Director's Message

Protecting Consumers and Ensuring a Financially Strong Insurance Marketplace

We are facing challenging times as a society. Times of uncertainty, adversity, and change for people and organizations. It is in these moments that we have opportunities to demonstrate strong leadership and make a difference. At the Ohio Department of Insurance our commitment to protect insurance consumers and our drive to ensure a financially stable and competitive insurance marketplace has never been stronger or more inspired.

Even before the COVID-19 pandemic began, we were in the midst of one of our busiest times in my 10-year tenure at the department. Laser focused on assisting consumers, and saving and recovering millions of dollars for them; carrying out complex daily oversight duties of an insurance industry ranked as Ohio's largest business sector by gross domestic product (\$25.4 billion); and tackling aspects of growing Ohio's position as a leading and modern insurance environment. All the while ramping up the department's new emerging products, cybersecurity, and mental health and substance use disorder engagement initiatives.

In addition, our leadership efforts representing the state in several policy-making insurance organizations were in full swing. This included a breakthrough "best interest" consumer protection suitability standard during my tenure as chair of a National Association of Insurance Commissioners working group. The standard is now part of the annuities sales national model regulation for states to implement. Right now, we are working to implement these new consumer protections in Ohio.

Director's Message

Then the COVID-19 pandemic hit, requiring us to quickly pivot and address new and unexpected tasks and issues. The department's workforce was transitioned to a teleworking environment. We quickly incorporated greater internal and external efficiencies - and will continue to do so with increased use of electronic processes. Department issued guidance to the insurance industry provided for certain protections for businesses and consumers, including insurance payment grace periods and greater healthcare access, as well as industry regulatory flexibility. Our work in the mental health and substance use disorder space took on great importance. Sharing our enhanced resources and engaging with Ohioans to help them understand applicable insurance benefits has become one of our pillar outreach projects.

It has been a unique time and I am especially grateful for our employees. They have risen to the occasion as public servants. At the department, we are focused on the matters at hand and preparing for the future. We will remain action-oriented, holding true to our core mission of educating and protecting consumers, and fair, but vigilant regulation while promoting a stable and competitive environment for insurers.

Sincerely,

Jillian Froment
Director, Ohio Department of Insurance

About the Ohio Department of Insurance

The Ohio Department of Insurance provides consumer protection through education and fair, but vigilant regulation, while promoting a stable and competitive environment for insurance companies.

The department is charged under Ohio Revised Code Chapters 17 and 39 with the responsibility of regulating the activities of 1,675 insurance companies – nearly 260 of them domiciled in Ohio – that write more than \$102 billion in premiums. The department also monitors the conduct of approximately 252,640 insurance agents and 19,220 insurance agencies doing business in Ohio.

In addition, the department examines the financial soundness of insurance companies, as well as investigates consumer complaints and insurance fraud. Further, the department determines if services and benefits offered by companies are consistent with insurance policy provisions and Ohio law, reviews and approves more than 6,200 company filings per year for life, accident, health, managed care, and property and casualty policy forms and rates.

The Director of Insurance, who is appointed by the Governor, heads the department, which employs approximately 248 full-time permanent staff.

Agent Licensing

Agent Licensing issues licenses to insurance agents, agencies, managing general agents, public insurance adjusters, reinsurance intermediaries, surety bail bond agents, surplus lines, third-party administrators, title, and viatical settlement brokers. Agent Licensing also oversees insurance pre-licensing, testing, and continuing education compliance.

Captive Insurance

The Office of Captive Insurance provides a structured regulatory process for the initial evaluation, licensing, reporting, analysis, and examination of captive insurance companies domiciled in Ohio. Captives are a form of self-insurance and a risk management tool for businesses. The office establishes standards for business and professional support organizations that work with captive entities. It also reviews captive insurance company strategies and their execution to assess and evaluate operational success and financial strength.

Consumer Services

Consumer Services representatives respond to a variety of insurance inquiries from consumers and investigate complaints against insurance companies and agents.

Ohio law gives insurance consumers the right to file a complaint against insurance companies, health maintenance organizations (HMOs), insurance agents and adjusters related to automobile, homeowners, renters, certain health, life, annuities, nursing home, credit life, credit disability and pet insurance. The different types of insurance complaints received from Ohioans are often regarding cancellations, refunds, sales practices, misrepresentation, claim, and benefit disputes.

