Bill Analysis

Laura Gengo

H.B. 32

129th General Assembly
(As Introduced)

Reps. Amstutz, Burke, Carey, Slaby, Derickson, Patmon, Henne, Hackett

BILL SUMMARY

- Exempts certain plans and measurements relating to household or small flow on-site sewage treatment systems from the Professional Engineers and Surveyors Law.

CONTENT AND OPERATION

Exemptions from the Professional Engineers and Surveyors Law

The bill exempts from the Professional Engineers and Surveyors Law several activities that are performed for purposes of household sewage treatment systems, small flow on-site sewage treatment systems, or both. The exemptions apply to all of the following:

- (1) The preparation of plans or drawings for a sewage treatment system or components of a system;
- (2) The measurement of area contours of a portion of land for the installation or modification of a sewage treatment system or components of a system;
- (3) The measurement and documentation of the lengths and widths of the area of a sewage treatment system or components of a system;
- (4) Any other measurement that is necessary to comply with the Household and Small Flow On-site Sewage Treatment Systems Law and rules adopted under it.¹

The Household and Small Flow On-site Sewage Treatment Systems Law provides for the regulation of the following:

¹ R.C. 4733.011.

(1) A household sewage treatment system – a sewage treatment system, or part of such a system, that receives sewage from a single-family, two-family, or three-family dwelling;

(2) A small flow on-site sewage treatment system – a system, other than a household sewage treatment system, that treats not more than 1,000 gallons of sewage per day and that does not require a National Pollutant Discharge Elimination System permit or an injection well drilling or operating permit.²

Thus, the bill exempts any person preparing plans or drawings, or making measurements, for either a household or small flow on-site sewage treatment system from the licensure requirements or disciplinary actions applicable to engineers and surveyors under the Professional Engineers and Surveyors Law.
