Grants	\$366,643	\$366,643
7086	739401	Division of Watercraft	\$19,467,370	\$19,297,370
Waterways Safety Fund Group Subtotal			\$20,582,348	\$20,412,348
Total Funding: Watercraft			\$20,684,848	\$20,514,848

Scenic Rivers Protection (725668)

The executive proposal appropriates \$100,000 in each fiscal year for this line item, which partially funds the Ohio Scenic Rivers Program. This program oversees 14 rivers designated as Scenic, Wild and Scenic, or Scenic and Recreational Rivers that encompass approximately 800 miles of waterways. The program serves to manage and monitor the quality of these rivers, review public projects and local zoning actions that may affect them, and to ensure their conservation for recreational use. This line item is supported through the Scenic Rivers Protection Fund (Fund 4U60), which receives a portion of the revenue generated by the sale of the state's Scenic Rivers license plate. Additional program costs, including payroll and equipment, are supported through the Waterways Safety Fund (Fund 7086) via line item 739401, Division of Watercraft.

Watercraft Law Enforcement (725614)

This new line item receives appropriations of \$2,500 in each fiscal year from the Watercraft Law Enforcement Fund (Fund 5EN0). These funds are to be used for the Division's law enforcement purposes and are supported by revenues from fines and

penalties collected by Watercraft Officers as a result of enforcement actions that occur within the jurisdiction of the Division of Watercraft.

Buoy Placement (725418)

This line item receives appropriations of \$52,182 in each fiscal year under the executive proposal for the purchase and installation of buoys, signs, and other navigational equipment to aid boaters on Ohio's waterways. These costs are supported by the Waterways Safety Fund (Fund 7086).

Waterway Safety Grants (725501)

The executive proposal recommends appropriations of \$120,000 in each fiscal year for this line item. These funds are used to reimburse the Division of Wildlife, the Division of Parks and Recreation, soil and water conservation districts, and other political subdivisions in proportion to the number of watercraft and outboard motor registrations that consider each respective entity to be that which is principally used by the registered watercraft or motor. Amounts used for this line item are Fund 7086 revenues derived from watercraft registration fees from each of the entities that are reimbursed through this line item.

Watercraft Marine Patrol (725506)

This line item is appropriated \$576,153 in each fiscal year under the executive proposal and is used to provide operating subsidies for statewide marine patrol programs. Funds are awarded from Fund 7086 through this line item to local governments, state agencies, and soil and water conservancy districts through grants to establish and maintain marine patrols on local waterways. State law caps the amount an individual entity may receive through this program at \$35,000 per year, and grantees are required to provide a 25% match.

Watercraft Educational Grants (725513)

The executive proposal recommends appropriations of \$366,643 in each fiscal year for this line item, which is also supported by Fund 7086. This line item is used to award grants to local governments, state agencies, soil and water conservancy districts, and nonprofit organizations to establish and operate boating safety education programs. The amount an individual entity may receive is capped at \$30,000 per year, and grantees are required to provide a 25% match.

Division of Watercraft (739401)

This line item serves as the primary source of operating support for the programs of the Division of Watercraft. The executive proposal recommends appropriations of approximately \$19.5 million in FY 2014 and \$19.3 million in FY 2015 for this line item within Fund 7086. The FY 2014 appropriation marks an increase of 4.3% over FY 2013, while the FY 2015 level is 0.9% below FY 2014. These funds are used for payroll and

other operating expenses incurred by the Division of Watercraft in administering the range of activities under its jurisdiction. These include watercraft safety, education, and enforcement purposes, including supporting the costs of marine law enforcement patrol operations, conducting vessel safety and hull inspections, administering the safety and educational grant programs, and other related activities. Other funds support watercraft registration operations, which include processing an estimated 125,000 registrations annually, and other activities such as title and registration audits, title searches, and related functions. Finally, this line item provides funding for most of the Division's central administrative costs.

Category 9: Coastal Management

This category consists of funds administered by the Office of Coastal Management, which operates programs to maintain and preserve Ohio's Lake Erie coastline. The chief source of funding for the Office is federal grants for coastal protection programs, which make up approximately 54% of its proposed budget in FY 2014 and FY 2015.

Total Funding: Coastal Management			\$5,203,159	\$5,219,361

Submerged Lands (725670)

The executive recommended appropriation for this line item is \$852,982 in FY 2014 and \$869,145 in FY 2015. Funds in this line item are derived from leases of submerged land in Lake Erie, income from which is deposited into the Lake Erie Submerged Lands Fund (Fund 6970). These revenues are used primarily for support to local entities for approved construction projects along the Lake Erie coast. Some of these funds are used to meet state matching requirements for federal funds appropriated in line item 725650, Coastal Management – Federal.

