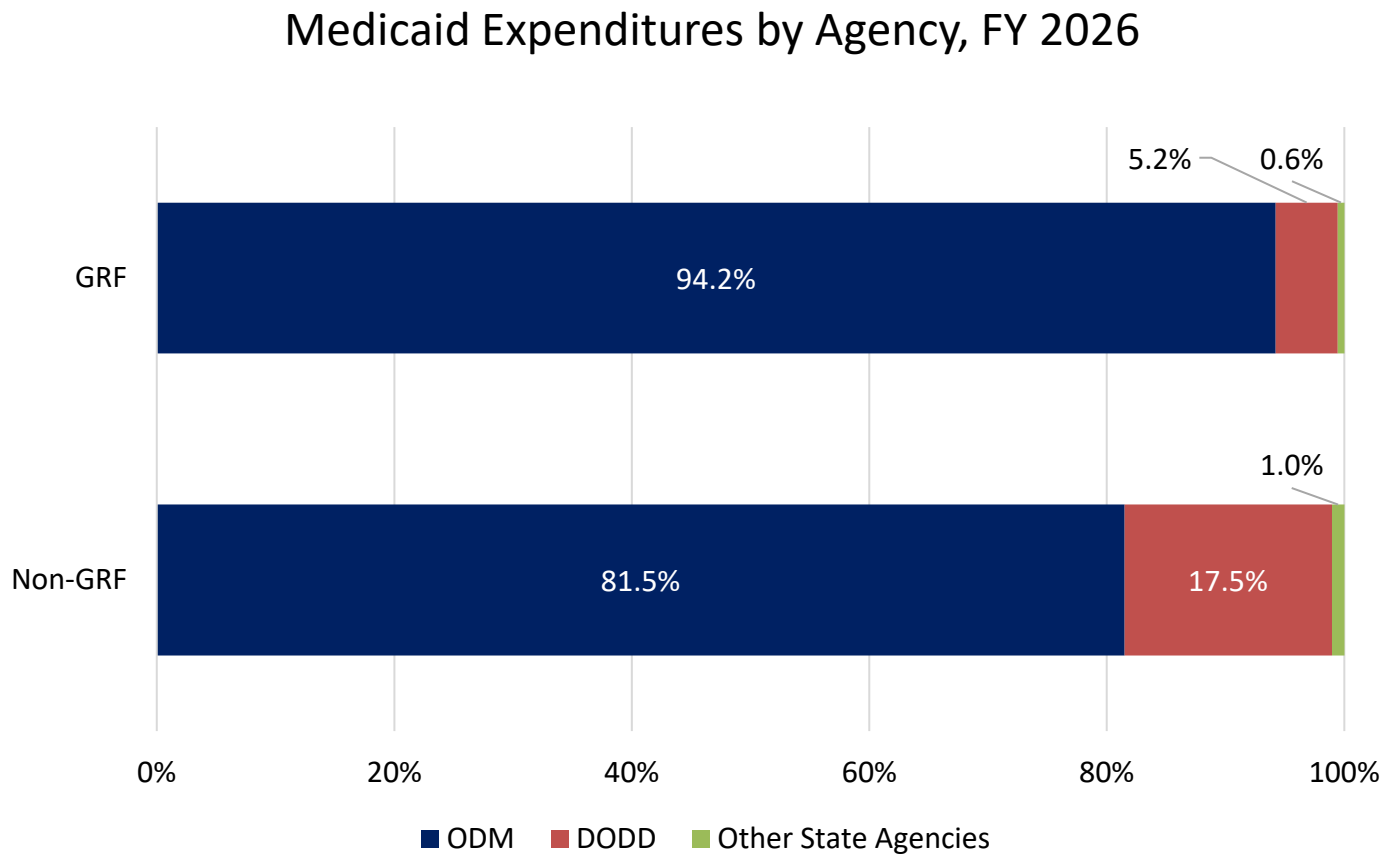
Ohio Department of Medicaid disburses the majority of payments for Medicaid



Source: Ohio Administrative Knowledge System

- GRF Medicaid spending was $21.8 billion in FY 2026, of which 94.2% ($20.5 billion) was disbursed by the Ohio Department of Medicaid (ODM). Non-GRF spending was $23.8 billion, of which 81.5% ($19.4 billion) was disbursed by ODM. Across all funds, Medicaid spending totaled $45.6 billion. ODM accounted for 87.6% ($39.9 billion) of this total.
- Medicaid is administered by ODM with the assistance of eight other state agencies – Developmental Disabilities (DODD), Job and Family Services (ODJFS), Behavioral Health (DBH), Health (ODH), Aging (ODA), Education and Workforce (DEW), Children and Youth (DCY), and State Board of Pharmacy (PRX) – as well as various local entities.
- Unlike ODM and DODD, the seven other agencies incur only administrative spending.
