PUCCD1 Percentage of Income Payment Plan (PIPP) program

R.C. 4928.54, 4928.543, 4928.544, Repealed: 4928.542

Transfers the authority to aggregate Percentage of Income Payment Plan (PIPP) program customers for the purpose of a competitive procurement process for the supply of retail electric service for these customers from the DEV Director to PUCO and make this authority permissive instead of mandatory as under current law.

Requires PUCO to inform the DEV Director if PUCO decides to aggregate PIPP program customers and requires that to be done as soon as possible after the decision is made for the director's consideration of possible universal service rider adjustments allowed under ongoing law.

Specifies that the design for the competitive procurement process may include full or partial auctions of PIPP program customers to the extent necessary to transition these customers to the applicable standard service offer (SSO) for retail electric service.

Repeals the law requiring winning bids selected under a competitive procurement process that aggregates PIPP program customers to (1) be designed to provide reliable competitive retail electric service to PIPP customers, (2) reduce PIPP program costs relative to the otherwise applicable SSO, and (3) result in the best value for persons paying the universal service rider.

Fiscal effect: Potential increase in costs for PUCO and potential decrease in costs for DEV, both likely minimal. Costs for both agencies for this purpose are reimbursed by the Universal Service Fund Rider, paid by electric consumers. Potential minimal change in costs of electricity for the state and local governments as ratepayers.