Coastal Management – Federal (725650)

This line item receives funds from the National Oceanic and Atmospheric Administration (NOAA) as part of state-federal programs such as the Coastal Zone Management Administration Program and the Coastal Estuarine Land Conservation Program. DNR makes a portion of these funds available to local entities for the protection and management of coastal resources, with the rest used to administer the Coastal Management Program. The executive recommendation appropriates approximately \$2.8 million in each fiscal year for this line item.

Lake Erie Shoreline (725606)

Funds in this line item are used for activities to protect Lake Erie's shoreline and water, including erosion prevention and the development of recreational facilities. The executive recommendation appropriates about \$1.6 million for this line item in each fiscal year, an increase of 3.6% over the FY 2013 level. Spending in this line item is supported by the Permit and Lease Fund (Fund 5140), which is supported by income from permits and leases for the removal of minerals from beneath the bed of Lake Erie, such as from underground salt mines, as well as sand and gravel. Some of this line item is also used to meet state matching requirements for the NOAA grants appropriated in line item 725650. In addition, the Division of Soil and Water Resources and the Division of Geological Survey also draw upon funds in this line item for water management and geological mapping programs related to Lake Erie.

Category 10: Geological Survey

Line items in this category fund the Division of Geological Survey, which prepares maps, reports, and analyses of Ohio's geological formations, mineral deposits, and other subsurface features for use by Ohio's mineral industries, the general public, and DNR's other divisions. The Division maps bedrock, coal and mineral deposits, coastal erosion areas, and other geological formations; provides geological and technical assistance to the mining and drilling industries; operates the H.R. Collins Laboratory and core sample depository near Alum Creek State Park in Delaware County; and produces reports on Ohio's geological features.

Total Funding: Geological Survey			\$2,961,638	\$3,358,165

Division of Geological Survey (728321)

Under the executive proposal, this GRF line item will fund \$800,000 of the Division of Geological Survey's payroll in each year of the FY 2014-FY 2015 biennium. The Division did not receive GRF funding in the FY 2012-FY 2013 biennium, but the executive recommendations restore some GRF support due to the anticipated receipt of severance tax revenues from horizontal wells under the Governor's tax proposal.

Geological Survey – Federal (725632)

The executive recommendation of \$993,448 in FY 2014 and \$557,146 in FY 2015 will support payroll, supplies, and equipment costs for the Division of Geological Survey's mapping operations. These funds consist of grants from the United States Geological Survey (USGS) for various mapping and research projects. The decrease of 40.3% between FY 2014 and FY 2015 is due to the anticipated discontinuation or reduction of some federal grants related to oil and gas field mapping projects.

Ohio Geologic Mapping (725646)

This line item receives appropriations of \$1.2 million in FY 2014 and nearly \$2.0 million in FY 2015 under the executive proposal. Increases of 73.1% between FY 2013 and FY 2014 and 63.3% between FY 2014 and FY 2015 are due to additional anticipated severance tax revenues to the Geologic Mapping Fund (Fund 5110), although actual spending will depend on how much is actually received and what activities can be carried out by the Division using the funds. This line item supports the Division's geologic mapping operations, including field, laboratory, and administrative tasks. Fund 5110 receives 100% of salt severance tax revenues; 4.76% of coal severance tax revenues; 7.5% of limestone, dolomite, sand, and gravel severance tax revenues; and 10% of oil and natural gas severance tax revenues. The fund also collects receipts from the Division's sale of geological maps, data, and other such products and services.

Ohio Geology License Plate (725635)

The executive proposal appropriates \$7,500 in each fiscal year for this line item, which uses revenues generated from the sale of Ohio Geology license plates to award funding for graduate level geological research conducted in Ohio. If there is sufficient money in the fund, these dollars may also be used to provide geological educational materials, such as rock and mineral kits, to elementary schools. This program is administered, and awards are determined by, the Ohio Geology Advisory Council.

Category 11: Administration and Debt Service

These line items fund DNR's central administrative and management functions and pay debt service costs for the Department's various bond-funded capital projects. This category includes support for DNR's executive leadership, information technology (IT) services, engineering and real estate services, and law enforcement administration operations. For the purposes of this analysis, this category is divided into five subcategories: Centralized Departmental Services, Engineering and Real Estate, Law Enforcement, Pass-Through Funding Administration, and Debt Service.

