
CONTROLLING BOARD

- Would have prohibited the Controlling Board from authorizing expenditure of unanticipated revenue received by the state if the revenue exceeded the lesser of:
 - 10% of the amount appropriated for the specific or related purpose or item for that fiscal year; or
 - \$10 million (VETOED).
- Would have prohibited the Controlling Board from creating additional funds to receive unanticipated revenue in an appropriation act for the biennium in which the new revenues were received if the revenue exceeded \$10 million (VETOED).

Authority regarding unanticipated revenue (VETOED)

(R.C. 131.35)

Expenditure

The Governor vetoed provisions that would have imposed limitations on the Controlling Board's authority to approve the expenditure of certain federal and nonfederal funds.

Federal funds

The federal funds to which this provision would have applied are those received into any state fund from which transfers may be made by the Controlling Board under ongoing law.

Under ongoing law:

(1) If the federal funds received are greater than the amount of such funds appropriated by the General Assembly for a specific purpose, the Board may authorize the expenditure of those excess funds.

(2) If the federal funds received are not anticipated in an appropriations act for the biennium in which the new revenues are received, the Board may create funds for those revenues and authorize expenditures from those additional funds during that biennium.

The Governor vetoed a provision that would have stipulated that any expenditure authorized under (1) or (2), above, for a specific or related purpose or item

in any fiscal year could not exceed 10% of the amount appropriated for that specific or related purpose or item for that fiscal year, or \$10 million, whichever was less.

Nonfederal funds

The nonfederal funds to which this provision would have applied are those received into any state fund from which transfers may be made by the Controlling Board under ongoing law, as well as the Waterways Safety Fund and the Wildlife Fund.

Under ongoing law:

(1) If the nonfederal funds received are greater than the amount of such funds appropriated, the Board may increase the appropriation and approve the expenditure of those excess funds.

(2) If the nonfederal funds received are not anticipated in an appropriations act for the biennium in which the new revenues are received, the Board may create funds to receive those revenues and authorize expenditures from those additional funds during that biennium.

The Governor vetoed a provision that would have stipulated that any expenditure authorized by the Board under (1) or (2), above, for a specific or related purpose or item in any fiscal year could not exceed 10% of the amount appropriated for that specific or related purpose or item for that fiscal year, or \$10 million, whichever was less.

Creation of new funds

The Governor vetoed a provision that would have prohibited the Controlling Board from creating any additional funds under its continuing authority if the revenue received that was not anticipated in an appropriation act exceeded \$10 million.
