R.C. 3318.038

Makes the following changes to water bottle filling station and drinking fountain requirements enacted in late 2020 for classroom facility construction projects administered by OFCC:

(1) Specifies that a water bottle filling station may be integrated into a drinking fountain as a "combination unit;"

(2) Requires each building to have a minimum of one "combination unit," instead of drinking fountain as in current law, or water bottle filling station on each floor or wing of the building and per 100 students projected to attend the building;

(3) Requires that a water bottle filling station be accessible to all people in compliance with the federal Americans with Disabilities Act; and

(4) Requires a minimum of one water bottle filling station in or near each cafeteria, gymnasium, outdoor recreation space, or other high-traffic area.

Requires a school district or other public school to permit students, teachers, and other school staff to carry and use water bottles that meet prescribed conditions, but also permits a district or school to prohibit water bottles from a library, computer lab, science lab, or other areas where it is dangerous to have drinking water and to issue disciplinary actions for

misuse of a water bottle.

Fiscal effect: May increase construction costs, shared between the state and school district depending on the district’s relative wealth, for new state-assisted public school facilities. Any new costs might be accounted for in the design phase of a project so as not to increase a project’s overall cost.

FCCCD6 Amendment to project agreement for maintenance levy**Section: 287.50**

Requires OFCC to amend the project agreement between OFCC and a school district that is participating in the Accelerated Urban Initiative (AUI) if FCC determines it is necessary to do so in order to comply with the change in maintenance levy requirements enacted by H.B. 1 of the 128th G.A.

Fiscal effect: H.B. 1 of the 128th General Assembly changed the maintenance levy requirements for the six AUI districts (Akron, Cincinnati, Cleveland, Columbus, Dayton, and Toledo) to run for 23 years from the date the initial segment is undertaken, instead of extending for 23 years after the district's last segment was undertaken (the six AUI projects are broken into individual segments). For the districts that have not changed their agreements yet, the H.B. 1 change would reduce the number of years for which the districts would have to levy the required 1/2 mill property tax for maintenance. Currently, projects for Cleveland, Columbus, and Akron are incomplete. Presumably, these AUI districts would use other funds to meet their building maintenance needs if the original project agreements were amended.

FCCCD9 Returned or recovered funds

Section: 287.80

Requires that any state-source surplus project construction funds or interest earnings returned to the state and any funds recovered from settlements with or judgements against parties relating to their involvement in a classroom facilities project be deposited into the fund for which the project's capital appropriations were made.

Section: 287.80

Same as the Executive.

Permits, in any fiscal year in which OFCC has made a deposit, the Executive Director of OFCC to request the Director of OBM to authorize expenditures from those funds and specified appropriation items in excess of the amounts appropriated in amounts equal to the returned or recovered funds. If approved, appropriates the returned and recovered funds and requires the funds to be used for the Classroom Facilities Assistance Program or the Vocational Facilities Assistance Program.