When Consumer Services receives a complaint against an insurance company, a Consumer Service representative communicates with the company requesting an explanation of its position. The representative will review the company's response to make sure the issue was correctly addressed in accordance with the policy, state insurance laws, and administrative rules, before explaining the outcome of the investigation to the consumer.

Department Divisions

Consumer Services also manages an external review process that provides consumers the opportunity to request a contractual review to challenge an adverse health insurance benefit determination and to appeal, through an independent review organization, the denial, reduction, or termination of certain health care services made by their plan.

Consumers receive assistance from Consumer Services through a toll-free hotline, written correspondence, social media, community outreach, and individualized meetings. Consumer Services also helps monitor companies' compliance with Ohio insurance laws and regulations.

Executive

The Office of the Director includes policy, legislative affairs, and communications staff. Staff oversee agency operations, develop policies on insurance matters, work in collaboration with the Ohio General Assembly and the United States Congress, engage with stakeholders, and manage the department's internal and external communication, including public education initiatives.

The Legal Services, Information Technology and Security, Fiscal and Human Resources teams handle important support functions at the Ohio Department of Insurance.

Legal Services manages regulatory transactions, administers public hearings on insurance agent and company license and enforcement issues, and provides legal assistance to other department divisions.

Information Technology and Security assists the department's regulatory oversight responsibilities through the design, implementation and maintenance of technology infrastructure and programs. Staff also are involved with facility management and security.

Fiscal and Human Resources provide operational support handling accounts payable and receivable, budgeting, payroll, and staffing.

Department Divisions

Fraud and Enforcement

Fraud and Enforcement is responsible for investigating allegations of unlicensed insurance activity, agent misconduct, and insurance fraud. Fraud and Enforcement is classified as a criminal justice agency, and is able to work jointly with other state, federal, and local regulatory and law enforcement agencies when allegations are multijurisdictional in nature. In addition to investigating licensed insurance agents and agencies, staff also investigate consumers, medical providers, and third parties suspected of defrauding Ohio insurance companies. Confirmed insurance law violations are referred for administrative and/or criminal prosecution, and staff offer testimony regarding investigations conducted.

Market Conduct

Market Conduct monitors insurance company compliance with Ohio insurance laws and regulations by examining their business practices such as underwriting, marketing, and claims handling. Staff are responsible for gathering industry information from a variety of sources, including consumer complaints, company filings, and the National Association of Insurance Commissioners. The information is analyzed to determine if companies need further scrutiny. Market Conduct can require companies to take corrective action.

Ohio Senior Health Insurance Information Program (OSHIIP)

The Ohio Senior Health Insurance Information Program (OSHIIP), funded in part by a federal grant, provides Ohioans receiving Medicare and their caregivers with objective health insurance information, individual counseling and complaint resolution. OSHIIP staff and a statewide network of certified counselors educate consumers about Original Medicare, Medicare supplemental insurance, Medicare prescription drug coverage, Medicare Advantage plans, Medicare Savings Programs, subsidies, long-term care insurance, and other health insurance matters.

Department Divisions

Consumers receive assistance through a toll-free hotline, face-to-face local counseling, local educational seminars, webinar series, print materials, community involvement, and social media. OSHIIP resolves complex casework, enrollment and coordination of benefit issues for Ohio's aged and disabled population. OSHIIP has a dynamic statewide partnership and outreach program and has been recognized as a nationally for excellence and performance.

Product Regulation and Actuarial Services

Product Regulation and Actuarial Services reviews policy forms, endorsements, contractual provisions, and manual rules and rates for products marketed to Ohio consumers by Ohio licensed property and casualty, life and health insurance companies, and their related lines of insurance business. Policy language is reviewed for clarity and compliance with Ohio laws and rules. Rates are reviewed to ensure they are not excessive, inadequate or unfairly discriminatory. Staff participate in risk assessment examinations to evaluate monetary reserves to pay claims, pricing, underwriting and other insurance company financial risks.

Risk Assessment

Risk Assessment monitors the financial solvency of Ohio-based (domestic) insurance companies and monitors and coordinates regulatory oversight of the financial condition of out-of-state (foreign), international (alien), surplus lines, and captive insurers.

Staff analyze financial information provided by Ohio-licensed insurance companies and review complex transactions. They also calculate and certify to the Ohio Treasurer the domestic and foreign insurance premium tax owed to the state. In addition, Risk Assessment monitors company statutory and solvency compliance. Examinations of an insurer's financial condition and affairs are conducted as often as the Director of Insurance deems appropriate, but at a minimum of once every five years, as required by statute.

