## Legislative Service Commission

---

### Quick look...

- The Legislative Service Commission (LSC) is a nonpartisan agency providing drafting, fiscal, research, training, and other technical services to the General Assembly.
- LSC’s governing authority consists of 14 members of the General Assembly, including the President of the Senate and the Speaker of the House of Representatives.
  - The President and Speaker each appoint six additional members, with no more than four of the appointed members from each chamber belonging to the same political party.
- The day-to-day operation of LSC is the responsibility of a director who is appointed by the governing authority. LSC staff includes budget analysts and economists within the Legislative Budget Office (LBO), attorneys and research analysts within the Office of Research and Drafting (ORD), and support personnel.
- Nearly 100% of the funding for the LSC budget comes from the General Revenue Fund (GRF).
- The LSC budget contains two appropriation items that provide funding for two additional legislative agencies: Legislative Information Systems (LIS) and the Correctional Institution Inspection Committee (CIIC).

NCSL and CSG dues are determined by the two organizations using a population-based formula, while other organizations charge a flat annual amount. The table below lists the national associations for which LSC paid membership dues on behalf of the General Assembly in either fiscal or calendar year 2020.

## Legislative Information Services (ALI 035410)

FY 2018 Actual	FY 2019 Actual	FY 2020 Actual	FY 2021 Estimate	FY 2022 Introduced	FY 2023 Introduced

% change	-2.3%	-13.7%	52.9%	0.0%	0.0%

This appropriation item funds the operations of the Legislative Information Systems (LIS). Originally established in 1995 through a resolution of the Legislative Service Commission, LIS serves the General Assembly and legislative agencies by providing computer network services, telephone services, development of new or improved computer applications, and computer education training services. For example, LIS is responsible for the design and support of the SOLAR (State of Ohio Legislative Application Repository). SOLAR entails everything from the initial drafting requests to LSC, through consideration and approval by both the House and Senate, to the preparation of an act for presentation to the Governor. It has modernized Ohio’s legislation management system.

The day-to-day operation of LIS is the responsibility of the Director, who is appointed by the Commission. The LIS Director functions as the General Assembly’s chief technical officer who acts to improve cooperation, standards conformity, and security in all General Assembly IT organizations. Including the Director, LIS employs about 30 staff members. As seen from Chart 2, personal services or payroll cost is the largest spending area of the LIS budget, at 53.4%. The second largest share (29.0%) of the LIS budget is used for supplies, maintenance, and equipment. The remaining share of the LIS budget (17.6%) is used to purchase information technology consulting services, mainly for the development and improvement of SOLAR. One of the significant tasks facing LIS during the next biennium is to incorporate the state budget enactment process into SOLAR.