Centralized Departmental Services

Office of Information Technology (729321)

This GRF line item supports some costs borne by DNR's Office of Information Technology, including payroll, maintenance, and equipment expenses for the Department's geographical information system (GIS) services. The executive recommendation is \$177,405 in each fiscal year, 10.0% below the FY 2013 level of \$197,117. Most of the Office's funding is derived from line item 725687, Information Services, described further below.

Central Support Indirect (725651)

This line item receives appropriations of about \$4.6 million in FY 2014 and \$4.7 million in FY 2015 under the executive proposal. These funds are used to cover the payroll and operating costs of DNR's central administrative offices, including the Director's office, finance, communications, legal counsel, and other departmental support functions. This line item is supported by charges to each DNR division for their share of the department's central support costs that are deposited into the Central Support Indirect Chargeback Fund (Fund 1570).

Information Services (725687)

This line item is funded at approximately \$5.2 million in FY 2014 and \$5.3 million in FY 2015 under the executive proposal. These funds support the costs of central IT services provided to DNR's divisions, including technical support, software design, GIS support, and telephone services. The Information Services Fund (Fund 2040) is capitalized through charges to DNR divisions and offices that utilize the services provided by DNR's Office of Information Technology.

Human Resource Direct Service (725696)

This new line item, funded at about \$2.5 million annually in the executive proposal, is to be used to cover the support, coordination, and oversight costs of DNR's human resources (HR) operations. DNR plans on consolidating its HR functions into a centralized structure in the FY 2014-FY 2015 biennium, so that all its divisions can access HR services at a single point. This involves creating a central Office of Human Resources to supplant the Department's existing decentralized model, under which DNR's various divisions handle their own HR operations. Under the new centralized structure, the Office of Human Resources will charge each division or office for their share of HR services provided. These charges will fund the consolidated HR services paid for under this line item.

Water Resources Council (725662)

DNR acts as the fiscal agent for the Ohio Water Resources Council, which consists of the directors of Agriculture, Development Services, Health, Natural Resources, Transportation, Environmental Protection, the Public Works Commission, the Public Utilities Commission, and the Water Development Authority. The Council coordinates and develops statewide water policy and planning activities for state agencies. This line item is supported by charges to all participating agencies to cover the Council's administrative costs and is flat funded at approximately \$138,000 in each fiscal year under the executive proposal.

Fountain Square Facilities Management (725664)

This line item supports the costs of maintenance, utilities, repairs, and other costs directly associated with the management of DNR's headquarters facilities at the Fountain Square complex. The executive recommendation for this line item is approximately \$3.3 million in each fiscal year, a 4.1% decrease from just under \$3.5 million in FY 2013. This line item is funded through the Fountain Square Management Fund (Fund 6350), which receives revenues through charges to DNR's programmatic divisions and rental payments from non-DNR entities that lease space in the Fountain Square complex.

Engineering and Real Estate**Division of Engineering (736321)**

The executive proposal recommends appropriations of just under \$2.3 million in FY 2014 and just over \$2.3 million in FY 2015 for this line item, a decrease from nearly \$3.0 million in FY 2013. These GRF funds support payroll and other operating costs of the Division of Engineering, which designs and implements capital improvement projects, including overseeing construction and renovation work and supervising the activities of outside contractors. The Division also provides architectural and engineering support for DNR facilities, provides land surveying services, and coordinates disaster response assistance with the Ohio Emergency Management Agency. Funds also support the costs of administering land planning, capital improvement planning, and environmental review functions. The Division also is responsible for the Department's real estate and land management services (see line item 738321, Division of Real Estate and Land Management, below).

Under the executive proposal, the Ohio Facilities Construction Commission (OFCC) would assume administrative responsibility for certain DNR capital projects. DNR, presumably through the Division of Engineering, would still administer projects related to dams, waterways, wildlife facilities, and roadways within its jurisdiction, while OFCC would administer most others, largely consisting of those in the state

parks. DNR would still be permitted to administer any project for which the costs are less than or equal to \$1.5 million.

Division of Real Estate and Land Management (738321)

This GRF line item provides funding for the Office of Real Estate within the Division of Engineering at a level of \$715,963 in FY 2014 and \$670,342 in FY 2015 under the executive proposal. Formerly a division (the line item's name has not been updated to reflect the change), but consolidated into the Division of Engineering in FY 2012, the Office oversees such activities as real estate appraisals, title work, negotiations, land acquisition and inventory, and leasing.