This was done to ensure that agents could continue to provide services to consumers across the state.

Department Accomplishments

Warned Ohioans of Fake Insurance Products and Scams

The Ohio Department of Insurance warned consumers that individuals claiming to be licensed insurance agents were contacting consumers to sell fake insurance products. The alert indicated scam artists were additionally using robocalls and websites to market fake insurance. Scammers behind such schemes steal money from consumers through fraudulent “premium” billings once the consumer provides their personal and bank account or credit card information. Ohioans were also warned about COVID-19 related insurance fraud scams, such as scammers marketing non-existent or fake COVID-19 testing kits to obtain consumer health insurance and personal information. The collected information is later used to submit fake insurance claims to insurance companies.

Conducted Mental Health and Substance Abuse Disorder Insurance Information Outreach

Ohio Department of Insurance staff created content and conducted outreach to inform Ohioans of resources, including a robust online toolkit, provided by the department to help people understand their mental health and substance use disorder insurance benefits. Also, in response to the COVID 19 pandemic the department reached out to statewide mental health and substance use disorder advocacy and provider organizations to see if we could be of assistance and offering insurance-related education materials.

Collaborated Nationally With Other States

Director Froment and other staff collaborated with state insurance departments staff through the National Association of Insurance Commissioners (NAIC) on such pandemic topics as insurance company statutory accounting treatments, impacts to company solvency, and fraudulent activity in the marketplace. In all, Ohio contributes to 19 committees and task forces, and numerous working groups with the NAIC.

Department staff also began conducting trainings for stakeholders that will help those groups support consumers. decision made by the health plan issuer, including denying, reducing or terminating a requested health care service or payment in whole or in part. During this fiscal year, the Ohio Department of Insurance issued its 2018 Annual Health Claims External Review Report.

During 2018, 572 cases, involving over \$12.6 million in health care benefits and services, were submitted for review by an Independent Review Organization (IRO) to determine the appropriateness of a health plan's adverse benefit determination. The health plan's determination was reversed by the IRO in thirty-three percent of these cases, saving Ohio health insurance consumers almost \$5.8 million.

When a health plan's internal appeal process results in an adverse benefit determination that is based on a contractual issue (not involving medical judgment or medical information), an external request may be submitted by the health plan for contractual review by the Ohio Department of Insurance.

During 2018, the department completed contractual review of 99 cases, involving over \$760,000 in health care benefits and services. Twenty-two of the 99 cases reviewed by the department resulted in reversal of previously denied benefits, recovering almost \$36,000 in additional benefits for Ohio consumers.

Provide Fair and Appropriate Market Regulation

Growth of Emerging Products Initiative

The Ohio Department of Insurance ramped up its efforts around emerging insurance products. As the insurance industry evolves at a rapid pace, driven by new technologies to deliver services, advances in the use of data, and demand for coverage in brand new areas, department staff worked to ensure a flexible regulatory framework as part of the department's new Emerging Products Initiative. Flexibility allows insurers to innovate and provide the best service possible to their customers, all while providing the highest-level consumer protections for Ohioans.

Department staff work with companies in the process of vetting ideas, providing guidance on navigating the department's review process, and help remove unnecessary obstacles while ensuring consumers are protected.

The principles driving the department's approach to emerging products are:

- Maintaining the highest-level consumer protection
- Consumers expect and benefit from the robust competition, lower costs, and choice that comes from properly-regulated innovation
- The regulatory framework should keep pace with changes in the market and consumer expectations
- This initiative should work collaboratively with existing insurance companies, as well as entrepreneurs and others to foster innovation that benefits consumers

Department Accomplishments

Cybersecurity Reforms Implemented, Resource Center Created

Ohio is one of the first states to have implemented cybersecurity reforms specific to insurers. A resource center was created on the Ohio Department of Insurance website and engagement with the insurance industry is underway to assist insurance licensees in understanding and complying with Ohio's new requirements for safeguarding nonpublic data. Recently enacted legislation sets forth steps licensees must take in the event of a data breach, bolstering data loss reporting requirements, and adding a requirement for some licensees to develop and maintain an information security program. This includes reporting the event and other relevant information to the department, and also notify those impacted by the event.
