Agency overview

Ohio Deaf and Blind Education Services (ODBES) oversees the Ohio School for the Deaf (OSD) and the Ohio State School for the Blind (OSSB), both located in Columbus. Prior to FY 2024, OSD and OSSB were separate state agencies. H.B. 33 of the 135th General Assembly established ODBES and placed OSD and OSSB under it. OSD is a state-supported public school and residential facility for deaf and hearing-impaired children from birth through age 22. Likewise, OSSB is a state-supported specialized educational and residential facility that provides free educational and related services to Ohio students from birth through age 22 with visual, sensory, and developmental disabilities. The schools were established in 1829 and 1837, respectively. Both schools operate under the control and supervision of the Department of Education and Workforce. Their educational programs must meet the same minimum state standards that apply to any other public school, including the state Operating Standards for Ohio Schools Serving Children with Disabilities. In the past, both schools have maintained additional accreditation with Cognia (formerly Advanced ED). They are currently working toward national accreditation through the Conference of Educational Administrators of Schools and Programs for the

Deaf (CEASD) and Association for Education and Rehabilitation for the Blind and Visually Impaired (AER) by the summer of 2025.

Most of Ohio's school-aged children who are visually impaired or hearing impaired are educated in their resident school districts. Student placement decisions for OSD and OSSB are initiated by the parents and the student's school district of residence following an evaluation team report. In FY 2025, OSD and OSSB educated a total of 242 students, including 129 at OSD and 113 at OSSB. Of these, 105 students resided at the school during the week and participated in afterschool activities, with 70 residing at OSD and 35 residing at OSSB. An additional 34 infants, toddlers, and preschoolers were enrolled in ODBES's early learning services (ELS) programs. The schools offer a number of services in an effort to provide additional care and support to students and their families, including additional academic and guidance support, social and emotional support, academic and career planning, and parent-to-parent support. In addition to the education and residential programs, the schools operate several outreach programs for families with children who are visually or hearing impaired and for the school districts that serve those children across the state.

Analysis of FY 2026-FY 2027 budget

Ohio Deaf and Blind Education Services' (ODBES) appropriations total \$36.1 million in FY 2026 and \$36.9 million in FY 2027. The FY 2026 level represents a \$2.4 million (7.0%) increase from FY 2025 spending of \$33.7 million. FY 2027 funding increases by about \$765,100, or 2.1%. Of the \$73.0 million in total funding over the biennium, 90.7% comes from the GRF, 6.5% from federal funds, and 2.9% from dedicated purpose funds.

In this analysis, each appropriation item's actual expenditures for FY 2022 through FY 2025 and appropriations for FY 2026 and FY 2027 are listed in a table. Following the table, a narrative describes how the appropriation is used.

OSD and OSSB. Prior to their move under a single state agency in FY 2024, OSD and OSSB used separate GRF line items for operations (ALIs 221321 and 226321, respectively).

This line item is used to offset a portion of the payroll costs for a kitchen manager position at the schools. Revenue received from staff purchases of meals at the schools funds this line item, in compliance with the U.S. Department of Agriculture's regulations requiring the schools to separately account for the fees paid by staff for meals. Previously, OSD and OSSB used separate non-GRF line items for this purpose (ALIs 221610 and 226622, respectively). ALI 221610 was combined into ALI 226622 starting in FY 2024 to coincide with the move to a single state agency to oversee the schools.

These funds are from a variety of federal grants passed through DEW or other state agencies. These include Individuals with Disabilities Education Act (IDEA), preschool special education, 21st Century Community Learning Centers, and School Breakfast and School Lunch Program funding. The funds are used as specified in the federal grants for purposes that include special education and related services, child nutrition, afterschool programs that offer academic enrichment services, and other activities.

These federal funds are transferred from the Opportunities for Ohioans with Disabilities (OOD) agency and used to support OSSB's work as part of the Ohio Transition Collaborative. The Collaborative is a partnership between OSSB and other providers of services that help young adults who are blind or visually impaired transition into employment. OSSB staff and contractors use the funds to provide vocational rehabilitation services to special needs individuals during the summer months when school is not in session. The school receives reimbursement through OOD for the services provided. Revenue and expenditures vary depending on the number of students participating in the program in any given year.

This line item is used for the provision of qualifying specialized care, including speech therapy, audiology services, and occupational and physical therapy, for Medicaid-eligible students. The federal government reimburses qualified expenditures incurred by the school. Reimbursement fluctuations are based on services rendered and student eligibility for Medicaid. Prior to FY 2024, OSD and OSSB used separate non-GRF line items for Medicaid services (ALIs 221684 and 226643, respectively) but have since been combined into a single line item coinciding with the schools' move to a single state agency.
