No provision.	No provision.	<p>Expands, for purposes of the law that requires forfeiture of the right to receive future retirement benefits for conviction of one of the specified felonies while serving in a "position of honor, trust, or profit," the definition to include a position in which, in the course of public employment, an employee has control over the expenditure of public funds of \$100,000 or more annually.</p> <p>Fiscal effect: Any disability benefits forfeited under the bill would reduce the respective retirement system or plan's liability, thus creating a minimal decrease in the retirement system or plan's expenditures to provide such a benefit.
