Legal Basis: Article VIII Section 2i of the Ohio Constitution; ORC 154.21; Section 371.10 of Am. Sub. H.B. 1 of the 128th G.A.

Purpose: This line item provides debt service payments to retire the special revenue bonds issued for financing capital improvements for state-supported colleges and universities. These special revenue bonds were issued before 2000 and all of them are scheduled to be retired by 2014. A 1999 constitutional amendment authorized the state to issue general obligation bonds for the purpose of financing capital improvements for higher education. In contrast with special revenue bonds, which are paid by a dedicated revenue source (in this case, GRF), general obligation bonds are backed by the full faith and credit of the state. Because of this additional backing, general obligation bonds can generally be issued at lower interest rates than special revenue bonds. Since 2000, the state has issued only general obligation bonds for the capital needs of state-supported colleges and universities.

Purpose: This line item provides unrestricted subsidies to state-assisted colleges and universities to help offset the operating costs of serving approximately 375,000 full-time equivalent students enrolled in those campuses. In-state undergraduate students as well as both in-state and out-of-state graduate students are eligible for the subsidies. Until FY 2010, the funds from this line item were allocated to each campus according to a complex empirical formula that was largely based on the number of credit hours taken by students in each of the courses offered. Beginning in FY 2010 campus allocations are based on three formulas - one each for university main campuses, university regional campuses, and community and technical colleges - and are based on a number of measures, including course and degree completion. In FY 2010 and FY 2011, funding in this item is combined with funding in item 235644, State Share of Instruction - Federal Stimulus - Education.

Purpose: This line item provides an eligible campus with the difference between its formula-determined debt service amount and the actual debt service amount received by the campus. The funds can be used by the campus only for capital projects. Since 1999 BOR has implemented an incentive-based capital funding policy which determines each campus's debt service amount through a formula that takes into account the amount of space on each campus, the age of that space, the level of enrollment, and the available capital appropriation. Campuses, other than the Ohio Agricultural Research and Development Center (OARDC), that receive debt service amounts higher than their formula-determined amounts will have the difference deducted from their State Share of Instruction subsidy allocations. For OARDC, the difference is deducted from GRF appropriation item 235535, Ohio Agricultural Research and Development Center. These deducted funds are transferred into this line item. The transferred funds and the original appropriation for this item are distributed to campuses that received debt service amounts less than their formula-determined amounts.

In contrast with special revenue bonds, which are paid by a dedicated revenue source, general obligation bonds are backed by the full faith and credit of the state. Because of this additional backing, general obligation bonds can generally be issued at lower interest rates than special revenue bonds.
