## State Foundation Aid

- Ohio's largest source of state support for public schools
- Distributed by formula to traditional districts, joint vocational school districts (JVSDs), community schools, and STEM schools
- Mostly based on enrollment, district property values, and district income

## **State Share of the Base Cost**

Determines a per-pupil local contribution then requires the state to make up the difference to bring the total up to a perpupil base cost amount that varies by district. The formula provides a higher state share per pupil to lower wealth districts.

## Targeted Assistance

Additional state aid to school districts with lower capacities to raise local revenues and small school districts with relatively low total property and income
