Analysis of FY 2022-FY 2023 budget

The State Board of Registration for Professional Engineers and Surveyors, established in 1933, regulates the professions of engineering and surveying in the state of Ohio. The Board had 29,938 active licenses in FY 2020: 3,323 companies, 24,949 professional engineers, and 1,666 professional surveyors.

The Board consists of five members appointed by the Governor, including four professional engineers (one of whom is also a professional surveyor) and one professional surveyor. A staff of nine full-time employees, including an executive director, handle day-to-day operations. One of those positions is currently vacant; the Board does not plan to fill that position during the FY 2022-FY 2023 biennium.

The Board receives no GRF funding, and is supported entirely by engineer, surveyor, and company license fees that are credited to the Occupational Licensing Fund (Fund 4K90). Approximately 65% of the money appropriated from Fund 4K90 for the Board's use is typically allocated for personal services (staff wages and benefits, stipends for Board members, and payroll check off charges).