Real Estate Services (725690)

The executive proposal recommends appropriations of \$50,000 in each fiscal year for this line item, which supports internal real estate services for DNR. The line item is capitalized by the Real Estate Fund (Fund 2070), which receives revenue from charges to other DNR divisions that use the Department's centralized real estate services. Activities the office performs on behalf of other divisions include leasing, land sales, land purchases, right-of-way acquisitions and awards, right of entry agreements, land survey services, and appraisal valuation services. The Office also maintains records and GIS maps of Natural Resources real estate.

Parks Project Personnel (725406) and NatureWorks Personnel (725622)

These line items use a portion of general obligation bonds to pay for administrative costs related to state and local park capital improvement projects. Line item 725406, Parks Project Personnel, receives appropriations of \$436,500 in each fiscal year under the executive proposal for parks and recreation capital project administration services performed by the Division of Engineering. Line item 725622, NatureWorks Personnel, receives appropriations of \$404,657 in FY 2014 and \$412,570 in FY 2015 under the executive proposal. These funds are used to administer the NatureWorks Program, which provides grants from capital moneys to local governments for the acquisition, development, or rehabilitation of public parks and recreation areas. Most of the funds in this line item support the Division of Engineering's work on NatureWorks projects, with an allocation for technical services related to dam safety performed by the Division of Soil and Water Resources.

Law Enforcement

Law Enforcement Administration (725665)

This line item provides for the centralized support costs associated with the Department's law enforcement functions and investigative services, as well as funding for DNR's administration and implementation of the Multi-Agency Radio Communications System (MARCS). Activities supported at the proposed funding level

of approximately \$2.1 million in each fiscal year include law enforcement dispatching, training, and coordination with the Ohio Department of Public Safety, as well as the maintenance and installation of MARCS communications equipment. The Law Enforcement Administration Fund (Fund 2230) receives revenue from charges to DNR's law enforcement divisions (Parks and Recreation, Wildlife, and Watercraft) that utilize the MARCS system and central law enforcement services.

FOP Contract (725675)

This line item consists of proceeds from assessments on DNR divisions that employ members of the Fraternal Order of Police (FOP) negotiating committee. These funds are used to reimburse the FOP committee members for their committee time instead of their respective divisions' operating funds. Recommended funding is \$20,219 in each fiscal year, of which \$12,034 is allocated to the Division of Parks and Recreation and \$8,185 is allocated to the Division of Wildlife.

Pass-Through Funding Administration

Federal Forest Pass-Thru (725640)

This line item serves as a conduit for disbursing timber sales revenue to counties whose jurisdiction includes national forests. These payments are made in lieu of property taxes paid by the federal government for national forests located within those counties. The executive budget appropriates \$500,000 in each fiscal year for this pass-through line item.

Federal Flood Pass-Thru (725641)

This line item is used to disburse payments made to counties by the U.S. Army Corps of Engineers in lieu of property taxes on federal lands used for flood control projects within those counties. These payments typically consist of mineral royalties and leases of flood control lands. The executive budget appropriates \$500,000 in each fiscal year for this pass-through line item.

Debt Service

Lease Rental Payments (725413) and Natural Resources General Obligation Debt Service (725903)

Totaling about \$95.2 million over the biennium, these two GRF line items constitute approximately two-thirds (67.3%) of the appropriations in the Administration and Debt Service category. Line item 725413, Lease Rental Payments, is appropriated \$21.6 million in FY 2014 and \$23.9 million FY 2015 to retire bonds issued for capital improvements to and construction of parks and recreation facilities made through the Ohio Public Facilities Commission that are then leased back to DNR. Bond proceeds are

deposited in the Parks and Recreation Improvement Fund (Fund 7035) to support these capital improvements.

Line item 725903, Natural Resources General Obligation Debt Service, is used for debt service payments on general obligation bonds issued to finance various capital improvement projects administered by DNR's Division of Engineering and other operating divisions. The executive recommendation for this line item is \$24.3 million in FY 2014 and \$25.4 million in FY 2015.

Category 12: Multi-Divisional Appropriations

DNR's appropriations include several line items that support functions across more than one division and do not fit easily into any of the categories listed above. These may include multi-purpose line items used for decentralized administrative functions, or line items used for similar functions that are duplicated by more than one division. Such line items are listed and described in this section.

Governor's Recommended Amounts for Multi-Divisional Appropriations				
Fund		ALI and Name	FY 2014	FY 2015

Departmental Projects (725601)

This line item covers various operating costs associated with projects performed by DNR's various divisions and offices. The executive recommends appropriations of about \$2.1 million in FY 2014 and \$1.8 million in FY 2015. The line item is capitalized by the Departmental Projects – Intrastate Fund (Fund 1550), which receives revenue from contractual agreements between DNR divisions and other agencies, between two or more DNR divisions, various interdepartmental transfers and charges, and one-time grants, donations, and other sources. The fund also collects revenues from a well log filing fee charged for the construction of new public or private drinking water wells. Public wells are charged \$20, while private wells are charged \$18. The following table shows how the appropriations for line item 725601, Departmental Projects, are expected to be spent by division.

Appropriations by Division for 725601, Departmental Projects			
Division	FY 2014	FY 2015	Purpose
Natural Areas and Preserves	\$151,600	\$151,600	Administrative costs funded by royalties and donations
Soil and Water Resources	\$1,350,254	\$1,350,254	Well log filing; Ground Water Resources Program; soil inventory and evaluation; program support
Geological Survey	\$305,764	\$35,000	Geological mapping
Engineering/Administration	\$302,350	\$302,350	Program support
Total	\$2,109,968	\$1,839,204	

Maintenance – State-owned Residences (725631)

This line item receives appropriations of \$303,611 in each fiscal year under the executive proposal. These funds support the maintenance and improvement of state-owned residential properties that are rented to employees of certain DNR divisions. The Property Management Fund (Fund 5100) supports this line item through rental payments made by the employees who live in the residences. The following table displays the expected allocation of this line item by division.

Appropriations by Division for 725631, Maintenance – State-owned Residences		
Division	FY 2014	FY 2015
Parks and Recreation	\$194,000	\$194,000
Wildlife	\$84,611	\$84,611
Forestry	\$25,000	\$25,000
Total	\$303,611	\$303,611

Injection Well Review (725628)

This line item receives appropriations of \$128,466 in each fiscal year under the executive proposal. This line item is used by DNR divisions that oversee injection wells for treated or untreated liquid waste. The Injection Well Review Fund (Fund 4J20) receives an allocation totaling 15% of the amount in the Environmental Protection Agency's Underground Injection Control Fund for the purposes of this line item. The following table shows the expected allocation of these funds by division.

Appropriations by Division for 725628, Injection Well Review		
Division	FY 2014	FY 2015
Oil and Gas Resources Management	\$52,616	\$52,616
Soil and Water Resources	\$5,820	\$5,820
Geological Survey	\$70,030	\$70,030
Total	\$128,466	\$128,466

Performance Cash Bond Refunds (725659)

This line item receives appropriations of \$496,263 in each fiscal year under the executive proposal. The Bond Refunds Fund (Fund R017) is used by the divisions of Parks and Recreation, Forestry, Mineral Resources Management, and Oil and Gas Resources Management to collect moneys that DNR receives from other entities as performance security and to refund those entities upon the completion of work or satisfaction of terms for which the performance bond was required. The fund is also used by the Office of Real Estate within the Division of Engineering to hold amounts owed by the previous owners of land purchased by DNR for current agricultural use valuation (CAUV) assessments. These are essentially costs that are assumed by DNR upon the purchase of land that are required to be paid to the appropriate local taxing authorities. The table below shows the expected allocation by division for this line item in the FY 2014-FY 2015 biennium, along with the purpose for which each division uses the fund.

Appropriations by Division for 725659, Performance Cash Bond Refunds			
Division	FY 2014	FY 2015	Purpose
Parks and Recreation	\$17,000	\$17,000	Performance bonds from concession operators
Forestry	\$120,000	\$120,000	Performance bonds from logging companies
Mineral Resources Management	\$324,263	\$324,263	Performance bonds from operators of coal and industrial mineral mines and quarries
Oil and Gas Resources Management	\$25,000	\$25,000	Performance bonds from operators of oil and gas wells
Engineering (Office of Real Estate)	\$10,000	\$10,000	CAUV assessment payments to local governments

Legal Basis: ORC 1561; Proposed by section 333.10 of H.B. 59

Purpose: These funds will be used for operating costs associated with DNR's coal mine regulatory activities and the Mine Safety Program. The latter was formerly funded by annual transfers of \$3.0 million from the Bureau of Workers' Compensation's Coal Workers Pneumoconiosis Fund to the Mine Safety Fund (Fund 5CU0). The executive proposal ends these transfers and instead uses GRF moneys to support these activities, including mine safety testing and certification, health inspections, underground mine electrical safety training and inspections, and mine rescue equipment.
